On February 3, 2010, the Company’s consolidated wholly-owned subsidiary, Fifth Street Mezzanine Partners IV, L.P. (“FSMP IV”), received a license, effective February 1, 2010, from the United States Small Business Administration, or SBA, to operate as a small business investment company, or SBIC, under Section 301(c) of the Small Business Investment Act of 1958. On May 15, 2012, the Company’s consolidated wholly-owned subsidiary, Fifth Street Mezzanine Partners V, L.P. (“FSMP V”), received a license, effective May 10, 2012, from the SBA to operate as an SBIC. SBICs are designated to stimulate the flow of private equity capital to eligible small businesses. Under SBA regulations, SBICs may make loans to eligible small businesses and invest in the equity securities of small businesses.

The SBIC licenses allow the Company's SBIC subsidiaries to obtain leverage by issuing SBA-guaranteed debentures, subject to the satisfaction of certain customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with 10-year maturities.

SBA regulations currently limit the amount of SBA-guaranteed debentures that an SBIC may issue to $150 million when it has at least $75 million in regulatory capital. Affiliated SBICs are permitted to issue up to a combined maximum amount of $225 million when they have at least $112.5 million in regulatory capital. As of December 31, 2012, FSMP IV had $75 million in regulatory capital and $150 million in SBA-guaranteed debentures outstanding, which had a fair value of $133.6 million. These debentures bear interest at a weighted average interest rate of 3.567% (excluding the SBA annual charge), as follows:

Rate Fix Date	Debenture Amount	Fixed Interest Rate	SBA Annual Charge
September 2010	$ 73,000	3.215%	0.285%
March 2011	65,300	4.084	0.285
September 2011	11,700	2.877	0.285

As of December 31, 2012, FSMP V had $37.5 million in regulatory capital and $31.8 million in SBA-guaranteed debentures outstanding, which had a fair value of $21.3 million and do not yet have a locked interest rate. For the three months ended December 31, 2012 and 2011, the Company recorded interest expense of $1.6 million and $1.6 million, respectively, related to the SBA-guaranteed debentures of both subsidiaries.

The SBA restricts the ability of SBICs to repurchase their capital stock. SBA regulations also include restrictions on a "change of control" or transfer of an SBIC and require that SBICs invest idle funds in accordance with SBA regulations. In addition, the Company's SBIC subsidiaries may also be limited in their ability to make distributions to the Company if they do not have sufficient capital, in accordance with SBA regulations.

The Company's SBIC subsidiaries are subject to regulation and oversight by the SBA, including requirements with respect to maintaining certain minimum financial ratios and other covenants. Receipt of an SBIC license does not assure that the SBIC subsidiaries will receive SBA-guaranteed debenture funding and is further dependent upon the SBIC subsidiaries continuing to be in compliance with SBA regulations and policies.

The SBA, as a creditor, will have a superior claim to the SBIC subsidiaries' assets over the Company's stockholders in the event the Company liquidates the SBIC subsidiaries or the SBA exercises its remedies under the SBA-guaranteed debentures issued by the SBIC subsidiaries upon an event of default.

The Company has received exemptive relief from the Securities and Exchange Commission ("SEC") to permit it to exclude the debt of the SBIC subsidiaries guaranteed by the SBA from the definition of senior securities in the Company's 200% asset coverage test under the 1940 Act. This allows the Company increased flexibility under the 200% asset coverage test by permitting it to borrow up to $225 million more than it would otherwise be able to under the 1940 Act absent the receipt of this exemptive relief.

Note 2. Significant Accounting Policies

Basis of Presentation and Liquidity:

The Consolidated Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and Regulation S-X. In the opinion of management, all adjustments of a normal recurring nature considered necessary for the fair presentation of the Consolidated Financial Statements have been made. The financial results of the Company's portfolio investments are not consolidated in the Company's Consolidated Financial Statements.

FIFTH STREET FINANCE CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Although the Company expects to fund the growth of its investment portfolio through the net proceeds from the recent and future equity offerings, the Company's dividend reinvestment plan, and issuances of senior securities or future borrowings, to the extent permitted by the 1940 Act, the Company cannot assure that its plans to raise capital will be successful. In addition, the Company intends to distribute to its stockholders between 90% and 100% of its taxable income each year in order to satisfy the requirements applicable to Regulated Investment Companies ("RICs") under Subchapter M of the Internal Revenue Code ("Code"). Consequently, the Company may not have the funds or the ability to fund new investments, to make additional investments in its portfolio companies, to fund its unfunded commitments to portfolio companies or to repay borrowings. In addition, the illiquidity of its portfolio investments may make it difficult for the Company to sell these investments when desired and, if the Company is required to sell these investments, it may realize significantly less than their recorded value.

Use of Estimates:

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions affecting amounts reported in the financial statements and accompanying notes. These estimates are based on the information that is currently available to the Company and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ materially from those estimates under different assumptions and conditions. The most significant estimates inherent in the preparation of the Company's Consolidated Financial Statements are the valuation of investments and revenue recognition.

The Consolidated Financial Statements include portfolio investments at fair value of $1.58 billion and $1.29 billion at December 31, 2012 and September 30, 2012, respectively. The portfolio investments represent 151.0% and 142.6% of net assets at December 31, 2012 and September 30, 2012, respectively, and their fair values have been determined by the Company's Board of Directors in good faith in the absence of readily available market values. Because of the inherent uncertainty of valuation, the determined values may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

The Company classifies its investments in accordance with the requirements of the 1940 Act. Under the 1940 Act, "Control Investments" are defined as investments in companies in which the Company owns more than 25% of the voting securities or has rights to maintain greater than 50% of the board representation; "Affiliate Investments" are defined as investments in companies in which the Company owns between 5% and 25% of the voting securities; and "Non-Control/Non-Affiliate Investments" are defined as investments that are neither Control Investments nor Affiliate Investments.

Fair Value Measurements:

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 *Fair Value Measurements and Disclosures* ("ASC 820") defines fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A liability's fair value is defined as the amount that would be paid to transfer the liability to a new obligor, not the amount that would be paid to settle the liability with the creditor. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available or reliable, valuation techniques are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the investments or market and the investments' complexity.

Assets recorded at fair value in the Company's Consolidated Financial Statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Hierarchical levels, defined by ASC 820 and directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, are as follows:

- Level 1 — Unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data at the measurement date for substantially the full term of the assets or liabilities.

FIFTH STREET FINANCE CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
(in thousands, except share and per share amounts, percentages and as otherwise indicated)

- Level 3 — Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

Under ASC 820, the Company performs detailed valuations of its debt and equity investments on an individual basis, using bond yield, market and income approaches as appropriate. In general, the Company utilizes the bond yield method in determining the fair value of its debt investments, as long as it is appropriate. If, in the Company's judgment, the bond yield approach is not appropriate, it may use the market or income approach in determining the fair value of the Company's investment in the portfolio company. If there is deterioration in the credit quality of the portfolio company or an investment is in workout status, the Company may use alternative methodologies, including an asset liquidation or expected recovery model.

Under the bond yield approach, the Company uses bond yield models to determine the present value of the future cash flow streams of its debt investments. The Company reviews various sources of transactional data, including private mergers and acquisitions involving debt investments with similar characteristics, and assesses the information in the valuation process.

Under the market approach, the Company estimates the enterprise value of the portfolio companies in which it invests. There is no one methodology to estimate enterprise value and, in fact, for any one portfolio company, enterprise value is best expressed as a range of fair values, from which the Company derives a single estimate of enterprise value. To estimate the enterprise value of a portfolio company, the Company analyzes various factors, including the portfolio company's historical and projected financial results. Typically, private companies are valued based on multiples of EBITDA (earnings before interest, taxes, depreciation, and amortization), cash flows, net income or revenues. The Company generally requires portfolio companies to provide annual audited and quarterly and monthly unaudited financial statements, as well as annual projections for the upcoming fiscal year. The Company determines the fair value of its limited partnership interests based on the most recently available net asset value of the partnership.

Under the income approach, the Company generally prepares and analyzes discounted cash flow models based on projections of the future free cash flows of the business.

The Company's Board of Directors undertakes a multi-step valuation process each quarter in connection with determining the fair value of the Company's investments:

- The quarterly valuation process begins with each portfolio company or investment being initially valued by the Company's finance department;
- Preliminary valuations are then reviewed and discussed with principals of the Investment Adviser;
- Separately, independent valuation firms engaged by the Board of Directors prepare preliminary valuations on a selected basis and submit the reports to the Company;
- The finance department compares and contrasts its preliminary valuations to the preliminary valuations of the independent valuation firms;
- The finance department prepares a valuation report for the Audit Committee of the Board of Directors;
- The Audit Committee of the Board of Directors is apprised of the preliminary valuations of the independent valuation firms;
- The Audit Committee of the Board of Directors reviews the preliminary valuations, and the finance department responds and supplements the preliminary valuations to reflect any comments provided by the Audit Committee;
- The Audit Committee of the Board of Directors makes a recommendation to the Board of Directors regarding the fair value of the investments in the Company's portfolio; and
- The Board of Directors discusses valuations and determines the fair value of each investment in the Company's portfolio in good faith.

The fair value of all of the Company's investments at December 31, 2012 and September 30, 2012 was determined by the Board of Directors. The Board of Directors has authorized the engagement of independent valuation firms to provide valuation assistance. The Company will continue to engage independent valuation firms to provide assistance regarding the determination of the fair value of selected portfolio securities each quarter; however, the Board of Directors is ultimately and solely responsible for the valuation of the portfolio investments at fair value as determined in good faith pursuant to the Company's valuation policy and a consistently applied valuation process.

The Company has a portion of the portfolio valued by independent third parties on a quarterly basis, with a substantial portion being valued over the course of each fiscal year.

Investment Income:

Interest income, adjusted for accretion of original issue discount or "OID," is recorded on an accrual basis to the extent that such amounts are expected to be collected. The Company stops accruing interest on investments when it is determined that interest is no longer collectible. In connection with its investment, the Company sometimes receives nominal cost equity that is valued as part of the negotiation process with the particular portfolio company. When the Company receives nominal cost equity, the Company allocates its cost basis in its investment between its debt securities and its nominal cost equity at the time of origination. Any resulting discount from recording the loan, or otherwise purchasing a security at a discount, is accreted into interest income over the life of the loan.

Distributions of earnings from portfolio companies are recorded as dividend income when the distribution is received.

The Company has investments in debt securities which contain payment-in-kind or "PIK" interest provisions. PIK interest is computed at the contractual rate specified in each investment agreement and added to the principal balance of the investment and recorded as income.

Fee income consists of the monthly servicing fees, advisory fees, structuring fees and prepayment fees that the Company receives in connection with its debt investments and the accreted portion of the debt origination fees. The Company capitalizes upfront debt origination fees, if any, received in connection with investments. The unearned fee income from such fees is accreted into fee income, based on the straight line method or effective interest method as applicable, over the life of the investment.

The Company has also structured exit fees across certain of its portfolio investments to be received upon the future exit of those investments. Exit fees are fees which are payable upon the exit of a debt security. These fees are to be paid to the Company upon the sooner to occur of (i) a sale of the borrower or substantially all of the assets of the borrower, (ii) the maturity date of the loan, or (iii) the date when full prepayment of the loan occurs. The receipt of such fees is contingent upon the occurrence of one of the events listed above for each of the investments. A percentage of these fees is included in net investment income over the life of the loan.

Gain on Extinguishment of Convertible Senior Notes:

The Company may repurchase its convertible senior notes ("Convertible Notes") in accordance with the 1940 Act and the rules promulgated thereunder and may surrender these Convertible Notes to Deutsche Bank Trust Company Americas (the "Trustee"), as trustee, for cancellation. If the repurchase occurs at a purchase price below par value, a gain on the extinguishment of these Convertible Notes is recorded. The amount of the gain recorded is the difference between the reacquisition price and the net carrying amount of the Convertible Notes, net of the proportionate amount of unamortized debt issuance costs.

Cash and Cash Equivalents:

Cash and cash equivalents consist of demand deposits and highly liquid investments with maturities of three months or less, when acquired. The Company places its cash and cash equivalents with financial institutions and, at times, cash held in bank accounts may exceed the Federal Deposit Insurance Corporation insured limit. Included in cash and cash equivalents is $5.8 million that was held at Wells Fargo Bank, National Association ("Wells Fargo") in connection with the Company's Wells Fargo credit facility and $1.5 million that was held at U.S.Bank, National Association in connection with the Company's Sumitomo Mitsubishi Banking Corporation credit facility. The Company is restricted in terms of access to this cash until such time as the Company submits its required monthly reporting schedules and Wells Fargo and Sumitomo Mitsui Banking Corporation, respectively, verify the Company's compliance per the terms of the respective credit agreements.

Deferred Financing Costs:

Deferred financing costs consist of fees and expenses paid in connection with the closing or amending of credit facilities and debt offerings, and are capitalized at the time of payment. Deferred financing costs are amortized using the straight line method over the terms of the respective credit facilities and debt securities. This amortization expense is included in interest expense in the Company's Consolidated Statement of Operations.

Offering Costs:

Offering costs consist of fees and expenses incurred in connection with the public offer and sale of the Company's common stock, including legal, accounting and printing fees. There were $0.3 million of offering costs charged to capital during the three months ended December 31, 2012.

Income Taxes:

As a RIC, the Company is not subject to federal income tax on the portion of its taxable income and gains distributed currently to its stockholders as a dividend. The Company intends to distribute between 90% and 100% of its taxable income and gains, within the Subchapter M rules, and thus the Company anticipates that it will not incur any federal or state income tax at the RIC level. As a RIC, the Company is also subject to a 4% federal excise tax based on distribution requirements of its taxable income on a calendar year basis (e.g., calendar year 2012). The Company anticipates timely distribution of its taxable income within the tax rules; however, the Company incurred a de minimis federal excise tax for calendar years 2008, 2009 and 2010. The Company did not incur a federal excise tax for calendar year 2011 and does not expect to incur a federal excise tax for calendar year 2012. The Company may incur a federal excise tax in future years.

The purpose of the Company's taxable subsidiaries is to permit the Company to hold equity investments in portfolio companies which are "pass through" entities for federal tax purposes in order to comply with the "source income" requirements contained in the RIC tax requirements. The taxable subsidiaries are not consolidated with the Company for income tax purposes and may generate income tax expense as a result of their ownership of certain portfolio investments. This income tax expense, if any, would be reflected in the Company's Consolidated Statements of Operations. The Company uses the asset and liability method to account for its taxable subsidiaries' income taxes. Using this method, the Company recognizes deferred tax assets and liabilities for the estimated future tax effects attributable to temporary differences between financial reporting and tax bases of assets and liabilities. In addition, the Company recognizes deferred tax benefits associated with net operating carry forwards that it may use to offset future tax obligations. The Company measures deferred tax assets and liabilities using the enacted tax rates expected to apply to taxable income in the years in which it expects to recover or settle those temporary differences.

ASC 740 *Accounting for Uncertainty in Income Taxes* ("ASC 740") provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the Company's Consolidated Financial Statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an ongoing analysis of tax laws, regulations and interpretations thereof. The Company recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Company's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years 2009, 2010 or 2011. The Company identifies its major tax jurisdictions as U.S. Federal and New York State, and the Company is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (“ASU 2011-04”). ASU 2011-04 amends ASC 820, and requires entities to change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. ASU 2011-04 clarifies the application of existing fair value measurement and disclosure requirements related to the application of the highest and best use and valuation premise concepts for financial and nonfinancial instruments, measuring the fair value of an instrument classified in shareholders’ equity and disclosures about fair value measurements. ASU 2011-04 changes the measurement of the fair value of financial instruments that are managed within a portfolio and the application of premiums and discounts in a fair value measurement related to size as a characteristic of the reporting entity’s holding rather than a characteristic of the asset or liability. ASU 2011-04 requires additional disclosures about fair value measurements categorized within Level 3 of the fair value hierarchy including the valuation processes used by the reporting entity, the sensitivity of the fair value to changes in unobservable inputs, and the interrelationships between those unobservable inputs, if any. All the amendments to ASC 820 made by ASU 2011-04 are effective for interim and annual periods beginning after December 15, 2011. The adoption of this disclosure-only guidance is included in Note 3 – Portfolio Investments and did not have an impact on the Company’s consolidated financial results.

When a determination is made to classify a financial instrument within Level 3 of the valuation hierarchy, the determination is based upon the fact that the unobservable factors are the most significant to the overall fair value measurement. However, Level 3 financial instruments typically include, in addition to the unobservable or Level 3 components, observable components (that is, components that are actively quoted and can be validated by external sources). Accordingly, the appreciation (depreciation) in the tables below includes changes in fair value due in part to observable factors that are part of the valuation methodology.

The following table provides a roll-forward in the changes in fair value from September 30, 2012 to December 31, 2012, for all investments for which the Company determines fair value using unobservable (Level 3) factors:

The Company generally utilizes a bond yield model to estimate the fair value of its debt investments when there is not a readily available market value (Level 3) which model is based on the present value of expected cash flows from the debt investments. The significant observable inputs into the model are market interest rates for debt with similar characteristics, which are adjusted for the portfolio company's credit risk. The credit risk component of the valuation considers several factors including financial performance, business outlook, debt priority and collateral position. These factors are incorporated into the calculation of the capital structure premium, tranche specific risk premium, size premium and industry premium, which are significant unobservable inputs into the model.

(a) Used when market participant would take into account this premium or discount when pricing the investment

(b) Used when market participant would use such multiples when pricing the investment

Under the bond yield approach, the significant unobservable inputs used in the fair value measurement of the Company's investments in debt securities are capital structure premium, tranche specific risk premium/(discount), size premium and industry premium/(discount). Significant increases or decreases in any of those inputs in isolation may result in a significantly lower or higher fair value measurement, respectively.

Under the enterprise value approach, the significant unobservable inputs used in the fair value measurement of the Company's investments in debt or equity securities are the weighted average cost of capital, company specific risk premium, revenue growth rate and EBITDA multiple. Significant increases or decreases in a portfolio company's weighted average cost of capital or company specific risk premium in isolation may result in a significantly lower or higher fair value measurement, respectively. Significant increases or decreases in the revenue growth rate or EBITDA multiple in isolation may result in a significantly higher or lower fair value measurement, respectively.

Financial Instruments Disclosed, But Not Carried, At Fair Value

The following table presents the carrying value and fair value of the Company's financial liabilities disclosed, but not carried, at fair value as of December 31, 2012 and the level of each financial liability within the fair value hierarchy:

	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Credit facilities payable	$218,000	$218,000	$ —	$ —	$218,000
SBA debentures payable	181,750	154,947	—	—	154,947
Convertible senior notes payable	115,000	117,013	—	—	117,013
Senior unsecured notes payable	75,000	71,610	—	71,610	—
Total	**$589,750**	**$561,570**	**$ —**	**$71,610**	**$489,960**

The carrying values of credit facilities payable approximates their fair values and are included in Level 3 of the hierarchy.

The Company utilizes the bond yield approach to estimate the fair value of its SBA debentures payable, which are included in Level 3 of the hierarchy. Under the bond yield approach, the Company uses bond yield models to determine the present value of the future cash flows streams for the debentures. The Company reviews various sources of data involving investments with similar characteristics and assesses the information in the valuation process.

The Company uses the most recently available market transactions to estimate the fair value of the convertible senior notes payable, which are included in Level 3 of the hierarchy.

The Company uses the most recently available unadjusted quoted price to calculate the fair value of its senior unsecured notes which trade under the symbol "FSCE" on the New York Stock Exchange. As such, these securities are included in Level 2 of the hierarchy.

The Company's off-balance sheet arrangements consisted of $114.0 million and $102.5 million of unfunded commitments to provide debt financing to its portfolio companies or to fund limited partnership interests as of December 31, 2012 and September 30, 2012, respectively. Such commitments are subject to the portfolio companies' satisfaction of certain financial and nonfinancial covenants and involve, to varying degrees, elements of credit risk in excess of the amount recognized in the Statement of Assets and Liabilities and are not reflected on the Company's Consolidated Statements of Assets and Liabilities.

For the three months ended December 31, 2012 and December 31, 2011, the Company recorded interest expense of $0.8 million and $0.7 million, respectively, related to the Wells Fargo facility.

On May 27, 2010, the Company entered into a three-year secured syndicated revolving credit facility ("ING facility") pursuant to a Senior Secured Revolving Credit Agreement ("ING Credit Agreement") with certain lenders party thereto from time to time and ING Capital LLC, as administrative agent. The ING facility allowed for the Company to borrow money at a rate of either (i) LIBOR plus 3.5% per annum or (ii) 2.5% per annum plus an alternate base rate based on the greatest of the Prime Rate, Federal Funds Rate plus 0.5% per annum or LIBOR plus 1% per annum, and had a maturity date of May 27, 2013. The ING facility also allows the Company to request letters of credit from ING Capital LLC, as the issuing bank. The initial commitment under the ING facility was $90 million, and the ING facility included an accordion feature that allowed for potential future expansion of the facility up to a total of $150 million. The ING facility is secured by substantially all of the Company's assets, as well as the assets of the Company's wholly-owned subsidiary, FSFC Holdings, Inc., and its indirect wholly-owned subsidiary, Fifth Street Fund of Funds LLC, subject to certain exclusions for, among other things, equity interests in the Company's SBIC subsidiaries, and equity interests in Funding and Funding II (which is defined and discussed below) as further set forth in a Guarantee, Pledge and Security Agreement ("ING Security Agreement") entered into in connection with the ING Credit Agreement, among FSFC Holdings, Inc., ING Capital LLC, as collateral agent, and the Company. Fifth Street Fund of Funds LLC and FSFC Holdings, Inc. were formed to hold certain of the Company's portfolio companies for tax purposes and have no other operations. None of the Company's SBIC subsidiaries, Funding or Funding II is party to the ING facility and their respective assets have not been pledged in connection therewith. The ING facility provides that the Company may use the proceeds and letters of credit under the facility for general corporate purposes, including acquiring and funding leveraged loans, mezzanine loans, high-yield securities, convertible securities, preferred stock, common stock and other investments.

During December 2012 and January 2013, additional lenders were added to the ING facility and the borrowing capacity increased to $425 million. With the addition of the new lenders, the ING facility syndicate group now includes 12 lenders.

Pursuant to the ING Security Agreement, FSFC Holdings, Inc. and Fifth Street Fund of Funds LLC guaranteed the obligations under the ING Security Agreement, including the Company's obligations to the lenders and the administrative agent under the ING Credit Agreement. Additionally, the Company pledged its entire equity interest in FSFC Holdings, Inc. and FSFC Holdings, Inc. pledged its entire equity interest in Fifth Street Fund of Funds LLC to the collateral agent pursuant to the terms of the ING Security Agreement.

The ING Credit Agreement and related agreements governing the ING facility required FSFC Holdings, Inc., Fifth Street Fund of Funds LLC and the Company to, among other things (i) make representations and warranties regarding the collateral as well as each of the Company's businesses, (ii) agree to certain indemnification obligations, and (iii) agree to comply with various affirmative and negative covenants and other customary requirements for similar credit facilities. The ING facility documents also include usual and customary default provisions such as the failure to make timely payments under the facility, the occurrence of a change in control, and the failure by the Company to materially perform under the ING Credit Agreement and related agreements governing the facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting the Company's liquidity, financial condition and results of operations. The Company is currently in compliance with all financial covenants under the ING facility.

Each loan or letter of credit originated under the ING facility is subject to the satisfaction of certain conditions. The Company cannot be assured that it will be able to borrow funds under the ING facility at any particular time or at all.

As of December 31, 2012, the Company had $135.0 million of borrowings outstanding under the ING facility, which had a fair value of $135.0 million. For the three months ended December 31, 2012 and December 31, 2011, the Company recorded interest expense of $1.7 million and $1.4 million, respectively, related to the ING facility.

On September 16, 2011, Fifth Street Funding II, LLC, a consolidated wholly-owned bankruptcy remote, special purpose subsidiary ("Funding II"), entered into a Loan and Servicing Agreement ("Sumitomo Agreement") with respect to a seven-year credit facility ("Sumitomo facility") with Sumitomo Mitsui Banking Corporation ("SMBC"), an affiliate of Sumitomo Mitsui Financial Group, Inc., as administrative agent, and each of the lenders from time to time party thereto, in the amount of $200 million. The Sumitomo facility bears interest at a rate of LIBOR plus 2.25% per annum with no LIBOR floor, permits the Company to make new borrowings until September 16, 2014, matures on September 16, 2018 and includes an option for a one-year extension.

In connection with the Sumitomo facility, the Company concurrently entered into a Purchase and Sale Agreement with Funding II, pursuant to which it will sell to Funding II certain loan assets the Company has originated or acquired, or will originate or acquire.

Table of Contents

The Sumitomo Agreement and related agreements governing the Sumitomo facility required both Funding II and the Company to, among other things (i) make representations and warranties regarding the collateral as well as each of its businesses, (ii) agree to certain indemnification obligations, and (iii) comply with various covenants, servicing procedures, limitations on acquiring and disposing of assets, reporting requirements and other customary requirements for similar credit facilities. The Sumitomo facility agreements also include usual and customary default provisions such as the failure to make timely payments under the facility, a change in control of Funding II, and the failure by Funding II or the Company to materially perform under the Sumitomo Agreement and related agreements governing the Sumitomo facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting the Company's liquidity, financial condition and results of operations. Funding II was formed for the sole purpose of entering into the Sumitomo facility and has no other operations.

The Sumitomo facility is secured by all of the assets of Funding II. Each loan origination under the facility is subject to the satisfaction of certain conditions. There is no assurance that Funding II will be able to borrow funds under the Sumitomo facility at any particular time or at all. As of December 31, 2012, there were no borrowings outstanding under the Sumitomo facility. As of December 31, 2012, except for assets that were funded through the Company's SBIC subsidiaries, substantially all of the Company's assets were pledged as collateral under the Wells Fargo facility, the ING facility or the Sumitomo facility. With respect to the assets funded through the Company's SBIC subsidiaries, the SBA, as a creditor, will have a superior claim to the SBIC subsidiaries' assets over the Company's stockholders.

Interest expense for the three months ended December 31, 2012 and December 31, 2011 was $7.2 million and $5.7 million, respectively.

Note 7. Interest and Dividend Income

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected. In accordance with the Company's policy, accrued interest is evaluated periodically for collectability. The Company stops accruing interest on investments when it is determined that interest is no longer collectible. Distributions from portfolio companies are recorded as dividend income when the distribution is received.

The Company holds debt in its portfolio that contains PIK interest provisions. The PIK interest, which represents contractually deferred interest added to the loan balance that is generally due at the end of the loan term, is generally recorded on the accrual basis to the extent such amounts are expected to be collected. The Company generally ceases accruing PIK interest if there is insufficient value to support the accrual or if the Company does not expect the portfolio company to be able to pay all principal and interest due. The Company's decision to cease accruing PIK interest involves subjective judgments and determinations based on available information about a particular portfolio company, including whether the portfolio company is current with respect to its payment of principal and interest on its loans and debt securities; monthly and quarterly financial statements and financial projections for the portfolio company; the Company's assessment of the portfolio company's business development success, including product development, profitability and the portfolio company's overall adherence to its business plan; information obtained by the Company in connection with periodic formal update interviews with the portfolio company's management and, if appropriate, the private equity sponsor; and information about the general economic and market conditions in which the portfolio company operates. Based on this and other information, the Company determines whether to cease accruing PIK interest on a loan or debt security. The Company's determination to cease accruing PIK interest on a loan or debt security is generally made well before the Company's full write-down of such loan or debt security.

Note 8. Taxable/Distributable Income and Dividend Distributions

Taxable income differs from net increase (decrease) in net assets resulting from operations primarily due to: (1) unrealized appreciation (depreciation) on investments, as investment gains and losses are not included in taxable income until they are realized; (2) origination and exit fees received in connection with investments in portfolio companies; (3) organizational and deferred offering costs; (4) recognition of interest income on certain loans; and (5) income or loss recognition on exited investments.

At September 30, 2012, the Company has net capital loss carryforwards of $41.8 million to offset net capital gains, to the extent provided by federal tax law. Of the capital loss carryforwards, $1.5 million will expire on September 30, 2017, $10.3 million will expire on September 30, 2019, and $30.0 million will not expire. During the year ended September 30, 2012, the Company realized capital losses from the sale of investments after October 31, 2011 and prior to calendar year end ("post-October capital losses") of $65.8 million, which for tax purposes are treated as arising on the first day of the following year.

Listed below is a reconciliation of "net increase in net assets resulting from operations" to taxable income for the three months ended December 31, 2012.

Net increase in net assets resulting from operations	$ 17,843
Net unrealized depreciation	9,339
Book/tax difference due to loan fees	(2,271)
Book/tax difference due to organizational and deferred offering costs	(22)
Book/tax difference due to interest income on certain loans	424
Book/tax difference due to capital losses not recognized	(626)
Other book-tax differences	(345)
Taxable/Distributable Income(1)	**$ 24,342**

(1) The Company's taxable income for the three months ended December 31, 2012 is an estimate and will not be finally determined until the Company files its tax return for the fiscal year ended September 30, 2013. Therefore, the final taxable income may be different than the estimate.

The Company uses the asset and liability method to account for its taxable subsidiaries' income taxes. Using this method, the Company recognizes deferred tax assets and liabilities for the estimated future tax effects attributable to temporary differences between financial reporting and tax bases of assets and liabilities. In addition, the Company recognizes deferred tax benefits associated with net operating carry forwards that it may use to offset future tax obligations. The Company measures deferred tax assets and liabilities using the enacted tax rates expected to apply to taxable income in the years in which it expects to recover or settle those temporary differences. The Company has recorded a deferred tax asset for the difference in the book and tax basis of certain equity investments and tax net operating losses held by its taxable subsidiaries of $1.4 million. However, this amount has been fully offset by a valuation allowance of $1.4 million, since it is more likely than not that these deferred tax assets will not be realized.

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the "Act") was enacted, which changed various technical rules governing the tax treatment of RICs. The changes are generally effective for taxable years beginning after the date of enactment. Under the Act, the Company will be permitted to carry forward net capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment net loss carryforwards may be more likely to expire unused.

Distributions to stockholders are recorded on the record date. The Company is required to distribute annually to its stockholders at least 90% of its net taxable income and net realized short-term capital gains in excess of net realized long-term capital losses for each taxable year in order to be eligible for the tax benefits allowed to a RIC under Subchapter M of the Code. The Company anticipates paying out as a dividend all or substantially all of those amounts. The amount to be paid out as a dividend is determined by the Board of Directors and is based on management's estimate of the Company's annual taxable income. The Company maintains an "opt out" dividend reinvestment plan for its stockholders.

For income tax purposes, the Company estimates that its distributions for the calendar year 2013 will be composed primarily of ordinary income, and will be reflected as such on the Form 1099-DIV for the calendar year 2013.

As a RIC, the Company is also subject to a federal excise tax based on distributive requirements of its taxable income on a calendar year basis. Because the Company did not satisfy these distribution requirements for calendar years 2009 and 2010, the Company incurred a de minimis federal excise tax for those calendar years. The Company did not incur a federal excise tax for calendar year 2011 and does not expect to incur a federal excise tax for calendar year 2012.

Note 9. Realized Gains or Losses and Net Unrealized Appreciation or Depreciation on Investments

Realized gains or losses are measured by the difference between the net proceeds from the sale or redemption and the cost basis of the investment without regard to unrealized appreciation or depreciation previously recognized, and includes investments written-off during the period, net of recoveries. Realized losses may also be recorded in connection with the Company's determination that certain investments are considered worthless securities and/or meet the conditions for loss recognition per the applicable tax rules.

Net unrealized appreciation or depreciation reflects the net change in the valuation of the portfolio pursuant to the Company's valuation guidelines and the reclassification of any prior period unrealized appreciation or depreciation.

Note 10. Concentration of Credit Risks

The Company places its cash in financial institutions and at times such balances may be in excess of the FDIC insured limit. The Company limits its exposure to credit loss by depositing its cash with high credit quality financial institutions and monitoring their financial stability.

Note 11. Related Party Transactions

The Company has entered into an investment advisory agreement with the Investment Adviser. Under the investment advisory agreement, the Company pays the Investment Adviser a fee for its services consisting of two components — a base management fee and an incentive fee.

Base management Fee

The base management fee is calculated at an annual rate of 2% of the Company's gross assets, which includes any borrowings for investment purposes but excludes any cash and cash equivalents held at the end of each quarter. The base management fee is payable quarterly in arrears and the fee for any partial month or quarter is appropriately prorated.

For the three months ended December 31, 2012 and December 31, 2011, base management fees were $8.0 million and $5.7 million, respectively. At December 31, 2012, the Company had a liability on its Consolidated Statement of Assets and Liabilities in the amount of $1.5 million reflecting the unpaid portion of the base management fee payable to the Investment Adviser.

Incentive Fee

The incentive fee portion of the investment advisory agreement has two parts. The first part is calculated and payable quarterly in arrears based on the Company's "Pre-Incentive Fee Net Investment Income" for the immediately preceding fiscal quarter. For this purpose, "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies) accrued during the fiscal quarter, minus the Company's operating expenses for the quarter (including the base management fee, expenses payable under the Company's administration agreement with FSC, Inc., and any interest expense and dividends paid on any issued and outstanding indebtedness or preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that the Company has not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of the Company's net assets at the end of the immediately preceding fiscal quarter, will be compared to a "hurdle rate" of 2% per quarter (8% annualized), subject to a "catch-up" provision measured as of the end of each fiscal quarter. The Company's net investment income used to calculate this part of the incentive fee is also included in the amount of its gross assets used to calculate the 2% base management fee. The operation of the incentive fee with respect to the Company's Pre-Incentive Fee Net Investment Income for each quarter is as follows:

- No incentive fee is payable to the Investment Adviser in any fiscal quarter in which the Company's Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 2% (the "preferred return" or "hurdle");

- 100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than or equal to 2.5% in any fiscal quarter (10% annualized) is payable to the Investment Adviser. The Company refers to this portion of its Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than or equal to 2.5%) as the "catch-up." The "catch-up" provision is intended to provide the Investment Adviser with an incentive fee of 20% on all of the Company's Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply when the Company's Pre-Incentive Fee Net Investment Income exceeds 2.5% in any fiscal quarter; and
- 20% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any fiscal quarter (10% annualized) is payable to the Investment Adviser once the hurdle is reached and the catch-up is achieved (20% of all Pre-Incentive Fee Net Investment Income thereafter is allocated to the Investment Adviser).

The second part of the incentive fee is determined and payable in arrears as of the end of each fiscal year (or upon termination of the investment advisory agreement, as of the termination date) and equals 20% of the Company's realized capital gains, if any, on a cumulative basis from inception through the end of each fiscal year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees.

GAAP requires the Company to accrue for the theoretical capital gains incentive fee that would be payable after giving effect to the net realized and unrealized capital appreciation. It should be noted that a fee so calculated and accrued would not necessarily be payable under the investment advisory agreement, and may never be paid based upon the computation of capital gains incentive fees in subsequent periods. Amounts ultimately paid under the investment advisory agreement will be consistent with the formula reflected in the investment advisory agreement.

The Company does not currently accrue for capital gains incentive fees due to the accumulated realized losses in the portfolio.

For the three months ended December 31, 2012 and December 31, 2011, incentive fees were $6.6 million and $5.2 million, respectively. At December 31, 2012, the Company had a liability on its Consolidated Statement of Assets and Liabilities in the amount of $1.2 million reflecting the unpaid portion of the incentive fee payable to the Investment Adviser.

Indemnification

The investment advisory agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of their respective duties or by reason of the reckless disregard of their respective duties and obligations, the Company's Investment Adviser and its officers, managers, agents, employees, controlling persons, members (or their owners) and any other person or entity affiliated with it, are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of the Investment Adviser's services under the investment advisory agreement or otherwise as the Company's Investment Adviser.

Administration Agreement

The Company has also entered into an administration agreement with FSC, Inc. under which FSC, Inc. provides administrative services for the Company, including office facilities and equipment, and clerical, bookkeeping and recordkeeping services at such facilities. Under the administration agreement, FSC, Inc. also performs or oversees the performance of the Company's required administrative services, which includes being responsible for the financial records which the Company is required to maintain and preparing reports to the Company's stockholders and reports filed with the SEC. In addition, FSC, Inc. assists the Company in determining and publishing the Company's net asset value, overseeing the preparation and filing of the Company's tax returns and the printing and dissemination of reports to the Company's stockholders, and generally overseeing the payment of the Company's expenses and the performance of administrative and professional services rendered to the Company by others. For providing these services, facilities and personnel, the Company reimburses FSC, Inc. the allocable portion of overhead and other expenses incurred by FSC, Inc. in performing its obligations under the administration agreement, including rent and the Company's allocable portion of the costs of compensation and related expenses of the Company's chief financial officer and chief compliance officer and their staffs. Such reimbursement is at cost with no profit to, or markup by, FSC, Inc.

FSC, Inc. has voluntarily determined to forgo receiving reimbursement for the services performed for the Company by its chief compliance officer. However, although FSC, Inc. currently intends to forgo its right to receive such reimbursement, it is under no obligation to do so and may cease to do so at any time in the future. FSC, Inc. may also provide, on the Company's behalf, managerial assistance to the Company's portfolio companies. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party.

For the three months ended December 31, 2012, the Company accrued administrative expenses of $1.6 million, including $0.7 million of general and administrative expenses, which are due to FSC, Inc. At December 31, 2012, $0.7 million was included in Due to FSC, Inc. in the Consolidated Statement of Assets and Liabilities.

Note 13. Convertible Senior Notes

On April 12, 2011, the Company issued $152 million unsecured convertible senior notes, including $2 million issued to Leonard M. Tannenbaum, the Company's Chief Executive Officer. The Convertible Notes were issued pursuant to an Indenture, dated April 12, 2011 (the "Indenture"), between the Company and the Trustee.

The Convertible Notes mature on April 1, 2016 (the “Maturity Date”), unless previously converted or repurchased in accordance with their terms. The Convertible Notes bear interest at a rate of 5.375% per annum payable semiannually in arrears on April 1 and October 1 of each year, commencing on October 1, 2011. The Convertible Notes are the Company’s senior unsecured obligations and rank senior in right of payment to the Company’s existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to the Company’s existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company’s secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company’s subsidiaries or financing vehicles.

Prior to the close of business on the business day immediately preceding January 1, 2016, holders may convert their Convertible Notes only under certain circumstances set forth in the Indenture, such as during specified periods when the Company’s shares of common stock trade at more than 110% of the then applicable conversion price or the Convertible Notes trade at less than 98% of their conversion value. On or after January 1, 2016 until the close of business on the business day immediately preceding the Maturity Date, holders may convert their Convertible Notes at any time. Upon conversion, the Company will deliver shares of its common stock. The conversion rate was initially, and currently is, 67.7415 shares of common stock per $1,000 principal amount of Convertible Notes (equivalent to a conversion price of approximately $14.76 per share of common stock). The conversion rate is subject to customary anti-dilution adjustments, including for any cash dividends or distributions paid on shares of the Company’s common stock in excess of a monthly dividend of $0.1066 per share, but will not be adjusted for any accrued and unpaid interest. In addition, if certain corporate events occur prior to the Maturity Date, the conversion rate will be increased for converting holders. Based on the current conversion rate, the maximum number of shares of common stock that would be issued upon conversion of the $115 million convertible debt outstanding at December 31, 2012 is 7,790,273. If the Company delivers shares of common stock upon a conversion at the time that net asset value per share exceeds the conversion price in effect at such time, the Company’s stockholders may incur dilution. In addition, the Company’s stockholders will experience dilution in their ownership percentage of common stock upon the issuance of common stock in connection with the conversion of the Company’s convertible senior notes and any dividends paid on common stock will also be paid on shares issued in connection with such conversion after such issuance. The shares of common stock issued upon a conversion are not subject to registration rights.

The Company may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect of the Company, holders of the Convertible Notes may require the Company to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The Indenture contains certain covenants, including covenants requiring the Company to provide financial information to the holders of the Convertible Notes, and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the Indenture.

For the three months ended December 31, 2012 and December 31, 2011, the Company recorded interest expense of $1.7 million and $1.9 million, respectively, related to the Convertible Notes.

The Company may repurchase the Convertible Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any Convertible Notes repurchased by the Company may, at the Company’s option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by the Company. Any Convertible Notes surrendered for cancellation will be promptly cancelled and no longer outstanding under the indenture. The Company did not repurchase Convertible Notes during the three months ended December 31, 2012. During the three months ended December 31, 2011, the Company repurchased $10.5 million principal of the Convertible Notes in the open market for an aggregate purchase price of $8.9 million and surrendered them to the Trustee for cancellation. The Company recorded a gain on the extinguishment of these Convertible Notes in the amount of the difference between the reacquisition price and the net carrying amount, net of the proportionate amount of unamortized debt issuance costs. The net gain recorded was $1.3 million.

As of December 31, 2012, there were $115.0 million Convertible Notes outstanding, which had a fair value of $117.0 million.

Note 14. Senior Unsecured Notes

On October 18, 2012, the Company issued $75.0 million in aggregate principal amount of its 5.875% senior unsecured notes due 2024 ("the 2024 Notes") for net proceeds of approximately $72.8 million after deducting underwriting commissions of $2.2 million.

The 2024 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the first supplemental indenture, dated October 18, 2012 (collectively, the "2024 Notes Indenture"), between the Company and the Trustee. The 2024 Notes are the Company's senior unsecured obligations and rank senior in right of payment to the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 2024 Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries or financing vehicles.

Interest on the 2024 Notes is paid quarterly in arrears on January 30, April 30, July 30 and October 30, at a rate of 5.875% per annum, beginning January 30, 2013. The 2024 Notes mature on October 30, 2024 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after October 30, 2017. On November 1, 2012, the Company listed the 2024 Notes on the New York Stock Exchange under the trading symbol "FSCE" with a par value of $25.00 per share.

The 2024 Notes Indenture contains certain covenants, including covenants requiring the Company's compliance with (regardless of whether the Company is subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act and with the restrictions on dividends, distributions and purchase of capital stock set forth in Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring the Company to provide financial information to the holders of the 2024 Notes and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2024 Notes Indenture. The Company may repurchase the 2024 Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any 2024 Notes repurchased by the Company may, at the Company's option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by the Company. Any 2024 Notes surrendered for cancellation will be promptly cancelled and no longer outstanding under the 2024 Notes Indenture. During the three months ended December 31, 2012, the Company did not repurchase any of the 2024 Notes in the open market.

For the three months ended December 31, 2012, the Company recorded interest expense of $1.0 million related to the 2024 Notes.

As of December 31, 2012, there were $75.0 million 2024 Notes outstanding, which had a fair value of $71.6 million.

Overview

We are a specialty finance company that lends to and invests in small and mid-sized companies primarily in connection with investments by private equity sponsors. Our investment objective is to maximize our portfolio's total return by generating current income from our debt investments and capital appreciation from our equity investments.

We were formed as a Delaware limited partnership (Fifth Street Mezzanine Partners III, L.P.) on February 15, 2007. Effective as of January 2, 2008, Fifth Street Mezzanine Partners III, L.P. merged with and into Fifth Street Finance Corp. At the time of the merger, all outstanding partnership interests in Fifth Street Mezzanine Partners III, L.P. were exchanged for 12,480,972 shares of common stock in Fifth Street Finance Corp.

Our Consolidated Financial Statements prior to January 2, 2008 reflect our operations as a Delaware limited partnership (Fifth Street Mezzanine Partners III, L.P.) prior to our merger with and into a corporation (Fifth Street Finance Corp.).

On June 17, 2008, we completed an initial public offering of 10,000,000 shares of our common stock at the offering price of $14.12 per share. Our stock was listed on the New York Stock Exchange until November 28, 2011 when we transferred the listing to the NASDAQ Global Select Market, where it continues to trade under the symbol "FSC."

Current Market Conditions

Since mid-2007, the global financial markets have experienced stress, volatility, illiquidity, and disruption. This turmoil appears to have peaked in the fall of 2008, resulting in several major financial institutions becoming insolvent, being acquired, or receiving government assistance. While the turmoil in the financial markets appears to have abated somewhat, the global economy continues to experience economic uncertainty. Economic uncertainty impacts our business in many ways, including changing spreads, structures and purchase multiples as well as the overall supply of investment capital.

Despite the economic uncertainty, our deal pipeline remains robust, with high quality transactions backed by private equity sponsors in small to mid-sized companies. As always, we remain cautious in selecting new investment opportunities, and will only deploy capital in deals which are consistent with our disciplined philosophy of pursuing superior risk-adjusted returns.

As evidenced by our recent investment activities, we expect to grow the investment portfolio by strategically investing in small and mid-sized companies when and where appropriate. Although we believe that we currently have sufficient capital available to fund investments, a prolonged period of market disruptions may cause us to reduce the volume of loans we originate and/or fund, which could have an adverse effect on our business, financial condition and results of operations. In this regard, because our common stock has at times traded at a price below our then current net asset value per share and we are limited in our ability to sell our common stock at a price below net asset value per share, we may be limited in our ability to raise equity capital.

Critical Accounting Policies

Basis of Presentation

The preparation of financial statements in accordance with GAAP requires management to make certain estimates and assumptions affecting amounts reported in the Consolidated Financial Statements. We have identified investment valuation and revenue recognition as our most critical accounting estimates. We continuously evaluate our estimates, including those related to the matters described below. These estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates under different assumptions or conditions. A discussion of our critical accounting policies follows.

Investment Valuation

We are required to report our investments that are not publicly traded or for which current market values are not readily available at fair value. The fair value is deemed to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with authoritative accounting guidance, we perform detailed valuations of our debt and equity investments on an individual basis, using market, income, and bond yield approaches as appropriate. In general, we utilize a bond yield method for the majority of our investments, as long as it is appropriate. If, in our judgment, the bond yield approach is not appropriate, we may use the market approach, income approach, or, in certain cases, an alternative methodology potentially including an asset liquidation or expected recovery model.

Under the bond yield approach, we use bond yield models to determine the present value of the future cash flow streams of our debt investments. We review various sources of transactional data, including private mergers and acquisitions involving debt investments with similar characteristics, and assess the information in the valuation process.

Under the market approach, we estimate the enterprise value of the portfolio companies in which we invest. There is no one methodology to estimate enterprise value and, in fact, for any one portfolio company, enterprise value is best expressed as a range of fair values from which we derive a single estimate of enterprise value. To estimate the enterprise value of a portfolio company, we analyze various factors, including the portfolio company's historical and projected financial results. Typically, private companies are valued based on multiples of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization), cash flows, net income or revenues. We generally require portfolio companies to provide annual audited and quarterly and monthly unaudited financial statements, as well as annual projections for the upcoming fiscal year.

Under the income approach, we generally prepare and analyze discounted cash flow models based on our projections of the future free cash flows of the business.

Our Board of Directors undertakes a multi-step valuation process each quarter in connection with determining the fair value of our investments:

- The quarterly valuation process begins with each portfolio company or investment being initially valued by our finance department;
- Preliminary valuations are then reviewed and discussed with principals of the investment adviser;
- Separately, independent valuation firms engaged by our Board of Directors prepare preliminary valuations on a selected basis and submit the reports to us;
- Our finance department compares and contrasts its preliminary valuations to the preliminary valuations of the independent valuation firms;
- Our finance department prepares a valuation report for the Audit Committee of our Board of Directors;
- The Audit Committee of our Board of Directors is apprised of the preliminary valuations of the independent valuation firms;
- The Audit Committee of our Board of Directors reviews the preliminary valuations, and our finance department responds and supplements the preliminary valuations to reflect any comments provided by the Audit Committee;
- The Audit Committee of our Board of Directors makes a recommendation to the Board of Directors regarding the fair value of the investments in our portfolio; and
- Our Board of Directors discusses the valuations and determines the fair value of each investment in our portfolio in good faith.

The fair value of all of our investments at December 31, 2012, and September 30, 2012, was determined by our Board of Directors. Our Board of Directors has authorized the engagement of independent valuation firms to provide us with valuation assistance. We will continue to engage independent valuation firms to provide us with assistance regarding our determination of the fair value of selected portfolio securities each quarter; however, our Board of Directors is ultimately and solely responsible for the valuation of our portfolio investments at fair value as determined in good faith pursuant to our valuation policy and a consistently applied valuation process.

We intend to have a portion of the portfolio valued by an independent third party on a quarterly basis, with a substantial portion being valued over the course of each fiscal year. The percentages of our portfolio, at fair value, valued by independent valuation firms by period were as follows:

For the quarter ended December 31, 2007	91.9%
For the quarter ended March 31, 2008	92.1%

For the quarter ended December 31, 2012	79.5%

(1) 96.0% excluding our investment in IZI Medical Products, Inc., which closed on June 30, 2009 and therefore was not valued by an independent valuation firm during such period

(2) 24.8% excluding four investments that closed in December 2009 and therefore were not valued by an independent valuation firm during such period

As of December 31, 2012 and September 30, 2012, approximately 96.0% and 92.7%, respectively, of our total assets represented investments in portfolio companies valued at fair value.

Revenue Recognition

Interest and Dividend Income

Interest income, adjusted for accretion of original issue discount, or OID, is recorded on the accrual basis to the extent that such amounts are expected to be collected. We stop accruing interest on investments when it is determined that interest is no longer collectible. Distributions from portfolio companies are recorded as dividend income when the distribution is received.

Fee Income

We receive a variety of fees in the ordinary course of business. Certain fees, such as loan origination fees, if any, are capitalized and amortized in accordance with ASC 310-20 *Nonrefundable Fees and Other Costs* . In accordance with ASC 820, the net unearned fee income balance is netted against the cost and fair value of the respective investments. Other fees, such as servicing, advisory and structuring fees, are classified as fee income and recognized as they are earned.

We have also structured exit fees across certain of our portfolio investments to be received upon the future exit of those investments. Exit fees are payable upon the exit of a debt security. These fees are to be paid to us upon the sooner to occur of (i) a sale of the borrower or substantially all of the assets of the borrower, (ii) the maturity date of the loan, or (iii) the date when full prepayment of the loan occurs. The receipt of such fees is contingent upon the occurrence of one of the events listed above for each of the investments. A percentage of these fees is included in net investment income over the life of the loan. As of December 31, 2012, we had structured $6.6 million in aggregate exit fees across eight portfolio investments upon the future exit of those investments.

Payment-in-Kind (PIK) Interest

Our loans typically contain contractual PIK interest provisions. The PIK interest, which represents contractually deferred interest added to the loan balance that is generally due at the end of the loan term, is generally recorded on the accrual basis to the extent such amounts are expected to be collected. We generally cease accruing PIK interest if there is insufficient value to support the accrual or if we do not expect the portfolio company to be able to pay all principal and interest due. Our decision to cease accruing PIK interest involves subjective judgments and determinations based on available information about a particular portfolio company, including whether the portfolio company is current with respect to its payment of principal and interest on its loans and debt securities; monthly and quarterly financial statements and financial projections for the portfolio company; our assessment of the portfolio company’s business development success, including product development, profitability and the portfolio company’s overall adherence to its business plan; information obtained by us in connection with periodic formal update interviews with the portfolio company’s management and, if appropriate, the private equity sponsor; and information about the general economic and market conditions in which the portfolio company operates. Based on this and other information, we determine whether to cease accruing PIK interest on a loan or debt security. Our determination to cease accruing PIK interest on a loan or debt security is generally made well before our full write-down of such loan or debt security. In addition, if it is subsequently determined that we will not be able to collect any previously accrued PIK interest, the fair value of our loans or debt securities would decline by the amount of such previously accrued, but uncollectible, PIK interest.

For a discussion of risks we are subject to as a result of our use of PIK interest in connection with our investments, see “Risk Factors — Risks Relating to Our Business and Structure — We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income,” “— We may in the future choose to pay dividends in our own stock, in which case you may be required to pay tax in excess of the cash you receive” and “— Our incentive fee may induce our investment adviser to make speculative investments” in our annual report on Form 10-K for the year ended September 30, 2012. In addition, if it is subsequently determined that we will not be able to collect any previously accrued PIK interest, the fair value of our loans or debt securities would decline by the amount of such previously accrued, but uncollectible, PIK interest. The accrual of PIK interest on our debt investments increases the recorded cost basis of these investments in our consolidated financial statements and, as a result, increases the cost basis of these investments for purposes of computing the capital gains incentive fee payable by us to our investment adviser.

To maintain our status as a RIC, PIK income must be paid out to our stockholders in the form of dividends even though we have not yet collected the cash and may never collect the cash relating to the PIK interest. Accumulated PIK interest was $16.8 million and represented 1.1% of the fair value of our portfolio of investments as of December 31, 2012 and $18.4 million or 1.4% as of September 30, 2012. The net increase in loan balances as a result of contracted PIK arrangements are separately identified in our Consolidated Statements of Cash Flows.

Portfolio Composition

Our investments principally consist of loans, purchased equity investments and equity grants in privately-held companies. Our loans are typically secured by a first, second or subordinated lien on the assets of the portfolio company and generally have terms of up to six years (but an expected average life of between three and four years). We are currently focusing our origination efforts on a prudent mix of first lien, second lien and subordinated loans which we believe will provide superior risk-adjusted returns while maintaining adequate credit protection. The mix may change over time based on market conditions and management's view of where the best risk adjusted returns are available.

Portfolio Asset Quality

We employ a ranking system to assess and monitor the credit risk of our investment portfolio. We rank all investments on a scale from 1 to 5. The system is intended to reflect the performance of the borrower's business, the collateral coverage of the loan, and other factors considered relevant to making a credit judgment. We have determined that there should be an individual ranking assigned to each tranche of securities in the same portfolio company where appropriate. This may arise when the perceived risk of loss on the investment varies significantly between tranches due to their respective seniority in the capital structure.

- Investment Ranking 1 is used for investments that are performing above expectations and/or a capital gain is expected.
- Investment Ranking 2 is used for investments that are performing substantially within our expectations, and whose risks remain neutral or favorable compared to the potential risk at the time of the original investment. All new investments are initially ranked 2.
- Investment Ranking 3 is used for investments that are performing below our expectations and that require closer monitoring, but where we expect no loss of investment return (interest and/or dividends) or principal. Companies with a ranking of 3 may be out of compliance with financial covenants.

Table of Contents

- Investment Ranking 4 is used for investments that are performing below our expectations and for which risk has increased materially since the original investment. We expect some loss of investment return, but no loss of principal.
- Investment Ranking 5 is used for investments that are performing substantially below our expectations and whose risks have increased substantially since the original investment. Investments with a ranking of 5 are those for which some loss of principal is expected.

The following table shows the distribution of our investments on the 1 to 5 investment ranking scale at fair value as of December 31, 2012 and September 30, 2012:

(1) Due to operating performance this ratio is not measurable.

We may from time to time modify the payment terms of our investments, either in response to current economic conditions and their impact on certain of our portfolio companies or in accordance with tier pricing provisions in certain loan agreements. As of December 31, 2012, we had modified the payment terms of our investments in 14 portfolio companies. Such modified terms may include increased PIK interest provisions and reduced cash interest rates. These modifications, and any future modifications to our loan agreements, may limit the amount of interest income that we recognize from the modified investments, which may, in turn, limit our ability to make distributions to our stockholders.

Loans and Debt Securities on Non-Accrual Status

As of December 31, 2012, we had stopped accruing PIK interest on two investments. As of December 31, 2011, we had stopped accruing cash and/or PIK interest and original issue discount (“OID”) on four investments, including three that had not paid all of their scheduled cash interest payments for the period ended December 31, 2011.

Discussion and Analysis of Results and Operations

Results of Operations

The principal measure of our financial performance is the net increase (decrease) in net assets resulting from operations, which includes net investment income (loss), net realized gain (loss) and net unrealized appreciation (depreciation). Net investment income is the difference between our income from interest, dividends, fees, and other investment income and total expenses. Net realized gain (loss) on investments is the difference between the proceeds received from dispositions of portfolio investments and their stated costs. Net unrealized appreciation (depreciation) is the net change in the fair value of our investment portfolio.

Comparison of three months ended December 31, 2012 and December 31, 2011

Total Investment Income

Total investment income includes interest and dividend income on our investments, fee income and other investment income. Fee income consists principally of loan and arrangement fees, servicing fees, unused fees, amendment fees, advisory fees, structuring fees, exit fees, prepayment fees and waiver fees. Other investment income consists primarily of dividend income received from certain of our equity investments.

Total investment income for the three months ended December 31, 2012 and December 31, 2011 was $51.8 million and $39.5 million, respectively. For the three months ended December 31, 2012, this amount primarily consisted of $38.6 million of interest income from portfolio investments (which included $3.7 million of PIK interest) and $12.8 million of fee income. For the three months ended December 31, 2011, this amount primarily consisted of $33.5 million of interest income from portfolio investments (which included $3.4 million of PIK interest) and $6.0 million of fee income.

The increase in our total investment income for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011 was primarily attributable to higher average levels of outstanding debt investments, which was principally due to a net increase of 19 debt investments in our portfolio and fee income related to investment activity, partially offset by amortization repayments received on our debt investments and a decrease in the weighted average yield on our debt investments from 12.3% to 12.0% during the year-over-year period.

Expenses

Expenses for the three months ended December 31, 2012 and December 31, 2011 were $25.2 million and $19.8 million, respectively. Expenses increased for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011 by $5.4 million. This was due primarily to increases in:

- Base management fee, which was attributable to a 41.1% increase in the fair value of the investment portfolio due to an increase in net investment fundings in the year-over-year period;
- Incentive fee, which was attributable to a 26.5% increase in pre-incentive fee net investment income for the year-over-year period; and
- Interest expense, which was attributable to a 10.4% increase in weighted average debt outstanding for the year-over-year period.

Gain on Extinguishment of Convertible Senior Notes

During the three months ended December 31, 2012, we did not repurchase any of our unsecured convertible senior notes ("Convertible Notes") in the open market. During the three months ended December 31, 2011, we repurchased $10.5 million in principal amount of our Convertible Notes in the open market and surrendered them to the trustee for cancellation. The aggregate purchase price of these Convertible Notes was $8.9 million because they were trading at a discount due to what we believe were volatile market conditions. As such, we recorded a gain in the amount of the difference between the reacquisition price and the net carrying amount of these Convertible Notes, net of the proportionate amount of unamortized debt issuance costs. The net gain on extinguishment of debt we recorded for the three months ended December 31, 2011 was $1.3 million. Because this net gain was included in the amount that must be distributed to our stockholders in order for us to maintain our RIC status and is classified as a component of net investment income in our Consolidated Statements of Operations, such net gain was included in "Pre-Incentive Fee Net Investment Income" for purposes of the payment of the income incentive fee to the investment adviser under our investment advisory agreement. Paying an incentive fee on this type of net gain is permissible under our investment advisory agreement, but because such a fee was not specifically detailed in the investment advisory agreement, we obtained the approval of our Board of Directors to pay such fees. This type of net gain, and corresponding income incentive fee, may occur again in the future.

Net Investment Income

As a result of the $12.3 million increase in total investment income as compared to the $1.3 million decrease in the gain on extinguishment of debt and the $5.4 million increase in total expenses, net investment income for the three months ended December 31, 2012 reflected a $5.6 million, or 26.5%, increase compared to the three months ended December 31, 2011.

Realized Gain (Loss) on Investments

Realized gain (loss) is the difference between the proceeds received from dispositions of portfolio investments and their stated costs. Realized losses may also be recorded in connection with our determination that certain investments are considered worthless securities and/or meet the conditions for loss recognition per the applicable tax rules.

During the three months ended December 31, 2012, we recorded investment realization events, including the following:

- In October, 2012, we received a cash payment of $4.2 million from Rail Acquisition Corp. in full satisfaction of all obligations related to the revolving loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In October 2012, we received a cash payment of $5.4 million from Bojangles in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In October 2012, we received a cash payment of $21.9 million from Blue Coat Systems, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction;

The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction;
- In November 2012, we received a cash payment of $8.5 million from SolutionSet, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction; and
- During the three months ended December 31, 2012, we received cash payments of $33.7 million in connection with partial sales of debt investments in the open market and recorded a net realized gain of $0.6 million.

During the three months ended December 31, 2011, we recorded investment realization events, including the following:

- In November 2011, we recorded a realized loss in the amount of $18.1 million as a result of a Delaware bankruptcy court judge ruling which confirmed a Chapter 11 plan of reorganization that provided no recovery on our investment in Premier Trailer Leasing, Inc.;
- In November 2011, we received a cash payment of $20.2 million from IZI Medical Products, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and we received an additional $1.3 million proceeds from our equity investment, realizing a gain of $0.8 million;
- In December 2011, we received a cash payment of $23.0 million from ADAPCO, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction;

- In December 2011, we received a cash payment of $2.0 million from Best Vinyl Fence & Deck, LLC in full satisfaction of all obligations related to the Term Loan A under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In December 2011, we received a cash payment of $9.2 million from Actient Pharmaceuticals LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In December 2011, we sold $4.0 million of our $10.0 million debt investment in Bojangles and no realized gain or loss was recorded on this transaction; and
- In December 2011, we sold $2.0 million of our $11.5 million debt investment in US Collections, Inc. and no realized gain or loss was recorded on this transaction.

Net Unrealized Appreciation (Depreciation) on Investments

Net unrealized appreciation or depreciation is the net change in the fair value of our investments during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

During the three months ended December 31, 2012, we recorded net unrealized depreciation of $9.3 million. This consisted of $13.1 million of net unrealized depreciation on debt investments and $0.8 million of net reclassifications to realized gains on debt and equity investments (resulting in unrealized depreciation), offset by $4.6 million of net unrealized appreciation on equity investments. During the three months ended December 31, 2011, we recorded net unrealized appreciation of $5.8 million. This consisted of $1.3 million of net unrealized appreciation on equity investments and $17.1 million of net reclassifications to realized losses on debt and equity investments (resulting in unrealized appreciation), offset by $12.6 million of net unrealized depreciation on debt investments.

Financial Condition, Liquidity and Capital Resources

Cash Flows

We have a number of alternatives available to fund the growth of our investment portfolio and our operations, including, but not limited to, raising equity, increasing debt and funding from operational cash flow. Additionally, we may reduce investment size by syndicating a portion of any given transaction. We intend to fund our future distribution obligations through operating cash flow or with funds obtained through future equity and debt offerings or credit facilities, as we deem appropriate.

For the three months ended December 31, 2012, we experienced a net decrease in cash and cash equivalents of $37.0 million. During that period, we used $280.1 million of cash in operating activities, primarily for the funding of $398.8 million of investments and net revolvers, partially offset by $103.2 million of principal payments, PIK payments and sale proceeds received and $26.6 million of net investment income. During the same period, cash provided by financing activities was $243.1 million, primarily consisting of $151.7 million of proceeds from issuances of our common stock, $31.8 million of net borrowings of SBA debentures, $16.7 million of net borrowings under our credit facilities and $75.0 million of proceeds from the issuance of senior unsecured notes, partially offset by $25.9 million of cash dividends paid, $0.5 million of offering costs paid and $5.7 million of deferred financing costs paid.

For the three months ended December 31, 2011, we experienced a net increase in cash and cash equivalents of $2.7 million. During that period, we had $4.0 million of cash provided by operating activities, primarily from $79.0 million of principal payments, PIK payments and sale proceeds received and $21.0 million of net investment income, offset by the funding of $84.5 million of investments and net revolvers. During the same period cash used by financing activities was $1.3 million, primarily consisting of $23.1 million of cash dividends paid, $8.9 million of net repurchases of our convertible senior notes, $0.3 million of offering costs paid and $0.2 million of deferred financing costs paid, partially offset by $31.2 million of net borrowings under our credit facilities.

As of December 31, 2012, we had $37.4 million in cash and cash equivalents, portfolio investments (at fair value) of $1.58 billion, $8.6 million of interest and fees receivable, $181.8 million of SBA debentures payable, $218.0 million of borrowings outstanding under our credit facilities, $115.0 million of Convertible Notes payable, $75.0 million of 2024 Notes payable and unfunded commitments of $114.0 million.

As of September 30, 2012, we had $74.4 million in cash and cash equivalents, portfolio investments (at fair value) of $1.29 billion, $7.7 million of interest and fees receivable, $150.0 million of SBA debentures payable, $201.3 million of borrowings outstanding under our credit facilities, $115.0 million of Convertible Notes payable and unfunded commitments of $102.5 million.

Other Sources of Liquidity

We intend to continue to generate cash primarily from cash flows from operations, including interest earned, future borrowings and future offerings of securities. In the future, we may also securitize a portion of our investments in first and second lien senior loans or unsecured debt or other assets. To securitize loans, we would likely create a wholly-owned subsidiary and contribute a pool of loans to the subsidiary. We would then sell interests in the subsidiary on a non-recourse basis to purchasers and we would retain all or a portion of the equity in the subsidiary. Our primary use of funds is investments in our targeted asset classes and cash distributions to holders of our common stock.

Although we expect to fund the growth of our investment portfolio through the net proceeds from future equity offerings, including our dividend reinvestment plan, and issuances of senior securities or future borrowings to the extent permitted by the 1940 Act, our plans to raise capital may not be successful. In this regard, because our common stock has at times traded at a price below our then-current net asset value per share and we are limited in our ability to sell our common stock at a price below net asset value per share, we may be limited in our ability to raise equity capital.

In addition, we intend to distribute between 90% and 100% of our taxable income to our stockholders in order to satisfy the requirements applicable to RICs under Subchapter M of the Code. See “Regulated Investment Company Status and Dividends” below. Consequently, we may not have the funds or the ability to fund new investments, to make additional investments in our portfolio companies, to fund our unfunded commitments to portfolio companies or to repay borrowings. In addition, the illiquidity of our portfolio investments may make it difficult for us to sell these investments when desired and, if we are required to sell these investments, we may realize significantly less than their recorded value.

Also, as a business development company, we generally are required to meet a coverage ratio of total assets, less liabilities and indebtedness not represented by senior securities, to total senior securities, which include all of our borrowings and any outstanding preferred stock, of at least 200%. This requirement limits the amount that we may borrow. As of December 31, 2012, we were in compliance with this requirement. The amount of leverage that we employ will depend on our assessment of market conditions and other factors at the time of any proposed borrowing, such as the maturity, covenant package and rate structure of the proposed borrowings, our ability to raise funds through the issuance of shares of our common stock and the risks of such borrowings within the context of our investment outlook. Ultimately, we only intend to use leverage if the expected returns from borrowing to make investments will exceed the cost of such borrowing. To fund growth in our investment portfolio in the future, we anticipate needing to raise additional capital from various sources, including the equity markets and the securitization or other debt-related markets, which may or may not be available on favorable terms, if at all.

Borrowings

Through wholly-owned subsidiaries, we sought and obtained two licenses from the SBA to operate SBIC subsidiaries. In this regard, on February 3, 2010, our wholly-owned subsidiary, Fifth Street Mezzanine Partners IV, L.P. ("FSMP IV"), received a license, effective February 1, 2010, from the SBA to operate as an SBIC under Section 301(c) of the Small Business Investment Act of 1958. On May 15, 2012, our wholly-owned subsidiary, Fifth Street Mezzanine Partners V, L.P. ("FSMP V"), received a license, effective May 10, 2012, from the SBA to operate as an SBIC. SBICs are designated to stimulate the flow of private equity capital to eligible small businesses. Under SBA regulations, SBICs may make loans to eligible small businesses and invest in the equity securities of small businesses.

The SBIC licenses allow our SBIC subsidiaries to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with 10-year maturities.

SBA regulations currently limit the amount that an SBIC subsidiary may borrow to a maximum of $150 million when it has at least $75 million in regulatory capital. Affiliated SBICs are permitted to issue up to a combined maximum amount of $225 million when they have at least $112.5 million in regulatory capital. As of December 31, 2012, FSMP IV had $75 million in regulatory capital and $150 million in SBA-guaranteed debentures outstanding, which had a fair value of $133.6 million. These debentures bear interest at a weighted average interest rate of 3.567% (excluding the SBA annual charge), as follows:

Rate Fix Date	Debenture Amount	Fixed Interest Rate	SBA Annual Charge
September 2010	$ 73,000	3.215%	0.285%
March 2011	65,300	4.084%	0.285%
September 2011	11,700	2.877%	0.285%

As of December 31, 2012, FSMP V had $37.5 million in regulatory capital and $31.8 million in SBA-guaranteed debentures outstanding, which had a fair value of $21.3 million and do not yet have a locked interest rate. For the three months ended December 31, 2012 and 2011, we recorded interest expense of $1.6 million and $1.6 million, respectively, related to the SBA-guaranteed debentures of both subsidiaries.

We have received exemptive relief from the Securities and Exchange Commission ("SEC") to permit us to exclude the debt of our SBIC subsidiaries guaranteed by the SBA from the definition of senior securities in the 200% asset coverage test under the 1940 Act. This allows us increased flexibility under the 200% asset coverage test by permitting us to borrow up to $225 million more than we would otherwise be able to absent the receipt of this exemptive relief.

On November 16, 2009, we and Fifth Street Funding, LLC, a consolidated wholly-owned bankruptcy remote special purpose subsidiary ("Funding"), entered into a Loan and Servicing Agreement ("Wells Agreement") with respect to a three-year credit facility ("Wells Fargo facility") with Wells Fargo Bank, National Association ("Wells Fargo"), as successor to Wachovia Bank, National Association ("Wachovia"), Wells Fargo Securities, LLC, as administrative agent, each of the additional institutional and conduit lenders party thereto from time to time, and each of the lender agents party thereto from time to time, in the amount of $50 million, with an accordion feature which allowed for potential future expansion of the facility up to $100 million. The facility bore interest at LIBOR plus 4.0% per annum and had a maturity date of November 16, 2012.

On May 26, 2010, we amended the Wells Fargo facility to expand the borrowing capacity under that facility. Pursuant to the amendment, we received an additional $50 million commitment, thereby increasing the size of the facility from $50 million to $100 million, with an accordion feature that allows for potential future expansion of that facility from a total of $100 million up to a total of $150 million. In addition, the interest rate of the Wells Fargo facility was reduced from LIBOR plus 4% per annum to LIBOR plus 3.5% per annum, with no LIBOR floor, and the maturity date of the facility was extended from November 16, 2012 to May 26, 2013.

On November 5, 2010, we amended the Wells Fargo facility to, among other things, provide for the issuance from time to time of letters of credit for the benefit of our portfolio companies. The letters of credit are subject to certain restrictions, including a borrowing base limitation and an aggregate sublimit of $15.0 million. On February 28, 2011, we amended the Wells Fargo facility to, among other things, (i) reduce the interest rate to LIBOR plus 3.0% per annum, with no LIBOR floor, (ii) extend the period during which we may make new borrowings under the facility to February 25, 2013, and (iii) extend the maturity date of the facility to February 25, 2014. The facility may be extended for up to two additional years upon the mutual consent of Wells Fargo and each of the lender parties thereto.

On November 30, 2011, we amended the Wells Fargo facility to, among other things, reduce the interest rate to LIBOR plus 2.75% per annum, with no LIBOR floor.

On April 23, 2012, we amended the Wells Fargo facility to, among other things, expand the borrowing capacity under the facility. Pursuant to the amendment, we received an additional $50 million commitment, thereby increasing the size of the facility to $150 million, with an accordion feature which allows for future expansion of the facility up to a total of $250 million. In addition, the period during which we may make and reinvest borrowings under the facility was extended to April 23, 2014 and the maturity date of the facility was extended to April 25, 2016.

In connection with the Wells Fargo facility, we concurrently entered into (i) a Purchase and Sale Agreement with Funding, pursuant to which we will sell to Funding certain loan assets we have originated or acquired, or will originate or acquire and (ii) a Pledge Agreement with Wells Fargo, pursuant to which we pledged all of our equity interests in Funding as security for the payment of Funding's obligations under the Wells Agreement and other documents entered into in connection with the Wells Fargo facility. Funding was formed for the sole purpose of entering into the Wells Fargo facility and has no other operations.

The Wells Agreement and related agreements governing the Wells Fargo facility required both Funding and us to, among other things (i) make representations and warranties regarding the collateral as well as each of our businesses, (ii) agree to certain indemnification obligations, and (iii) comply with various covenants, servicing procedures, limitations on acquiring and disposing of assets, reporting requirements and other customary requirements for similar credit facilities. The Wells Fargo facility agreements also include usual and customary default provisions such as the failure to make timely payments under the facility, a change in control of Funding, and the failure by Funding or us to materially perform under the Wells Agreement and related agreements governing the facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting our liquidity, financial condition and results of operations.

The Wells Fargo facility is secured by all of the assets of Funding, and all of our equity interest in Funding. We use the Wells Fargo facility to fund a portion of our loan origination activities and for general corporate purposes. Each loan origination under the facility is subject to the satisfaction of certain conditions. We cannot be assured that Funding will be able to borrow funds under the Wells Fargo facility at any particular time or at all. As of December 31, 2012, we had $83.0 million of borrowings outstanding under the Wells Fargo facility, which had a fair value of $83.0 million. Our borrowings under the Wells Fargo facility bore interest at a weighted average interest rate of 3.039% for the three months ended December 31, 2012. For the three months ended December 31, 2012 and December 31, 2011, we recorded interest expense of $0.8 million and $0.7 million, respectively related to the Wells Fargo facility.

On May 27, 2010, we entered into a three-year secured syndicated revolving credit facility ("ING facility") pursuant to a Senior Secured Revolving Credit Agreement ("ING Credit Agreement") with certain lenders party thereto from time to time and ING Capital LLC, as administrative agent. The ING facility allowed for us to borrow money at a rate of either (i) LIBOR plus 3.5% per annum or (ii) 2.5% per annum plus an alternate base rate based on the greatest of the Prime Rate, Federal Funds Rate plus 0.5% per annum or LIBOR plus 1% per annum, and had a maturity date of May 27, 2013. The ING facility also allows us to request letters of credit from ING Capital LLC, as the issuing bank. The initial commitment under the ING facility was $90 million, and the ING facility included an accordion feature that allowed for potential future expansion of the facility up to a total of $150 million.

The ING facility is secured by substantially all of our assets, as well as the assets of our wholly-owned subsidiary, FSFC Holdings, Inc., and our indirect wholly-owned subsidiary, Fifth Street Fund of Funds LLC, subject to certain exclusions for, among other things, equity interests in any of our SBIC subsidiaries and equity interests in Funding and Fifth Street Funding II, LLC as further set forth in a Guarantee, Pledge and Security Agreement ("ING Security Agreement") entered into in connection with the ING Credit Agreement, among FSFC Holdings, Inc., ING Capital LLC, as collateral agent, and us. None of our SBIC subsidiaries, Funding or Fifth Street Funding II, LLC is party to the ING facility and their respective assets have not been pledged in connection therewith. The ING facility provides that we may use the proceeds and letters of credit under the facility for general corporate purposes, including acquiring and funding leveraged loans, mezzanine loans, high-yield securities, convertible securities, preferred stock, common stock and other investments.

On February 22, 2011, we amended the ING facility to, among other things, expand the borrowing capacity to $215 million. In addition, the ING facility's accordion feature was increased to allow for potential future expansion up to a total of $300 million and the maturity date was extended to February 22, 2014. On July 8, 2011, we amended the ING facility to, among other things, expand the borrowing capacity to $230 million and increase the accordion feature to allow for potential future expansion up to a total of $350 million. In addition, the ING facility's interest rate was reduced to LIBOR plus 3.0% per annum, with no LIBOR floor, when the facility is drawn more than 35%. Otherwise, the interest rate will be LIBOR plus 3.25% per annum, with no LIBOR floor. On February 29, 2012, we amended the ING facility to, among other things, (i) extend the period during which we may make and repay borrowings under the ING facility to February 27, 2015, (ii) extend the maturity date to February 29, 2016, and (iii) increase the accordion feature to allow for potential future expansion up to a total of $450 million.

On November 30, 2012, we amended our existing $230 million ING facility to, among other things: (i) increase the borrowing capacity of the facility to $380 million, (ii) add five new banks to the syndicate group, (iii) increase the accordion feature of the facility to $600 million, (iv) reduce the interest rate to LIBOR plus 2.75% per annum, with no LIBOR floor, assuming we maintain our current credit rating, (v) extend the period during which we may make and repay borrowings to November 30, 2015, and (vi) extend the maturity date to November 30, 2016. During December 2012 and January 2013, additional lenders were added to the ING facility and the borrowing capacity increased to $425 million. With the addition of the new lenders, the ING facility syndicate group now includes 12 lenders.

Pursuant to the ING Security Agreement, FSFC Holdings, Inc. and Fifth Street Fund of Funds LLC guaranteed the obligations under the ING Security Agreement, including our obligations to the lenders and the administrative agent under the ING Credit Agreement. Additionally, we pledged our entire equity interest in FSFC Holdings, Inc. and FSFC Holdings, Inc. pledged its entire equity interest in Fifth Street Fund of Funds LLC to the collateral agent pursuant to the terms of the ING Security Agreement.

The ING Credit Agreement and related agreements governing the ING facility required FSFC Holdings, Inc., Fifth Street Fund of Funds LLC and us to, among other things (i) make representations and warranties regarding the collateral as well as each of our businesses, (ii) agree to certain indemnification obligations, and (iii) agree to comply with various affirmative and negative covenants and other customary requirements for similar credit facilities. The ING facility documents also include usual and customary default provisions such as the failure to make timely payments under the facility, the occurrence of a change in control, and the failure by us to materially perform under the ING Credit Agreement and related agreements governing the facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting our liquidity, financial condition and results of operations.

Each loan or letter of credit originated under the ING facility is subject to the satisfaction of certain conditions. We cannot be assured that we will be able to borrow funds under the ING facility at any particular time or at all. As of December 31, 2012, we had $135.0 million of borrowings outstanding under the ING facility, which had a fair value of $135.0 million. Our borrowings under the ING facility bore interest at a weighted average interest rate of 3.684% for the three months ended December 31, 2012. For the three months ended December 31, 2012 and December 31, 2011, we recorded interest expense of $1.7 million and $1.4 million, respectively, related to the ING facility.

On September 16, 2011, Fifth Street Funding II, LLC, a consolidated wholly-owned bankruptcy remote, special purpose subsidiary ("Funding II"), entered into a Loan and Servicing Agreement ("Sumitomo Agreement") with respect to a seven-year credit facility ("Sumitomo facility") with Sumitomo Mitsui Banking Corporation ("SMBC"), an affiliate of Sumitomo Mitsui Financial Group, Inc., as administrative agent, and each of the lenders from time to time party thereto, in the amount of $200 million. The Sumitomo facility bears interest at a rate of LIBOR plus 2.25% per annum, with no LIBOR floor, permits us to make new borrowings until September 16, 2014, matures on September 16, 2018 and includes an option for a one-year extension.

In connection with the Sumitomo facility, we concurrently entered into a Purchase and Sale Agreement with Funding II, pursuant to which we will sell to Funding II certain loan assets we have originated or acquired, or will originate or acquire.

The Sumitomo Agreement and related agreements governing the Sumitomo facility required both Funding II and us to, among other things (i) make representations and warranties regarding the collateral as well as each of our businesses, (ii) agree to certain indemnification obligations, and (iii) comply with various covenants, servicing procedures, limitations on acquiring and disposing of assets, reporting requirements and other customary requirements for similar credit facilities. The Sumitomo facility agreements also include usual and customary default provisions such as the failure to make timely payments under the facility, a change in control of Funding II, and the failure by Funding II or us to materially perform under the Sumitomo Agreement and related agreements governing the Sumitomo facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting our liquidity, financial condition and results of operations. Funding II was formed for the sole purpose of entering into the Sumitomo facility and has no other operations.

Table of Contents

The Sumitomo facility is secured by all of the assets of Funding II. Each loan origination under the facility is subject to the satisfaction of certain conditions. We cannot be assured that Funding II will be able to borrow funds under the Sumitomo facility at any particular time or at all. As of December 31, 2012, we had no borrowings outstanding under the Sumitomo facility. Our borrowings under the Sumitomo facility bore interest at a weighted average interest rate of 3.805% for the three months ended December 31, 2012. For the three months ended December 31, 2012 and December 31, 2011, we recorded interest expense of $0.4 million and $0.2 million, respectively, related to the Sumitomo facility.

As of December 31, 2012, except for assets that were funded through our SBIC subsidiaries, substantially all of our assets were pledged as collateral under the Wells Fargo facility, ING facility or the Sumitomo facility. With respect to the assets funded through our SBIC subsidiaries, the SBA, as a creditor, will have a superior claim to the SBIC subsidiaries' assets over our stockholders.

(3) Assuming we maintain our current credit rating.
(4) Weighted average interest rate of 3.567% (excludes the SBA annual charge of 0.285%) on $150 million of debentures; the remainder do not yet have a locked interest rate.

On April 12, 2011, we issued $152 million unsecured convertible senior notes (“Convertible Notes”), including $2 million issued to Leonard M. Tannenbaum, our Chief Executive Officer. The Convertible Notes were issued pursuant to an Indenture, dated April 12, 2011 (the “Indenture”), between us and Deutsche Bank Trust Company Americas, as trustee (the “Trustee”).

The Convertible Notes mature on April 1, 2016 (the “Maturity Date”), unless previously converted or repurchased in accordance with their terms. The Convertible Notes bear interest at a rate of 5.375% per annum payable semiannually in arrears on April 1 and October 1 of each year, commencing on October 1, 2011. The Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles.

Prior to the close of business on the business day immediately preceding January 1, 2016, holders may convert their Convertible Notes only under certain circumstances set forth in the Indenture, such as during specified periods when our shares of common stock trade at more than 110% of the then applicable conversion price or the Convertible Notes trade at less than 98% of their conversion value. On or after January 1, 2016 until the close of business on the business day immediately preceding the Maturity Date, holders may convert their Convertible Notes at any time. Upon conversion, we will deliver shares of our common stock. The conversion rate was initially, and currently is, 67.7415 shares of common stock per $1,000 principal amount of Convertible Notes (equivalent to a conversion price of approximately $14.76 per share of common stock). The conversion rate is subject to customary anti-dilution adjustments, including for any cash dividends or distributions paid on shares of our common stock in excess of a monthly dividend of $0.1066 per share, but will not be adjusted for any accrued and unpaid interest. In addition, if certain corporate events occur prior to the Maturity Date, the conversion rate will be increased for converting holders. Based on the current conversion rate, the maximum number of shares of common stock that would be issued upon conversion of the $115.0 million Convertible Notes outstanding at December 31, 2012 is 7,790,273. If we deliver shares of common stock upon a conversion at the time our net asset value per share exceeds the conversion price in effect at such time, our stockholders may incur dilution. In addition, our stockholders will experience dilution in their ownership percentage of our common stock upon our issuance of common stock in connection with the conversion of our Convertible Notes and any dividends paid on our common stock will also be paid on shares issued in connection with such conversion after such issuance. The shares of common stock issued upon a conversion are not subject to registration rights.

We may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect to us, holders of the Convertible Notes may require us to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The Indenture contains certain covenants, including covenants requiring us to provide financial information to the holders of the Convertible Notes and the Trustee if we cease to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the Indenture.

For the three months ended December 31, 2012 and December 31, 2011, we recorded interest expense of $1.7 million and $1.9 million, respectively, related to the Convertible Notes.

We may repurchase the Convertible Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any Convertible Notes repurchased by us may, at our option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by us. Any Convertible Notes surrendered for cancellation will be promptly cancelled and no longer outstanding under the Indenture. During the three months ended December 31, 2012, we did not repurchase any of the Convertible Notes in the open market. During the three months ended December 31, 2011, we repurchased $10.5 million in principal amount of the Convertible Notes in the open market for an aggregate purchase price of $8.9 million and surrendered them to the Trustee for cancellation.

As of December 31, 2012, there were $115.0 million Convertible Notes outstanding, which had a fair value of $117.0 million.

On October 18, 2012, we issued $75.0 million in aggregate principal amount of our 5.875% 2024 Notes for net proceeds of approximately $72.8 million after deducting underwriting commissions of $2.2 million.

The 2024 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the first supplemental indenture, dated October 18, 2012 (collectively, the “2024 Notes Indenture”), between us and the Trustee. The 2024 Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the 2024 Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles. Interest on the 2024 Notes is paid quarterly in arrears on January 30, April 30, July 30 and October 30, at a rate of 5.875% per annum, beginning January 30, 2013. The 2024 Notes mature on October 30, 2024 and may be redeemed in whole or in part at any time or from time to time at our option on or after October 30, 2017. On November 1, 2012, we listed the 2024 Notes on the New York Stock Exchange under the trading symbol “FSCE” with a par value of $25.00 per share.

The 2024 Notes Indenture contains certain covenants, including covenants requiring our compliance with (regardless of whether we are subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act and with the restrictions on dividends, distributions and purchase of capital stock set forth in Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring us to provide financial information to the holders of the 2024 Notes and the Trustee if we cease to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2024 Notes Indenture. We may repurchase the 2024 Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any 2024 Notes repurchased by us may, at our option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by us. Any 2024 Notes surrendered for cancellation will be promptly cancelled and no longer outstanding under the 2024 Notes Indenture. During the three months ended December 31, 2012, we did not repurchase any of the 2024 Notes in the open market.

For the three months ended December 31, 2012, we recorded interest expense of $1.0 million related to the 2024 Notes.

As of December 31, 2012, there were $75.0 million 2024 Notes outstanding, which had a fair value of $71.6 million.

Interest expense for the three months ended December 31, 2012 and December 31, 2011 was $7.2 million and $5.7 million, respectively.

Off-Balance Sheet Arrangements

We may be a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our portfolio companies. As of December 31, 2012, our only off-balance sheet arrangements consisted of $114.0 million of unfunded commitments, which was comprised of $104.3 million to provide debt financing to certain of our portfolio companies and $9.7 million related to unfunded limited partnership interests. As of September 30, 2012, our only off-balance sheet arrangements consisted of $102.5 million, which was comprised of $94.3 million to provide debt financing to certain of our portfolio companies and $8.2 million related to unfunded limited partnership interests. Such commitments are subject to our portfolio companies' satisfaction of certain financial and nonfinancial covenants and involve, to varying degrees, elements of credit risk in excess of the amount recognized in the Statement of Assets and Liabilities and are not reflected on our Consolidated Statement of Assets and Liabilities.

Regulated Investment Company Status and Dividends

We elected, effective as of January 2, 2008, to be treated as a RIC under Subchapter M of the Code. As long as we qualify as a RIC, we will not be taxed on our investment company taxable income or realized net capital gains, to the extent that such taxable income or gains are distributed, or deemed to be distributed, to stockholders on a timely basis.

Taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses, and generally excludes net unrealized appreciation or depreciation until realized. Dividends declared and paid by us in a year may differ from taxable income for that year as such dividends may include the distribution of current year taxable income or the distribution of prior year taxable income carried forward into and distributed in the current year. Distributions also may include returns of capital.

To maintain RIC tax treatment, we must, among other things, distribute, with respect to each taxable year, at least 90% of our investment company net taxable income (i.e., our net ordinary income and our realized net short-term capital gains in excess of realized net long-term capital losses, if any). As a RIC, we are also subject to a federal excise tax, based on distribution requirements of our taxable income on a calendar year basis (e.g., calendar year 2012). We anticipate timely distribution of our taxable income within the tax rules; however, we incurred a de minimis U.S. federal excise tax for calendar years 2009 and 2010. We did not incur a federal excise tax for calendar year 2011 and do not expect to incur a federal excise tax for the calendar year 2012. We may incur a federal excise tax in future years.

We intend to distribute to our stockholders between 90% and 100% of our annual taxable income (which includes our taxable interest and fee income). However, we are partially dependent on our SBIC subsidiaries for cash distributions to enable us to meet the RIC distribution requirements. Our SBIC subsidiaries may be limited by the Small Business Investment Act of 1958, and SBA regulations governing SBICs, from making certain distributions to us that may be necessary to enable us to maintain our status as a RIC. We may have to request a waiver of the SBA's restrictions for our SBIC subsidiaries to make certain distributions to maintain our RIC status. We cannot assure you that the SBA will grant such waiver. Also, the covenants under the Wells Fargo facility could, under certain circumstances, restrict Fifth Street Funding, LLC from making distributions to us and, as a result, hinder our ability to satisfy the distribution requirement. Similarly, the covenants contained in the ING facility may prohibit us from making distributions to our stockholders, and, as a result, could hinder our ability to satisfy the distribution requirement. In addition, we may retain for investment some or all of our net taxable capital gains (i.e., realized net long-term capital gains in excess of realized net short-term capital losses) and treat such amounts as deemed distributions to our stockholders. If we do this, our stockholders will be treated as if they received actual distributions of the capital gains we retained and then reinvested the net after-tax proceeds in our common stock. Our stockholders also may be eligible to claim tax credits (or, in certain circumstances, tax refunds) equal to their allocable share of the tax we paid on the capital gains deemed distributed to them. To the extent our taxable earnings for a fiscal taxable year fall below the total amount of our dividends for that fiscal year, a portion of those dividend distributions may be deemed a return of capital to our stockholders.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, we may be limited in our ability to make distributions due to the asset coverage test for borrowings applicable to us as a business development company under the 1940 Act and due to provisions in our credit facilities. If we do not distribute a certain percentage of our taxable income annually, we will suffer adverse tax consequences, including possible loss of our status as a RIC. We cannot assure stockholders that they will receive any distributions or distributions at a particular level.

In accordance with certain applicable Treasury regulations and private letter rulings issued by the Internal Revenue Service, a RIC may treat a distribution of its own stock as fulfilling its RIC distribution requirements if each stockholder may elect to receive his or her entire distribution in either cash or stock of the RIC, subject to a limitation that the aggregate amount of cash to be distributed to all stockholders must be at least 20% of the aggregate declared distribution. If too many stockholders elect to receive cash, each stockholder electing to receive cash must receive a pro rata amount of cash (with the balance of the distribution paid in stock). In no event will any stockholder, electing to receive cash, receive less than 20% of his or her entire distribution in cash. If these and certain other requirements are met, for U.S federal income tax purposes, the amount of the dividend paid in stock will be equal to the amount of cash that could have been received instead of stock. We have no current intention of paying dividends in shares of our stock in accordance with these Treasury regulations or private letter rulings.

Related Party Transactions

We have entered into an investment advisory agreement with Fifth Street Management LLC, our investment adviser. Fifth Street Management LLC is controlled by Leonard M. Tannenbaum, its managing member and the chairman of our Board of Directors and our chief executive officer. Pursuant to the investment advisory agreement, fees payable to our investment adviser will be equal to (a) a base management fee of 2.0% of the value of our gross assets, which includes any borrowings for investment purposes and excludes cash and cash equivalents, and (b) an incentive fee based on our performance. The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20% of our "Pre-Incentive Fee Net Investment Income" for the immediately preceding quarter, subject to a preferred return, or "hurdle," and a "catch up" feature. The second part is determined and payable in arrears as of the end of each fiscal year (or upon termination of the investment advisory agreement) and equals 20% of our "Incentive Fee Capital Gains," which equals our realized capital gains on a cumulative basis from inception through the end of the year, if any, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee. The investment advisory agreement may be terminated by either party without penalty upon no fewer than 60 days' written notice to the other. During the three months ended December 31, 2012 and December 31, 2011, we incurred fees of $14.7 million and $11.0 million, respectively, under the investment advisory agreement.

Pursuant to the administration agreement with FSC, Inc., which is controlled by Mr. Tannenbaum, FSC, Inc. will furnish us with the facilities and administrative services necessary to conduct our day-to-day operations, including equipment, clerical, bookkeeping and recordkeeping services at such facilities. In addition, FSC, Inc. will assist us in connection with the determination and publishing of our net asset value, the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders. We will pay FSC, Inc. our allocable portion of overhead and other expenses incurred by it in performing its obligations under the administration agreement, including a portion of the rent and the compensation of our chief financial officer and chief compliance officer and their respective staffs. FSC, Inc. has voluntarily determined to forgo receiving reimbursement for the services performed for us by our chief compliance officer. Although FSC, Inc. currently intends to forgo its right to receive such reimbursement, it is under no obligation to do so and may cease to do so at any time in the future. The administration agreement may be terminated by either party without penalty upon no fewer than 60 days' written notice to the other. During the three months ended December 31, 2012 and December 31, 2011, we have incurred expenses of $1.6 million and $1.1 million, respectively, under the administration agreement.

We have also entered into a license agreement with Fifth Street Capital LLC pursuant to which Fifth Street Capital LLC has agreed to grant us a non-exclusive, royalty-free license to use the name "Fifth Street." Under this agreement, we will have a right to use the "Fifth Street" name, for so long as Fifth Street Management LLC or one of its affiliates remains our investment adviser. Other than with respect to this limited license, we will have no legal right to the "Fifth Street" name. Fifth Street Capital LLC is controlled by Mr. Tannenbaum, its managing member.

Item 3. ***Quantitative and Qualitative Disclosures about Market Risk***

We are subject to financial market risks, including changes in interest rates. Changes in interest rates may affect both our cost of funding and our interest income from portfolio investments, cash and cash equivalents and idle funds investments. Our risk management systems and procedures are designed to identify and analyze our risk, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs. Our investment income will be affected by changes in various interest rates, including LIBOR and prime rates, to the extent our debt investments include floating interest rates. In addition, our investments are carried at fair value as determined in good faith by our Board of Directors in accordance with the 1940 Act (See "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies — Investment Valuation"). Our valuation methodology utilizes discount rates in part in valuing our investments, and changes in those discount rates may have an impact on the valuation of our investments.

As of December 31, 2012, 70.8% of our debt investment portfolio (at fair value) and 70.2% of our debt investment portfolio (at cost) bore interest at floating rates. The composition of our floating rate debt investments by cash interest rate floor (excluding PIK) as of December 31, 2012 and September 30, 2012 was as follows:

	December 31, 2012		September 30, 2012	
	Fair Value	% of Floating Rate Portfolio	Fair Value	% of Floating Rate Portfolio
Under 1%	$ 68,159	6.32%	$ 72,609	8.35%
1% to under 2%	771,946	71.63	554,315	63.72
2% to under 3%	112,764	10.46	111,262	12.79
3% to under 4%	124,871	11.59	131,686	15.14
4% and over	—	—	—	—
Total	**$1,077,740**	**100.00%**	**$869,872**	**100.00%**

Based on our Consolidated Statement of Assets and Liabilities as of December 31, 2012, the following table shows the approximate annualized increase (decrease) in components of net assets resulting from operations of hypothetical base rate changes in interest rates, assuming no changes in our investment and capital structure.

Basis point increase(1)	Interest income	Interest expense	Net increase (decrease)
100	$ 700	$ (2,200)	$ (1,500)
200	6,500	(4,400)	2,100
300	16,400	(6,500)	9,900
400	27,200	(8,700)	18,500
500	38,000	(10,900)	27,100

(1) A decline in interest rates would not have a material impact on our Consolidated Financial Statements.

We regularly measure exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on this review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates. The following table shows a comparison of the interest rate base for our interest-bearing cash and outstanding investments, at principal, and our outstanding borrowings as of December 31, 2012 and September 30, 2012:

	December 31, 2012		September 30, 2012	
	Interest Bearing Cash and Investments	Borrowings	Interest Bearing Cash and Investments	Borrowings
Money market rate	$ 37,438	$ —	$ 74,393	$ —
Prime rate	31,550	—	6,832	60,000
LIBOR				
30 day	32,552	218,000	32,753	141,251
90 day	1,013,013	—	822,867	—
Fixed rate	457,474	371,750	377,522	265,000
Total	**$ 1,572,027**	**$589,750**	**$ 1,314,367**	**$466,251**

Item 4. ***Controls and Procedures***

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective in timely identifying, recording, processing, summarizing, and reporting any material information relating to us that is required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934.

There have been no changes in our internal control over financial reporting that occurred during the three months ended December 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
