- (1) All debt investments are income producing unless otherwise noted. Equity is non-income producing unless otherwise noted.
- (2) See Note 3 to the Consolidated Financial Statements for portfolio composition by geographic region.
- (3) Control Investments are defined by the Investment Company Act of 1940 ("1940 Act") as investments in companies in which the Company owns more than 25% of the voting securities or maintains greater than 50% of the board representation.
- (4) Affiliate Investments are defined by the 1940 Act as investments in companies in which the Company owns between 5% and 25% of the voting securities.
- (5) Equity ownership may be held in shares or units of companies related to the portfolio companies.
- (6) Income producing through payment of dividends or distributions.
- (7) Non-Control/Non-Affiliate Investments are defined by the 1940 Act as investments that are neither Control Investments nor Affiliate Investments.
- (8) Principal includes accumulated PIK interest and is net of repayments.
- (9) Interest rates have been adjusted on certain term loans and revolving. These rate adjustments are temporary in nature due to tier pricing arrangements or financial or payment covenant violations in the original credit agreements, or permanent in nature per loan amendment or waiver documents. The table below summarizes these rate adjustments by portfolio company:

Portfolio Company	Effective date	Cash interest	PIK interest	Reason
JTC Education, Inc.	November 25, 2014	-13.25% on Term Loan	+13.25% on Term Loan	Per loan amendment

- (10) Investment has undrawn commitments and a negative cost basis as a result of unamortized fees. Unamortized fees are classified as unearned income which reduces cost basis.
- (11) Represents an unfunded commitment to fund limited partnership interest. See Note 3 to the Consolidated Financial Statements.
- (12) Investment is not a "qualifying asset" as defined under Section 55(a) of the 1940 Act, in whole or in part.
- (13) The sale of a portion of this loan does not qualify for sale accounting under ASC Topic 860 - *Transfers and Servicing*, and therefore, the entire debt investment remains in the Schedule of Investments. (See Note 15 in the accompanying notes to the Consolidated Financial Statements.)
- (14) The principal balance outstanding for all floating rate loans is indexed to LIBOR and an alternate base rate (e.g., prime rate), which typically resets semi-annually, quarterly, or monthly at the borrower's option. The borrower may also elect to have multiple interest reset periods for each loan. For each of these loans, the Company has provided the applicable margin over LIBOR based on each respective credit agreement.
- (15) Each of the Company's investments are pledged as collateral under one or more of its credit facilities. A single investment may be divided into parts that are individually pledged as collateral to separate credit facilities.
- (16) The Company, through its investments in HFG Holdings, LLC, acquired a majority equity interest in Healthcare Finance Group, LLC, which provides financing to healthcare companies. The fair value of the Company's debt and equity investments in HFG Holdings approximates the fair value of HFG Holdings' equity investment in Healthcare Finance Group, LLC.

- (17) As defined in the 1940 Act, the Company is deemed to be both an "Affiliated Person" of and to "Control" this portfolio company as the Company owns more than 25% of the portfolio company's outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement). See Schedule 12-14 in the accompanying notes to the consolidated financial statements for transactions during the three months ended December 31, 2014 in which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to control.

Consolidated Schedule of Investments
(dollar amounts in thousands)
September 30, 2014

- (1) All debt investments are income producing unless otherwise noted. Equity is non-income producing unless otherwise noted.
- (2) See Note 3 to the Consolidated Financial Statements for portfolio composition by geographic region.
- (3) Control Investments are defined by the 1940 Act as investments in companies in which the Company owns more than 25% of the voting securities or maintains greater than 50% of the board representation.
- (4) Affiliate Investments are defined by the 1940 Act as investments in companies in which the Company owns between 5% and 25% of the voting securities.
- (5) Equity ownership may be held in shares or units of companies related to the portfolio companies.
- (6) Income producing through payment of dividends or distributions.
- (7) Non-Control/Non-Affiliate Investments are defined by the 1940 Act as investments that are neither Control Investments nor Affiliate Investments.
- (8) Principal includes accumulated PIK interest and is net of repayments.
- (9) Interest rates have been adjusted on certain term loans and revolvers. These rate adjustments are temporary in nature due to tier pricing arrangements or financial or payment covenant violations in the original credit agreements, or permanent in nature per loan amendment or waiver documents. The table below summarizes these rate adjustments by portfolio company:

- (10) Investment has undrawn commitments and a negative cost basis as a result of unamortized fees. Unamortized fees are classified as unearned income which reduces cost basis.
- (11) Represents an unfunded commitment to fund limited partnership interest. See Note 3 to the Consolidated Financial Statements.
- (12) Investment is not a "qualifying asset" as defined under Section 55(a) of the 1940 Act, in whole or in part.
- (13) The sale of a portion of this loan does not qualify for sale accounting under ASC Topic 860 - *Transfers and Servicing*, and therefore, the entire debt investment remains in the Schedule of Investments. (See Note 15 in the accompanying notes to the Consolidated Financial Statements.)
- (14) The principal balance outstanding for all floating rate loans is indexed to LIBOR and an alternate base rate (e.g., prime rate), which typically resets semi-annually, quarterly, or monthly at the borrower's option. The borrower may also elect to have multiple interest reset periods for each loan. For each of these loans, the Company has provided the applicable margin over LIBOR based on each respective credit agreement.

September 30, 2014

- (15) Each of the Company's investments are pledged as collateral under one or more of its credit facilities. A single investment may be divided into parts that are individually pledged as collateral to separate credit facilities.
- (16) The Company, through its investments in HFG Holdings, LLC, acquired a majority equity interest in Healthcare Finance Group, LLC, which provides financing to healthcare companies. The fair value of the Company's debt and equity investments in HFG Holdings approximates the fair value of HFG Holdings' equity investment in Healthcare Finance Group, LLC.
- (17) As defined in the 1940 Act, the Company is deemed to be both an "Affiliated Person" of and to "Control" this portfolio company as the Company owns more than 25% of the portfolio company's outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement). See Schedule 12-14 in the accompanying notes to the consolidated financial statements for transactions during the three months ended December 31, 2014 in which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to Control.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Note 1. Organization

Fifth Street Mezzanine Partners III, L.P. (the "Partnership"), a Delaware limited partnership, was organized on February 15, 2007 to primarily invest in debt securities of small and middle market companies. FSMPIII GP, LLC was the Partnership's general partner (the "General Partner"). The Partnership's investments were managed by Fifth Street Management LLC (the "Investment Adviser"). The General Partner and Investment Adviser were under common ownership.

Effective January 2, 2008, the Partnership merged with and into Fifth Street Finance Corp. (the "Company"), an externally managed, closed-end, non-diversified management investment company that has elected to be treated as a business development company under the Investment Company Act of 1940 (the "1940 Act"). Fifth Street Finance Corp. is managed by the Investment Adviser.

The Company also has certain wholly-owned subsidiaries, including subsidiaries that are not consolidated for U.S. federal income tax purposes, which hold certain portfolio investments of the Company. These subsidiaries are consolidated with the Company for accounting purposes, and the portfolio investments held by the subsidiaries are included in the Company's Consolidated Financial Statements. All significant intercompany balances and transactions have been eliminated.

On November 28, 2011, the Company transferred the listing of its common stock from the New York Stock Exchange to the NASDAQ Global Select Market, where it continues to trade under the symbol "FSC." The following table reflects common stock offerings that have occurred from inception through December 31, 2014:

On February 3, 2010, the Company's consolidated wholly-owned subsidiary, Fifth Street Mezzanine Partners IV, L.P. ("FSMP IV"), received a license, effective February 1, 2010, from the United States Small Business Administration, or SBA, to operate as a small business investment company, or SBIC, under Section 301(c) of the Small Business Investment Act of 1958. On May 15, 2012, the Company's consolidated wholly-owned subsidiary, Fifth Street Mezzanine Partners V, L.P. ("FSMP V"), received a license, effective May 10, 2012, from the SBA to operate as an SBIC. SBICs are designed to stimulate the flow of private equity capital to eligible small businesses. Under SBA regulations, SBICs may make loans to eligible small businesses and invest in the equity securities of small businesses.

The SBIC licenses allow the Company's SBIC subsidiaries to obtain leverage by issuing SBA-guaranteed debentures, subject to the satisfaction of certain customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a 10-year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with 10-year maturities.

SBA regulations currently limit the amount of SBA-guaranteed debentures that an SBIC may issue to \$150 million when it has at least \$75 million in regulatory capital. Affiliated SBICs are permitted to issue up to a combined maximum amount of \$225 million when they have at least \$112.5 million in regulatory capital.

As of December 31, 2014, FSMP IV had \$75 million in regulatory capital and \$150 million in SBA-guaranteed debentures outstanding, which had a fair value of \$137.0 million, as compared to \$134.0 million as of September 30, 2014. These debentures bear interest at a weighted average interest rate of 3.567% (excluding the SBA annual charge), as follows:

Rate Fix Date	Debenture Amount	Fixed Interest Rate	SBA Annual Charge
September 2010	\$ 73,000	3.215%	0.285%
March 2011	65,300	4.084	0.285
September 2011	11,700	2.877	0.285

As of December 31, 2014, FSMP V had \$37.5 million in regulatory capital and \$75.0 million in SBA-guaranteed debentures outstanding, which had a fair value of \$64.7 million. These debentures bear interest at a weighted average interest rate of 2.835% (excluding the SBA annual charge), as follows:

Rate Fix Date	Debenture Amount	Fixed Interest Rate	SBA Annual Charge
March 2013	\$ 31,750	2.351%	0.804%
March 2014	43,250	3.191	0.804

As of December 31, 2014, the \$225.0 million of SBA-guaranteed debentures held by the Company's SBIC subsidiaries carry a weighted average interest rate of 3.323%.

For the three months ended December 31, 2014 and December 31, 2013, the Company recorded interest expense of \$2.4 million and \$1.9 million, respectively, related to the SBA-guaranteed debentures of both SBIC subsidiaries.

The SBA restricts the ability of SBICs to repurchase their capital stock. SBA regulations also include restrictions on a "change of control" or transfer of an SBIC and require that SBICs invest idle funds in accordance with SBA regulations. In addition, the Company's SBIC subsidiaries may also be limited in their ability to make distributions to the Company if they do not have sufficient capital, in accordance with SBA regulations.

The Company's SBIC subsidiaries are subject to regulation and oversight by the SBA, including requirements with respect to maintaining certain minimum financial ratios and other covenants. Receipt of an SBIC license does not assure that the SBIC subsidiaries will receive SBA-guaranteed debenture funding and is further dependent upon the SBIC subsidiaries continuing to be in compliance with SBA regulations and policies.

The SBA, as a creditor, will have a superior claim to the SBIC subsidiaries' assets over the Company's stockholders in the event the Company liquidates the SBIC subsidiaries or the SBA exercises its remedies under the SBA-guaranteed debentures issued by the SBIC subsidiaries upon an event of default.

The Company has received exemptive relief from the Securities and Exchange Commission ("SEC") to permit it to exclude the debt of the SBIC subsidiaries guaranteed by the SBA from the definition of senior securities in the Company's 200% asset coverage test under the 1940 Act. This allows the Company increased flexibility under the 200% asset coverage test by permitting it to borrow up to \$225 million more than it would otherwise be able to under the 1940 Act absent the receipt of this exemptive relief.

Note 2. Significant Accounting Policies

Basis of Presentation:

The Consolidated Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the requirements for reporting on Form 10-Q and Regulation S-X. In the opinion of management, all adjustments of a normal recurring nature considered necessary for the fair presentation of the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Consolidated Financial Statements have been made. The financial results of the Company's portfolio investments are not consolidated in the Company's Consolidated Financial Statements. As provided under ASU 2013-08 which amended Accounting Standards Codification ("ASC") 946 – *Financial Services – Investment Companies* ("ASC 946"), the Company is an investment company as it is regulated under the 1940 Act.

Use of Estimates:

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions affecting amounts reported in the financial statements and accompanying notes. These estimates are based on the information that is currently available to the Company and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ materially from those estimates under different assumptions and conditions. The most significant estimates inherent in the preparation of the Company's Consolidated Financial Statements are the valuation of investments and revenue recognition.

The Consolidated Financial Statements include portfolio investments at fair value of \$2.7 billion and \$2.5 billion at December 31, 2014 and September 30, 2014, respectively. The portfolio investments represent 193.6% and 168.8% of net assets at December 31, 2014 and September 30, 2014, respectively, and their fair values have been determined in good faith by the Company's Board of Directors. Because of the inherent uncertainty of valuation, the determined values may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

The Company classifies its investments in accordance with the requirements of the 1940 Act. Under the 1940 Act, "Control Investments" are defined as investments in companies in which the Company owns more than 25% of the voting securities or has rights to maintain greater than 50% of the board representation; "Affiliate Investments" are defined as investments in companies in which the Company owns between 5% and 25% of the voting securities; and "Non-Control/Non-Affiliate Investments" are defined as investments that are neither Control Investments nor Affiliate Investments.

Consolidation:

As provided under Regulation S-X and ASC 946, the Company will generally not consolidate its investment in a company other than a wholly-owned investment company or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the results of certain of the Company's wholly-owned subsidiaries in its consolidated financial statements.

Fair Value Measurements:

The Financial Accounting Standards Board ("FASB") ASC 820 *Fair Value Measurements and Disclosures* ("ASC 820") defines fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A liability's fair value is defined as the amount that would be paid to transfer the liability to a new obligor, not the amount that would be paid to settle the liability with the creditor. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available or reliable, valuation techniques are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the investments or market and the investments' complexity.

Assets and liabilities recorded at fair value in the Company's Consolidated Financial Statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Hierarchical levels, defined by ASC 820 and directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, are as follows:

- Level 1 — Unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data at the measurement date for substantially the full term of the assets or liabilities.
- Level 3 — Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

Under ASC 820, the Company performs detailed valuations of its debt and equity investments for which quotations are not readily available on an individual basis, using bond yield, market and income approaches as appropriate. In general, the Company utilizes the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

bond yield method in determining the fair value of its debt investments, as long as it is appropriate. If, in the Company's judgment, the bond yield approach is not appropriate, it may use the market or income approach in determining the fair value of the Company's investment in the portfolio company. In certain instances, the Company may use alternative methodologies, including an asset liquidation, expected recovery model or other alternative approaches.

Financial instruments with readily available quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment inherent in measuring fair value. As such, the Company obtains and analyzes readily available market quotations provided by independent pricing services for all of the Company's senior secured debt investments for which quotations are available. In determining the fair value of a particular investment, pricing services use observable market information, including both binding and non-binding indicative quotations. These investments are generally classified as Level 3 because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities or may require adjustment for investment-specific factors or restrictions.

The Company evaluates the prices obtained from independent pricing services based on available market information and company specific data that could affect the credit quality and/or fair value of the investment. Investments for which market quotations are readily available may be valued at such market quotations. In order to validate market quotations, the Company looks at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. The Company does not adjust any of the prices received from these sources unless the Company has a reason to believe any such market quotations are not reflective of the fair value of an investment.

Market quotations may be deemed not to represent fair value where the Company believes that facts and circumstances applicable to an issuer, a seller or purchaser or the market for a particular security causes current market quotations not to reflect the fair value of the security, among other reasons. Examples of these events could include cases when a security trades infrequently causing a quoted purchase or sale price to become stale or in the event of a "fire sale" by a distressed seller. In these instances, the Company values such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available (as discussed below).

If the quotation provided by the pricing service is based on only one or two market sources, the Company performs additional procedures to corroborate such information, generally including but not limited to, the bond yield approach discussed below and a quantitative and qualitative assessment of the credit quality and market trends affecting the portfolio company.

Under the bond yield approach, the Company uses bond yield models to determine the present value of the future cash flow streams of its debt investments. The Company reviews various sources of transactional data, including private mergers and acquisitions involving debt investments with similar characteristics, and assesses the information in the valuation process.

Under the market approach, the Company estimates the enterprise value of the portfolio companies in which it invests. There is no one methodology to estimate enterprise value and, in fact, for any one portfolio company, enterprise value is best expressed as a range of fair values, from which the Company derives a single estimate of enterprise value. To estimate the enterprise value of a portfolio company, the Company analyzes various factors, including the portfolio company's historical and projected financial results. Typically, private companies are valued based on multiples of EBITDA (earnings before interest, taxes, depreciation, and amortization), cash flows, net income or revenues. The Company generally requires portfolio companies to provide annual audited and quarterly or monthly unaudited financial statements, as well as annual projections for the upcoming fiscal year. The Company determines the fair value of its limited partnership interests based on the most recently available net asset value of the partnership.

Under the income approach, the Company generally prepares and analyzes discounted cash flow models based on projections of the future free cash flows of the business.

The Company estimates the fair value of privately held warrants using a Black Scholes pricing model. At each reporting date, privately held warrants are valued based on an analysis of various factors and subjective assumptions including, but not limited to, the current stock price (by analyzing the portfolio company's operating performance and financial condition and general market conditions), the expected period until exercise, expected volatility of the underlying stock price, expected dividends and the risk free rate. Changes in the subjective input assumptions can materially affect the fair value estimates.

The Company's Board of Directors undertakes a multi-step valuation process each quarter in connection with determining the fair value of the investment portfolio:

- The quarterly valuation process begins with each portfolio company or investment being initially valued either by the Company's capital markets group for quoted investments or the Company's finance department for unquoted investments;

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

- Preliminary valuations are then reviewed and discussed with principals of the Investment Adviser;
- Separately, independent valuation firms engaged by the Board of Directors prepare preliminary valuations of our investments, on a selected basis, for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment, and submit the reports to the Company;
- The finance department compares and contrasts its preliminary valuations to the preliminary valuations of the independent valuation firms;
- The finance department prepares a valuation report for the Audit Committee of the Board of Directors;
- The Audit Committee of the Board of Directors is apprised of the preliminary valuations of the independent valuation firms;
- The Audit Committee of the Board of Directors reviews the preliminary valuations with the portfolio managers of the Investment Adviser, and the finance department responds and supplements the preliminary valuations to reflect any comments provided by the Audit Committee;
- The Audit Committee of the Board of Directors makes a recommendation to the Board of Directors regarding the fair value of the investments in the Company's portfolio; and
- The Board of Directors discusses valuations and determines the fair value of each investment in the Company's portfolio in good faith.

The fair value of each of the Company's investments at December 31, 2014 and September 30, 2014 was determined in good faith by the Board of Directors. The Board of Directors has authorized the engagement of independent valuation firms to provide valuation assistance. The Company will continue to engage independent valuation firms to provide assistance regarding the determination of the fair value of a portion of the Company's portfolio securities for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment each quarter, with a substantial portion being valued over the course of each fiscal year. However, the Board of Directors is ultimately and solely responsible for the valuation of the portfolio investments at fair value as determined in good faith pursuant to the Company's valuation policy and a consistently applied valuation process.

In certain cases, an independent valuation firm may perform a portfolio company valuation which is reviewed and, where appropriate, relied upon by the Company's Board of Directors in determining the fair value of such investment.

Investment Income:

Interest income, adjusted for accretion of original issue discount or "OID," is recorded on an accrual basis to the extent that such amounts are expected to be collected. The Company stops accruing interest on investments when it is determined that interest is no longer collectible. In connection with its investment, the Company sometimes receives nominal cost equity that is valued as part of the negotiation process with the particular portfolio company. When the Company receives nominal cost equity, the Company allocates its cost basis in its investment between its debt securities and its nominal cost equity at the time of origination. Any resulting discount from recording the loan, or otherwise purchasing a security at a discount, is accreted into interest income over the life of the loan.

For the Company's secured borrowings, the interest earned on the entire loan balance is recorded within interest income and the interest earned by the buyer from the partial loan sales is recorded within interest expense in the Consolidated Statements of Operations.

The Company generally recognizes dividend income on the ex-dividend date.

The Company has investments in debt securities which contain payment-in-kind ("PIK") interest provisions. PIK interest is computed at the contractual rate specified in each investment agreement and added to the principal balance of the investment and recorded as income. The Company stops accruing PIK interest on investments when it is determined that PIK interest is no longer collectible.

Fee income consists of the monthly servicing fees, advisory fees, structuring fees and prepayment fees that the Company receives in connection with its debt investments. These fees are recognized as earned.

The Company has also structured exit fees across certain of its portfolio investments to be received upon the future exit of those investments. Exit fees are fees which are payable upon the exit of a debt security. These fees are to be paid to the Company upon the sooner to occur of (i) a sale of the borrower or substantially all of the assets of the borrower, (ii) the maturity date of the loan or (iii) the date when full prepayment of the loan occurs. The receipt of such fees is contingent upon the occurrence of one of the events listed above for each of the investments. A percentage of these fees is included in net investment income over the life of the loan.

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Gain on Extinguishment of Convertible Notes:

The Company may repurchase its convertible notes ("Convertible Notes") in accordance with the 1940 Act and the rules promulgated thereunder and may surrender these Convertible Notes to Deutsche Bank Trust Company Americas (the "Trustee"), as trustee, for cancellation. If the repurchase occurs at a purchase price below par value, a gain on the extinguishment of these Convertible Notes is recorded. The amount of the gain recorded is the difference between the reacquisition price and the net carrying amount of the Convertible Notes, net of the proportionate amount of unamortized debt issuance costs.

Cash and Cash Equivalents:

Cash and cash equivalents consist of demand deposits and highly liquid investments with maturities of three months or less, when acquired. The Company places its cash and cash equivalents with financial institutions and, at times, cash held in bank accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Restricted Cash:

Included in restricted cash is \$40.5 million that was held at U.S. Bank, National Association in connection with the Company's Sumitomo facility (as defined in Note 6 — Lines of Credit). The Company is restricted in terms of access to this cash until such time as the Company submits its required monthly reporting schedules and Sumitomo Mitsui Banking Corporation verifies the Company's compliance per the terms of the credit agreement with the Company. Additionally, the Company has \$5.8 million that is held at Wells Fargo Bank, National Association ("Wells Fargo") that represents collateral for standby letters of credit issued to portfolio companies under the Wells Fargo facility (as defined in Note 6 — Lines of Credit).

Due from Portfolio Companies:

Due from portfolio companies consists of amounts payable to the Company from its portfolio companies, excluding those amounts attributable to interest, dividends or fees receivable. These amounts are recognized as they become payable to the Company (*e.g.*, principal payments on the schedule amortization payment date).

Deferred Financing Costs:

Deferred financing costs consist of fees and expenses paid in connection with the closing or amending of credit facilities and debt offerings, and are capitalized at the time of payment. Deferred financing costs are amortized using the straight line method over the terms of the respective credit facilities and debt securities. This amortization expense is included in interest expense in the Company's Consolidated Statements of Operations. Upon early termination of a credit facility, the remaining balance of unamortized fees related to such facility is accelerated into interest expense.

Offering Costs:

Offering costs consist of fees and expenses incurred in connection with the public offer and sale of the Company's common stock, including legal, accounting and printing fees. There were no offering costs charged to capital during the three months ended December 31, 2014 and December 31, 2013.

Income Taxes:

As a regulated investment company, or RIC, the Company is not subject to federal income tax on the portion of its taxable income and gains distributed currently to its stockholders as a dividend. The Company intends to distribute between 90% and 100% of its taxable income and gains, within the Subchapter M rules, and thus the Company anticipates that it will not incur any U.S. federal or state income tax at the RIC level. As a RIC, the Company is also subject to a 4% U.S. federal excise tax based on distribution requirements of its taxable income on a calendar year basis. The Company anticipates timely distribution of its taxable income within the tax rules. The Company did not incur a U.S. federal excise tax for calendar years 2012 and 2013 and does not expect to incur a U.S. federal excise tax for calendar year 2014. The Company may incur a U.S. federal excise tax in future years.

The purpose of the Company's taxable subsidiaries is to permit the Company to hold equity investments in portfolio companies which are "pass through" entities for U.S. federal income tax purposes in order to comply with the "source income" requirements contained in the RIC tax requirements. The taxable subsidiaries are not consolidated with the Company for U.S. federal income tax purposes and may generate income tax expense as a result of their ownership of certain portfolio investments. This income tax expense, if any, would be reflected in the Company's Consolidated Statements of Operations. The Company uses the asset and liability method to account for its taxable subsidiaries' income taxes. Using this method, the Company recognizes deferred tax assets and liabilities for the estimated future tax effects attributable to temporary differences between financial reporting and tax bases of assets and liabilities. In addition, the Company recognizes deferred tax benefits associated with net operating carry forwards that it may use to offset future tax

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

obligations. The Company measures deferred tax assets and liabilities using the enacted tax rates expected to apply to taxable income in the years in which it expects to recover or settle those temporary differences.

ASC 740 *Accounting for Uncertainty in Income Taxes* ("ASC 740") provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the Company's Consolidated Financial Statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an ongoing analysis of tax laws, regulations and interpretations thereof. The Company recognizes the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by tax authorities. Management has analyzed the Company's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years 2011, 2012 or 2013. The Company identifies its major tax jurisdictions as U.S. Federal and Connecticut, and the Company is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

Secured Borrowings:

The Company follows the guidance in ASC 860 *Transfers and Servicing* when accounting for loan participations and other partial loan sales. Such guidance provides accounting and reporting standards for transfers and servicing of financial assets and requires a participation or other partial loan sale to meet the definition of a "participating interest," as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest remain on the Company's Consolidated Statement of Assets and Liabilities and the proceeds are recorded as a secured borrowing until the definition is met. Secured borrowings are carried at fair value to correspond with the related investments, which are carried at fair value. See Note 15 for additional information.

Payable to Syndication Partners:

The Company acts as administrative agent for certain loans it originates and then syndicates. As administrative agent, the Company receives interest, principal and/or other payments from borrowers that gets redistributed to syndication partners. Such amounts are recorded as payable to syndication partners on the Consolidated Statements of Assets and Liabilities.

Fair Value Option:

The Company adopted ASC 825-10-25-1 *Financial Instruments – Fair Value Option* ("ASC 825") as of February 19, 2014, and elected the fair value option for its secured borrowings which had a cost basis of \$22.5 million in the aggregate, as of December 31, 2014. The Company believes that by electing the fair value option for these financial instruments, it provides consistent measurement of the assets and liabilities which relate to the partial loan sales mentioned above.

Recent Accounting Pronouncements:

In June 2013, the FASB issued ASU 2013-08, "*Financial Services – Investment Companies* (ASC 946): Amendments to the Scope, Measurement, and Disclosure Requirements," ("ASU 2013-08") which amends the criteria that define an investment company and clarifies the measurement guidance and requires new disclosures for investment companies. Under ASU 2013-08, an entity already regulated under the 1940 Act will be automatically deemed an investment company under the new GAAP definition. ASU 2013-08 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2013. As the Company is regulated by the 1940 Act, there was no impact on the consolidated financial results as it is automatically treated as a GAAP investment company under the ASU 2013-08.

In May 2014, the FASB issued guidance to establish a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions and geographies. The core principle of the new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer. The new guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. Qualitative and quantitative information is required to be disclosed about: (1) contracts with customers, (2) significant judgments and changes in judgments, and (3) assets recognized from costs to obtain or fulfill a contract. The new guidance will apply

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

to all entities. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2016. Early application is not permitted. The Company is in the process of evaluating the impact that this guidance will have on its financial statements.

Note 3. Portfolio Investments

At December 31, 2014, 193.6% of net assets, or \$2.7 billion, was invested in 137 portfolio investments, including the Company's investment in subordinated notes and LLC equity interests in Senior Loan Fund JV I, LLC ("SLF JV I") with a fair value of \$61.8 million and \$4.8 million, respectively, and 4.6% of net assets, or \$64.3 million, was invested in cash and cash equivalents. In comparison, at September 30, 2014, 168.8% of net assets, or \$2.5 billion, was invested in 124 portfolio investments, including the Company's investment in subordinated notes and LLC equity interests in SLF JV I with a fair value of \$54.0 million and \$5.6 million, respectively, and 5.9% of net assets, or \$86.7 million, was invested in cash and cash equivalents. As of December 31, 2014, 82.2% of the Company's portfolio at fair value consisted of senior secured debt investments that were secured by priority liens on the assets of the portfolio companies. Moreover, the Company held equity investments in certain of its portfolio companies consisting of common stock, preferred stock, limited partnership interests or limited liability company interests. These instruments generally do not produce a current return but are held for potential investment appreciation and capital gain.

During the three months ended December 31, 2014 and December 31, 2013, the Company recorded net realized gains (losses) on investments and secured borrowings of \$(17.6) million and \$3.2 million, respectively. During the three months ended December 31, 2014 and December 31, 2013, the Company recorded net unrealized depreciation on investments and secured borrowings of \$48.6 million and \$5.7 million, respectively.

The composition of the Company's investments as of December 31, 2014 and September 30, 2014 at cost and fair value was as follows:

	December 31, 2014		September 30, 2014	
	Cost	Fair Value	Cost	Fair Value
Investments in debt securities	\$ 2,567,869	\$ 2,503,406	\$ 2,309,405	\$ 2,291,459

When a determination is made to classify a financial instrument within Level 3 of the valuation hierarchy, the determination is based upon the fact that the unobservable factors are the most significant to the overall fair value measurement. However, Level 3 financial instruments typically include, in addition to the unobservable or Level 3 components, observable components (that is, components that are actively quoted and can be validated by external sources). Accordingly, the appreciation (depreciation) in the tables below includes changes in fair value due in part to observable factors that are part of the valuation methodology.

The following table provides a roll-forward in the changes in fair value from September 30, 2014 to December 31, 2014, for all investments for which the Company determines fair value using unobservable (Level 3) factors:

The Company generally utilizes a bond yield model to estimate the fair value of its debt investments when there is not a readily available market value (Level 3), which model is based on the present value of expected cash flows from the debt investments. The significant observable inputs into the model are market interest rates for debt with similar characteristics, which are adjusted for the portfolio company's credit risk. The credit risk component of the valuation considers several factors including financial performance, business outlook, debt priority and collateral position. These factors are incorporated into the calculation of the capital structure

(d) The Company generally uses prices provided by an independent pricing service which are non-binding indicative prices on or near the valuation date as the primary basis for the fair value determinations for quoted senior secured debt investments and CLO debt investments. Since these prices are non-binding, they may not be indicative of fair value. Each quoted price is evaluated by the Audit Committee in conjunction with additional information compiled by the Company, including financial performance, recent business developments and various other factors.

(b) Used when market participant would use such multiples when pricing the investment.
(c) Weighted averages are calculated based on fair value of investments or secured borrowings.

Under the bond yield approach, the significant unobservable inputs used in the fair value measurement of the Company's investments in debt securities are capital structure premium, tranche specific risk premium/(discount), size premium and industry premium/(discount). Significant increases or decreases in any of those inputs in isolation may result in a significantly lower or higher fair value measurement, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Under the market and income approaches, the significant unobservable inputs used in the fair value measurement of the Company's investments in debt or equity securities are the weighted average cost of capital, company specific risk premium, revenue growth rate, EBITDA multiple, revenue multiple and book value multiple. Significant increases or decreases in a portfolio company's weighted average cost of capital or company specific risk premium in isolation may result in a significantly lower or higher fair value measurement, respectively. Significant increases or decreases in the revenue growth rate or valuation multiples in isolation may result in a significantly higher or lower fair value measurement, respectively.

Financial Instruments Disclosed, But Not Carried, At Fair Value

The following table presents the carrying value and fair value of the Company's financial liabilities disclosed, but not carried, at fair value as of December 31, 2014, and the level of each financial liability within the fair value hierarchy:

	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Credit facilities payable	\$ 617,495	\$ 617,495	\$ —	\$ —	\$ 617,495
SBA debentures payable	225,000	201,654	—	—	201,654

Unsecured notes payable	410,121	418,719	—	160,494	258,225
Total	\$ 1,367,616	\$ 1,356,749	\$ —	\$ 160,494	\$ 1,196,255

The following table presents the carrying value and fair value of the Company's financial liabilities disclosed, but not carried, at fair value as of September 30, 2014 and the level of each financial liability within the fair value hierarchy:

	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Credit facilities payable	\$ 317,395	\$ 317,395	\$ —	\$ —	\$ 317,395
SBA debentures payable	225,000	197,126	—	—	197,126

Total	\$ 1,067,273	\$ 1,050,085	\$ —	\$ 157,864	\$ 892,221

The carrying values of credit facilities payable approximates their fair values and are included in Level 3 of the hierarchy.

The Company utilizes the bond yield approach to estimate the fair values of its SBA debentures payable, which are included in Level 3 of the hierarchy. Under the bond yield approach, the Company uses bond yield models to determine the present value of the future cash flows streams for the debentures. The Company reviews various sources of data involving investments with similar characteristics and assesses the information in the valuation process.

The Company uses the non-binding indicative quoted price as of the valuation date to estimate the fair value of its 4.875% unsecured notes due 2019 and Convertible Notes, which are included in Level 3 of the hierarchy.

The Company uses the unadjusted quoted price as of the valuation date to calculate the fair value of its 5.875% unsecured notes due 2024 and its 6.125% unsecured notes due 2028, which trade under the symbol "FSCE" on the New York Stock Exchange and the symbol "FSCFL" on the NASDAQ Stock Exchange, respectively. As such, these securities are included in Level 2 of the hierarchy.

Senior Loan Fund JV I:

In May, 2014, the Company entered into an LLC agreement with Trinity Universal Insurance Company, a subsidiary of Kemper Corporation ("Kemper") to form SLF JV I. On July 1, 2014, SLF JV I began investing in senior secured loans of middle market companies and other corporate debt securities. The Company co-invests in these securities with Kemper through its investment in SLF JV I. SLF JV I is managed by a four person Board of Directors, two of whom are selected by the Company and two of whom are selected by Kemper. SLF JV I is capitalized pro rata with subordinated notes and LLC equity interests as transactions are completed. All portfolio decisions and investment decisions in respect of SLF JV I must be approved by the SLF JV I investment committee, which consists of one representative of the Company and one representative of Kemper (with approval from a representative of each required). The members provide capital to SLF JV I in the form of subordinated notes and LLC equity interests. As of December 31, 2014 and September 30, 2014, the Company and Kemper owned, in the aggregate, 87.5% and 12.5%, respectively, of each of the outstanding subordinated notes and LLC equity interests.

The Company has determined that SLF JV I is an investment company under ASC 946, however, in accordance with such guidance, the Company will generally not consolidate its investment in a company other than a wholly owned investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company does not consolidate its noncontrolling interest in SLF JV I.

As of December 31, 2014 and September 30, 2014, SLF JV I had total assets of \$265.0 million and \$186.0 million, respectively. The Company's investment in SLF JV I consisted of LLC equity interests of \$4.8 million and subordinated notes of \$61.8 million, at fair value as of December 31, 2014. As of September 30, 2014, the Company's investment consisted of LLC equity interests of \$5.6 million and subordinated notes of \$54.0 million, at fair value. The subordinated notes are junior in right of payment to the repayment of temporary contributions made by the Company to fund investments of SLF JV I. SLF JV I's portfolio consisted of middle-market and other corporate debt securities of 21 and 18 "eligible portfolio companies" (as defined in the Section 2(a) (46) of the 1940 Act) as of December 31, 2014 and September 30, 2014, respectively. As of December 31, 2014, the largest investment in a single company in SLF JV I's portfolio in aggregate principal amount was \$20.0 million, and the five largest investments in portfolio companies in SLF JV I totaled \$75.0 million in aggregate principal amount. As of September 30, 2014, the largest investment in a single company in SLF JV I's portfolio in aggregate principal amount was \$20.0 million, and the five largest investments in portfolio companies in SLF JV I totaled \$60.0 million in aggregate principal amount. The portfolio companies in SLF JV I are in industries similar to those in which the Company may invest directly.

As of December 31, 2014, SLF JV I had total capital commitments of \$200.0 million, \$175.0 million of which was from the Company and the remaining \$25.0 million from Kemper. Approximately \$78.4 million and \$68.6 million, respectively, was funded as of December 31, 2014 and September 30, 2014 relating to these commitments, of which \$68.6 million and \$60.0 million, respectively, was from the Company. As of December 31, 2014 and September 30, 2014, the Company had commitments to fund subordinated notes to SLF JV I of \$157.5 million, of which \$95.8 million and \$103.5 million was unfunded, respectively. The subordinated notes mature on May 2, 2021. As of December 31, 2014 and September 30, 2014, the Company had commitments to fund LLC equity interests in SLF JV I of \$17.5 million, of which \$10.6 million and \$11.5 million was unfunded, respectively. Additionally, SLF JV I had a senior revolving credit facility with Deutsche Bank AG, New York Branch ("Deutsche Bank facility") with a stated maturity date of July 1, 2019, which permitted up to \$200.0 million of borrowings as of December 31, 2014 and September 30, 2014. Under the Deutsche Bank facility, \$130.0 million and \$109.3 million was outstanding as of December 31, 2014 and September 30, 2014, respectively.

Below is a summary of SLF JV I's portfolio, followed by a listing of the individual loans in SLF JV I's portfolio as of December 31, 2014 and September 30, 2014:

	December 31, 2014	September 30, 2014

SLF JV I has elected to fair value the subordinated notes issued to the Company and Kemper under ASC 825. The subordinated notes are valued by calculating the net present value of the future expected cash flow streams using an appropriate risk-adjusted discount rate model.

During the three months ended December 31, 2014, the Company sold \$89.8 million of senior secured debt investments (\$54.9 million of which was unsettled at December 31, 2014) and paid \$10.0 million of receivables from secured financing arrangements from SLF JV I at fair value in exchange for \$99.8 million cash consideration. The Company recognized a \$0.05 million realized loss on these transactions.

Note 4. Fee Income

The Company receives a variety of fees in the ordinary course of business including servicing, advisory, structuring and prepayments fees, which are classified as fee income and recognized as they are earned. The ending unearned fee income balances as of December 31, 2014 and September 30, 2014 were \$2.4 million and \$3.0 million, respectively.

As of December 31, 2014, the Company had structured \$2.5 million in aggregate exit fees across three portfolio investments upon the future exit of those investments. Exit fees are fees which are payable upon the exit of a debt investment. These fees are to be paid to the Company upon the sooner to occur of (i) a sale of the borrower or substantially all of the assets of the borrower, (ii) the maturity date of the loan or (iii) the date when full prepayment of the loan occurs. The receipt of such fees is contingent upon the occurrence of one of the events listed above for each of the investments. A percentage of these fees is included in net investment income over the life of the loan.

Note 5. Share Data

On March 19, 2013, the Company amended its Restated Certificate of Incorporation to increase the number of authorized shares of common stock from 150,000,000 shares to 250,000,000 shares.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

On August 22, 2014, the Company entered into an at-the-market offering ("ATM Program") with KeyBanc Capital Markets Inc. through which the Company may sell, from time to time at our sole discretion, up to \$100,000,000 of its common stock. Since the inception of the ATM Program, the Company sold 841,456 shares of our common stock at an average price of \$9.86 per share, and raised \$8.3 million of net proceeds, under the ATM Program. Commissions to the broker-dealer on shares sold and offering costs were approximately \$0.1 million. There were no issuances under the ATM Program for the three months ended December 31, 2014.

The following table sets forth the computation of basic and diluted earnings per share, pursuant to ASC 260-10 *Earnings per Share*, for the three months ended December 31, 2014 and December 31, 2013:

(1) Shares were purchased on the open market and distributed.

On November 21, 2013, the Company's Board of Directors terminated the Company's previous \$50 million stock repurchase program and approved a new \$100 million stock repurchase program. Under this program, any stock repurchases were to be made through the open market at times and in such amounts as management deemed appropriate, provided they were below the most recently published net asset value per share.

In December 2013, the Company repurchased 45,104 shares at the weighted average price of \$8.978 per share, resulting in \$0.4 million of cash paid.

On November 20, 2014, the Company's Board of Directors terminated the Company's previous \$100 million stock repurchase program and approved a new \$100 million stock repurchase plan through November 20, 2015. Any stock repurchases under the new \$100 million stock repurchase program will be made through the open market at times, and in such amounts, as management deems appropriate. This program may be limited or terminated at any time without prior notice.

Note 6. Lines of Credit

Wells Fargo Facility

On November 16, 2009, Fifth Street Funding, LLC, a consolidated wholly-owned bankruptcy remote, special purpose subsidiary ("Funding"), and the Company entered into a Loan and Servicing Agreement ("Wells Agreement"), with respect to a revolving credit facility, as subsequently amended, (the "Wells Fargo facility") with Wells Fargo, as successor to Wachovia Bank, National Association, Wells Fargo Securities, LLC, as administrative agent, each of the additional institutional and conduit lenders party thereto from time to time, and each of the lender agents party thereto from time to time.

Effective February 21, 2014, the Company and Funding terminated the Wells Fargo facility. In connection therewith, the Amended and Restated Loan and Servicing Agreement and other related documents governing the Wells Fargo facility were also terminated. As such, the Company has no borrowing capacity under the Wells Fargo facility as of December 31, 2014. Upon termination of the Wells Fargo facility, the Company accelerated the \$0.7 million remaining unamortized fee balance into interest expense.

While in effect, the Wells Fargo facility permitted up to \$150 million of borrowings (subject to collateral requirements) with an accordion feature allowing for future expansion of the facility up to a total of \$250 million, and borrowings under the facility bore interest at a rate equal to LIBOR (1-month) plus 2.50% per annum, with no LIBOR floor. The maturity date of the Wells Fargo facility was April 25, 2016.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

The Wells Fargo facility was secured by all of the assets of Funding, and all of the Company's equity interest in Funding. The Company used the Wells Fargo facility to fund a portion of its loan origination activities and for general corporate purposes. Each loan origination under the facility was subject to the satisfaction of certain conditions. The Company's borrowings under the Wells Fargo facility bore interest at a weighted average interest rate of 2.749% for the three months ended December 31, 2013. For the three months ended December 31, 2013, the Company recorded interest expense of \$0.7 million related to the Wells Fargo facility.

ING Facility

On May 27, 2010, the Company entered into a secured syndicated revolving credit facility (as subsequently amended, the "ING facility") pursuant to a Senior Secured Revolving Credit Agreement ("ING Credit Agreement") with certain lenders party thereto from time to time and ING Capital LLC, as administrative agent. The ING facility allows the Company to request letters of credit from ING Capital LLC, as the issuing bank.

As of December 31, 2014, the ING facility permitted up to \$705 million of borrowings with an accordion feature allowing for future expansion of the facility up to a total of \$800 million, and borrowings under the facility bore interest at a rate equal to LIBOR (1-, 2-, 3- or 6-month, at the Company's option) plus 2.25% per annum, with no LIBOR floor. Unless extended, the period during which the Company may make and reinvest borrowings under the facility will expire on August 6, 2017 and the maturity date of the facility is August 6, 2018.

The ING facility is secured by substantially all of the Company's assets, as well as the assets of the Company's wholly-owned subsidiary, FSFC Holdings, Inc. ("Holdings"), and its indirect wholly-owned subsidiary, Fifth Street Fund of Funds LLC ("Fund of Funds"), subject to certain exclusions for, among other things, equity interests in the Company's SBIC subsidiaries, and equity interests in Funding and Funding II (which is defined and discussed below) as further set forth in a Guarantee, Pledge and Security Agreement ("ING Security Agreement") entered into in connection with the ING Credit Agreement, among FSFC Holdings, Inc., ING Capital LLC, as collateral agent, and the Company. Fifth Street Fund of Funds LLC and FSFC Holdings, Inc. were formed to hold certain of the Company's portfolio companies for tax purposes and have no other operations. None of the Company's SBIC subsidiaries, Funding or Funding II is party to the ING facility and their respective assets have not been pledged in connection therewith. The ING facility provides that the Company may use the proceeds and letters of credit under the facility for general corporate purposes, including acquiring and funding leveraged loans, mezzanine loans, high-yield securities, convertible securities, preferred stock, common stock and other investments.

Pursuant to the ING Security Agreement, Holdings and Fund of Funds guaranteed the obligations under the ING Security Agreement, including the Company's obligations to the lenders and the administrative agent under the ING Credit Agreement. Additionally, the Company pledged its entire equity interest in Holdings and Holdings pledged its entire equity interest in Fund of Funds to the collateral agent pursuant to the terms of the ING Security Agreement.

The ING Credit Agreement and related agreements governing the ING facility required Holdings, Fund of Funds and the Company to, among other things (i) make representations and warranties regarding the collateral as well as each of the Company's businesses, (ii) agree to certain indemnification obligations, and (iii) agree to comply with various affirmative and negative covenants and other customary requirements for similar credit facilities. The ING facility documents also include usual and customary default provisions such as the failure to make timely payments under the facility, the occurrence of a change in control, and the failure by the Company to materially perform under the ING Credit Agreement and related agreements governing the facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting the Company's liquidity, financial condition and results of operations. The Company is currently in compliance with all financial covenants under the ING facility.

Each loan or letter of credit originated under the ING facility is subject to the satisfaction of certain conditions. The Company cannot be assured that it will be able to borrow funds under the ING facility at any particular time or at all.

As of December 31, 2014, the Company had \$582.0 million of borrowings outstanding under the ING facility, which had a fair value of \$582.0 million. The Company's borrowings under the ING facility bore interest at a weighted average interest rate of 2.656% for the three months ended December 31, 2014. For the three months ended December 31, 2014 and December 31, 2013, the Company recorded interest expense of \$2.9 million and \$2.8 million, respectively, related to the ING facility.

Sumitomo Facility

On September 16, 2011, Fifth Street Funding II, LLC, a consolidated wholly-owned bankruptcy remote, special purpose subsidiary ("Funding II"), entered into a Loan and Servicing Agreement ("Sumitomo Agreement") with respect to a seven-year credit facility ("Sumitomo facility") with Sumitomo Mitsui Banking Corporation ("SMBC"), an affiliate of Sumitomo Mitsui Financial Group, Inc., as administrative agent, and each of the lenders from time to time party thereto, in the amount of \$200 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

As of December 31, 2014, the Sumitomo facility permitted up to \$125 million of borrowings (subject to collateral requirements), and borrowings under the facility bore interest at a rate of LIBOR (1-month) plus 2.25% per annum, with no LIBOR floor. Unless extended, the period during which the Company may make and reinvest borrowings under the facility will expire on September 16, 2016 and the maturity date of the facility is September 16, 2020, with an option for a one-year extension.

In connection with the Sumitomo facility, the Company concurrently entered into a Purchase and Sale Agreement with Funding II, pursuant to which it has sold and will continue to sell to Funding II certain loan assets the Company has originated or acquired, or will originate or acquire.

The Sumitomo Agreement and related agreements governing the Sumitomo facility required both Funding II and the Company to, among other things (i) make representations and warranties regarding the collateral as well as each of its businesses, (ii) agree to certain indemnification obligations, and (iii) comply with various covenants, servicing procedures, limitations on acquiring and disposing of assets, reporting requirements and other customary requirements for similar credit facilities, including a prepayment penalty in certain cases. The Sumitomo facility agreements also include usual and customary default provisions such as the failure to make timely payments under the facility, a change in control of Funding II, and the failure by Funding II or the Company to materially perform under the Sumitomo Agreement and related agreements governing the Sumitomo facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting the Company's liquidity, financial condition and results of operations. Funding II was formed for the sole purpose of entering into the Sumitomo facility and has no other operations.

The Sumitomo facility is secured by all of the assets of Funding II. Each loan origination under the facility is subject to the satisfaction of certain conditions. There is no assurance that Funding II will be able to borrow funds under the Sumitomo facility at any particular time or at all. As of December 31, 2014, the Company had \$35.5 million of borrowings outstanding under the Sumitomo facility which had a fair value of \$35.5 million. The Company's borrowings under the Sumitomo facility bore interest at a weighted average interest rate of 2.447% for the three months ended December 31, 2014. For the three months ended December 31, 2014 and December 31, 2013, the Company recorded interest expense of \$0.5 million and \$0.5 million, respectively, related to the Sumitomo facility.

As of December 31, 2014, except for assets that were funded through the Company's SBIC subsidiaries, substantially all of the Company's assets were pledged as collateral under the ING facility or the Sumitomo facility. With respect to the assets funded through the Company's SBIC subsidiaries, the SBA, as a creditor, will have a superior claim to the SBIC subsidiaries' assets over the Company's stockholders.

Total interest expense for the three months ended December 31, 2014 and December 31, 2013 was \$14.0 million and \$10.2 million, respectively.

Note 7. Interest and Dividend Income

Interest income is recorded on an accrual basis to the extent that such amounts are expected to be collected. In accordance with the Company's policy, accrued interest is evaluated periodically for collectability. The Company stops accruing interest on investments when it is determined that interest is no longer collectible. Distributions of income from portfolio companies are recorded as dividend income on the ex-dividend date.

The Company holds debt in its portfolio that contains PIK interest provisions. The PIK interest, which represents contractually deferred interest added to the loan balance that is generally due at the end of the loan term, is generally recorded on the accrual basis to the extent such amounts are expected to be collected. The Company generally ceases accruing PIK interest if there is insufficient value to support the accrual or if the Company does not expect the portfolio company to be able to pay all principal and interest due. The Company's decision to cease accruing PIK interest involves subjective judgments and determinations based on available information about a particular portfolio company, including whether the portfolio company is current with respect to its payment of principal and interest on its loans and debt securities; monthly and quarterly financial statements and financial projections for the portfolio company; the Company's assessment of the portfolio company's business development success, including product development, profitability and the portfolio company's overall adherence to its business plan; information obtained by the Company in connection with periodic formal update interviews with the portfolio company's management and, if appropriate, the private equity sponsor; and information about the general economic and market conditions in which the portfolio company operates. Based on this and other information, the Company determines whether to cease accruing PIK interest on a loan or debt security. The Company's determination to cease accruing PIK interest on a loan or debt security is generally made well before the Company's full write-down of such loan or debt security.

Accumulated PIK interest activity for the three months ended December 31, 2014 and December 31, 2013 was as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Income non-accrual amounts for the year may include amounts for investments that were no longer held at the end of the period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Note 8. Taxable/Distributable Income and Dividend Distributions

Taxable income differs from net increase (decrease) in net assets resulting from operations primarily due to: (1) unrealized appreciation (depreciation) on investments and secured borrowings, as gains and losses are not included in taxable income until they are realized; (2) origination and exit fees received in connection with investments in portfolio companies; (3) organizational and deferred offering costs; (4) recognition of interest income on certain loans; and (5) income or loss recognition on exited investments.

At September 30, 2014, the Company had net loss carryforwards of \$123.4 million to offset net capital gains, to the extent provided by U.S. federal income tax law. Of the capital loss carryforwards, \$1.5 million will expire on September 30, 2017, \$10.3 million will expire on September 30, 2019, and \$111.6 million will not expire, of which \$2.2 million are available to offset future short-term capital gains and \$109.4 million are available to offset future long-term capital gains.

Listed below is a reconciliation of "net decrease in net assets resulting from operations" to taxable income for the three months ended December 31, 2014.

Net decrease in net assets resulting from operations	\$	(30,661)
Net unrealized depreciation on investments and secured borrowings		48,243
Book/tax difference due to loan fees		(556)
Book/tax difference due to exit fees		(429)
Book/tax difference due to organizational and deferred offering costs		(22)
Book/tax difference due to interest income on certain loans		3,421
Book/tax difference due to capital losses not recognized		18,121
Other book-tax differences		(1,445)
Taxable/Distributable Income(1)	\$	36,672

- (1) The Company's taxable income for the three months ended December 31, 2014 is an estimate and will not be finally determined until the Company files its tax return for the fiscal year ended September 30, 2015. Therefore, the final taxable income may be different than the estimate.

As of September 30, 2014, the components of accumulated undistributed income on a tax basis were as follows:

Undistributed ordinary income, net (RIC status)	\$	—
Realized capital losses		(123,407)
Unrealized gains, net		75

The Company uses the asset and liability method to account for its taxable subsidiaries' income taxes. Using this method, the Company recognizes deferred tax assets and liabilities for the estimated future tax effects attributable to temporary differences between financial reporting and tax bases of assets and liabilities. In addition, the Company recognizes deferred tax benefits associated with net operating carry forwards that it may use to offset future tax obligations. The Company measures deferred tax assets and liabilities using the enacted tax rates expected to apply to taxable income in the years in which it expects to recover or settle those temporary differences. The Company has recorded a deferred tax asset for the difference in the book and tax basis of certain equity investments and tax net operating losses held by its taxable subsidiaries of \$8.5 million. However, this amount has been fully offset by a valuation allowance of \$8.5 million, since it is more likely than not that these deferred tax assets will not be realized.

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the "Act") was enacted, which changed various technical rules governing the tax treatment of RICs. The changes are generally effective for taxable years beginning after the date of enactment. Under the Act, the Company is permitted to carry forward any net capital losses, if any, incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment net loss carryforwards may be more likely to expire unused.

Distributions to stockholders are recorded on the record date. The Company is required to distribute annually to its stockholders at least 90% of its net taxable income and net realized short-term capital gains in excess of net realized long-term capital losses for each taxable year in order to be eligible for the tax benefits allowed to a RIC under Subchapter M of the Code. The Company anticipates paying out as a dividend all or substantially all of those amounts. The amount to be paid out as a dividend is determined by the Board of

Directors and is based on management's estimate of the Company's annual taxable income. The Company maintains an "opt out" dividend reinvestment plan for its stockholders.

For U.S. federal income tax purposes, the Company estimates that its distributions for the calendar year 2014 will be composed primarily of ordinary income, and will be reflected as such on the Form 1099-DIV for the calendar year 2014.

As a RIC, the Company is also subject to a U.S. federal excise tax based on distributive requirements of its taxable income on a calendar year basis. The Company did not incur a U.S. federal excise tax for calendar years 2012 and 2013 and does not expect to incur a U.S. federal excise tax for calendar year 2014.

Note 9. Realized Gains or Losses and Net Unrealized Appreciation or Depreciation on Investments and Secured Borrowings

Realized gains or losses are measured by the difference between the net proceeds from the sale or redemption and the cost basis of the investment without regard to unrealized appreciation or depreciation previously recognized, and includes investments written-off during the period, net of recoveries. Realized losses may also be recorded in connection with the Company's determination that certain investments are considered worthless securities and/or meet the conditions for loss recognition per the applicable tax rules.

Net unrealized appreciation or depreciation reflects the net change in the valuation of the portfolio pursuant to the Company's valuation guidelines and the reclassification of any prior period unrealized appreciation or depreciation.

During the three months ended December 31, 2014, the Company recorded investment realization events, including the following:

- In October 2014, the Company restructured its investment in Miche Bag, LLC. As part of the restructuring, the Company exchanged cash and its debt and equity securities for debt and equity securities in the restructured entity, Miche Group, LLC and recorded a realized loss in the amount of \$17.9 million on this transaction;
- In October 2014, the Company received a cash payment of \$74.4 million from Teaching Strategies, LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;

- In December 2013, the Company received a payment of \$7.2 million from Western Emulsions, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on the transaction;
- During the three months ended December 31, 2013, the Company received payments of \$108.9 million in connection with sales of debt investments and recorded a net realized gain of \$0.5 million.

During the three months ended December 31, 2014 and December 31, 2013, the Company recorded net unrealized depreciation on investments of \$48.6 million and \$5.7 million, respectively. For the three months ended December 31, 2014, the Company's net unrealized depreciation consisted of \$57.0 million of net unrealized depreciation on debt investments and \$4.7 million of net unrealized depreciation on equity investments, offset by \$13.1 million of net reclassifications to realized loss on debt and equity investments (resulting in unrealized appreciation). For the three months ended December 31, 2013, the Company's net unrealized depreciation consisted of \$2.7 million of net reclassifications to realized gains (resulting in unrealized depreciation), \$1.8 million of net unrealized depreciation on debt investments and \$1.2 million of net unrealized depreciation on equity investments.

Note 10. Concentration of Credit Risks

The Company places its cash in financial institutions and at times such balances may be in excess of the FDIC insured limit. The Company limits its exposure to credit loss by depositing its cash with high credit quality financial institutions and monitoring their financial stability.

Note 11. Related Party Transactions

The Company has entered into an investment advisory agreement with the Investment Adviser. Under the investment advisory agreement, the Company pays the Investment Adviser a fee for its services consisting of two components — a base management fee and an incentive fee.

Base management Fee

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

The base management fee is calculated at an annual rate of 2% of the Company's gross assets, which includes any borrowings for investment purposes but excludes any cash and cash equivalents held at the end of each quarter. The base management fee is payable quarterly in arrears and the fee for any partial month or quarter is appropriately prorated.

For the three months ended December 31, 2014, the Investment Adviser voluntarily waived a portion of the base management fee which resulted in waivers of \$0.1 million.

For the three months ended December 31, 2014 and December 31, 2013, base management fees (net of waivers) were \$14.0 million and \$12.1 million, respectively. At December 31, 2014, the Company had a liability on its Consolidated Statements of Assets and Liabilities in the amount of \$14.0 million reflecting the unpaid portion of the base management fee payable to the Investment Adviser.

Incentive Fee

The incentive fee portion of the investment advisory agreement has two parts. The first part ("Part I Incentive Fee") is calculated and payable quarterly in arrears based on the Company's "Pre-Incentive Fee Net Investment Income" for the immediately preceding fiscal quarter. For this purpose, "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies) accrued during the fiscal quarter, minus the Company's operating expenses for the quarter (including the base management fee, expenses payable under the Company's administration agreement, and any interest expense and dividends paid on any issued and outstanding indebtedness or preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that the Company has not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of the Company's net assets at the end of the immediately preceding fiscal quarter, will be compared to a "hurdle rate" of 2% per quarter (8% annualized), subject to a "catch-up" provision measured as of the end of each fiscal quarter. The Company's net investment income used to calculate this part of the incentive fee is also included in the amount of its gross assets used to calculate the 2% base management fee. The operation of the incentive fee with respect to the Company's Pre-Incentive Fee Net Investment Income for each quarter is as follows:

- No incentive fee is payable to the Investment Adviser in any fiscal quarter in which the Company's Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 2% (the "preferred return" or "hurdle");
- 100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than or equal to 2.5% in any fiscal quarter (10% annualized) is payable to the Investment Adviser. The Company refers to this portion of its Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than or equal to 2.5%) as the "catch-up." The "catch-up" provision is intended to provide the Investment Adviser with an incentive fee of 20% on all of the Company's Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply when the Company's Pre-Incentive Fee Net Investment Income exceeds 2.5% in any fiscal quarter; and
- 20% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any fiscal quarter (10% annualized) is payable to the Investment Adviser once the hurdle is reached and the catch-up is achieved (20% of all Pre-Incentive Fee Net Investment Income thereafter is allocated to the Investment Adviser).

The second part of the incentive fee ("Part II Incentive Fee") is determined and payable in arrears as of the end of each fiscal year (or upon termination of the investment advisory agreement, as of the termination date) and equals 20% of the Company's realized capital gains, if any, on a cumulative basis from inception through the end of each fiscal year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees.

GAAP requires the Company to accrue for the theoretical capital gains incentive fee that would be payable after giving effect to the net realized and unrealized capital appreciation. It should be noted that a fee so calculated and accrued would not necessarily be payable under the investment advisory agreement, and may never be paid based upon the computation of capital gains incentive fees in subsequent periods. Amounts ultimately paid under the investment advisory agreement will be consistent with the formula reflected in the investment advisory agreement. The Company does not currently accrue for capital gains incentive fees due to the accumulated realized losses in the portfolio.

For the three months ended December 31, 2014 and December 31, 2013, incentive fees were \$8.7 million and \$9.1 million respectively. At December 31, 2014, the Company had a liability on its Consolidated Statements of Assets and Liabilities in the amount of \$8.7 million reflecting the unpaid portion of the incentive fee payable to the Investment Adviser.

Indemnification

The investment advisory agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of their respective duties or by reason of the reckless disregard of their respective duties and obligations, the Company's Investment Adviser and its officers, managers, agents, any employees, controlling persons, members (or their owners) and any other person or entity affiliated with it, are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of the Investment Adviser's services under the investment advisory agreement or otherwise as the Company's Investment Adviser.

Administration Agreement

On January 1, 2014, the Company entered into an administration agreement with a new administrator, FSC CT, Inc., which has since converted into FSC CT LLC ("FSC CT"), a wholly-owned subsidiary of the Company's investment adviser, under substantially similar terms as its prior administration agreement with FSC, Inc. Under the administration agreement with FSC CT, administrative services are provided to the Company, including its principal executive offices and equipment, and clerical, bookkeeping and recordkeeping services at such facilities. Under the administration agreement, FSC CT also performs or oversees the performance of the Company's required administrative services, which includes being responsible for the financial records which the Company is required to maintain and preparing reports to the Company's stockholders and reports filed with the SEC. In addition, FSC CT assists the Company in determining and publishing the Company's net asset value, overseeing the preparation and filing of the Company's tax returns and the printing and dissemination of reports to the Company's stockholders, and generally overseeing the payment of the Company's expenses and the performance of administrative and professional services rendered to the Company by others. For providing these services, facilities and personnel, the Company provides reimbursement for the allocable portion of overhead and other expenses incurred in connection with payments of rent at market rates and the Company's allocable portion of the costs of compensation and related expenses of the Company's chief financial officer and chief compliance officer and their staffs. Such reimbursement is at cost with no profit to, or markup by, FSC CT. FSC CT may also provide, on the Company's behalf, managerial assistance to the Company's portfolio companies. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party.

For the three months ended December 31, 2014, the Company accrued administrative expenses of \$2.5 million, including \$1.3 million of general and administrative expenses, which are due to FSC CT. At December 31, 2014, \$3.6 million was included in Due to FSC CT in the Consolidated Statement of Assets and Liabilities.

Note 13. Convertible Notes

On April 12, 2011, the Company issued \$152.0 million unsecured convertible notes, including \$2 million issued to Leonard M. Tannenbaum, the Company's former Chief Executive Officer. The Convertible Notes were issued pursuant to an Indenture, dated April 12, 2011 (the "Indenture"), between the Company and the Trustee.

The Convertible Notes mature on April 1, 2016 (the "Maturity Date"), unless previously converted or repurchased in accordance with their terms. The Convertible Notes bear interest at a rate of 5.375% per annum payable semiannually in arrears on April 1 and October 1 of each year. The Convertible Notes are the Company's unsecured obligations and rank senior in right of payment to the Company's existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries or financing vehicles.

Prior to the close of business on the business day immediately preceding January 1, 2016, holders may convert their Convertible Notes only under certain circumstances set forth in the Indenture, such as during specified periods when the Company's shares of common stock trade at more than 110% of the then applicable conversion price or the Convertible Notes trade at less than 98% of their conversion value. On or after January 1, 2016 until the close of business on the business day immediately preceding the Maturity Date, holders may convert their Convertible Notes at any time. Upon conversion, the Company will deliver shares of its common stock. The conversion rate was initially, and currently is, 67.7415 shares of common stock per \$1,000 principal amount of Convertible Notes

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

(equivalent to a conversion price of approximately \$14.76 per share of common stock). The conversion rate is subject to customary anti-dilution adjustments, including for any cash dividends or distributions paid on shares of the Company's common stock in excess of a monthly distribution of \$0.1066 per share, but will not be adjusted for any accrued and unpaid interest. In addition, if certain corporate events occur prior to the Maturity Date, the conversion rate will be increased for converting holders. Based on the current conversion rate, the maximum number of shares of common stock that would be issued upon conversion of the \$115 million convertible debt outstanding at December 31, 2014 is 7,790,273. If the Company delivers shares of common stock upon a conversion at the time that net asset value per share exceeds the conversion price in effect at such time, the Company's stockholders may incur dilution. In addition, the Company's stockholders will experience dilution in their ownership percentage of common stock upon the issuance of common stock in connection with the conversion of the Company's convertible notes and any dividends paid on common stock will also be paid on shares issued in connection with such conversion after such issuance. The shares of common stock issued upon a conversion are not subject to registration rights.

The Company may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect of the Company, holders of the Convertible Notes may require the Company to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The Indenture contains certain covenants, including covenants requiring the Company to provide financial information to the holders of the Convertible Notes, and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the Indenture.

For the three months ended December 31, 2014 and December 31, 2013, the Company recorded interest expense of \$1.7 million and \$1.7 million, respectively, related to the Convertible Notes.

The Company may repurchase the Convertible Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any Convertible Notes repurchased by the Company may, at the Company's option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by the Company. Any Convertible Notes surrendered for cancellation will be promptly canceled and no longer outstanding under the Indenture. The Company did not repurchase Convertible Notes during the three months ended December 31, 2014 and December 31, 2013.

Because this net gain was included in the amount that must be distributed to the Company's stockholders in order for it to maintain its RIC status and is classified as a component of net investment income in the Consolidated Statements of Operations, such net gain was included in "Pre-Incentive Fee Net Investment Income" for purposes of the payment of the income incentive fee to the investment adviser under the investment advisory agreement. Paying an incentive fee on this type of net gain is permissible under the Company's investment advisory agreement, but because such a fee was not specifically detailed in the investment advisory agreement, the Company obtained the approval of the Company's Board of Directors to pay such fees. This type of net gain, and corresponding income incentive fee, may occur again in the future. Any repurchase of the 2019 Notes, 2024 Notes or 2028 Notes at a discount will be treated in a similar manner.

As of December 31, 2014, there were \$115.0 million Convertible Notes outstanding, which had a fair value of \$118.9 million.

Note 14. Unsecured Notes*2019 Notes*

On February 26, 2014, the Company issued \$250.0 million in aggregate principal amount of its 4.875% unsecured notes due 2019 (the "2019 Notes") for net proceeds of \$244.4 million after deducting original issue discount of \$1.4 million, underwriting commissions and discounts of \$3.7 million and offering costs of \$0.5 million. The original issue discount on these notes is amortized on a straight-line basis over the term of the notes.

The 2019 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the first supplemental indenture, dated February 26, 2014 (collectively, the "2019 Notes Indenture"), between the Company and the Trustee. The 2019 Notes are the Company's general unsecured obligations that rank senior in right of payment to all of the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 2019 Notes. The 2019 Notes rank equally in right of payment with all of the Company's existing and future liabilities that are not so subordinated. The 2019 Notes effectively rank junior to any of the Company's secured indebtedness (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness. The 2019 Notes rank structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

Interest on the 2019 Notes is paid semi-annually on March 1 and September 1, at a rate of 4.875% per annum. The 2019 Notes mature on March 1, 2019 and may be redeemed in whole or in part at any time or from time to time at the Company's option prior to maturity.

The 2019 Notes Indenture contains certain covenants, including covenants requiring the Company's compliance with (regardless of whether the Company is subject to) the restrictions on dividends, distributions and purchase of capital stock set forth in Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring the Company to provide financial information to the holders of the 2019 Notes and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2019 Notes Indenture. The Company may repurchase the 2019 Notes in accordance with the 1940 Act and the rules promulgated thereunder. In addition, holders of the 2019 Notes can require the Company to repurchase the 2019 Notes at 100% of their principal amount upon the occurrence of certain change of control events as described in the 2019 Notes Indenture. The 2019 Notes are issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. During the three months ended December 31, 2014, the Company did not repurchase any of the 2019 Notes in the open market.

For the three months ended December 31, 2014, the Company recorded interest expense of \$3.5 million related to the 2019 Notes.

As of December 31, 2014, there were \$250.0 million 2019 Notes outstanding, which had a fair value of \$258.2 million.

2024 Notes

On October 18, 2012, the Company issued \$75.0 million in aggregate principal amount of its 5.875% unsecured notes due 2024 (the "2024 Notes") for net proceeds of \$72.5 million after deducting underwriting commissions of \$2.2 million and offering costs of \$0.3 million.

The 2024 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the first supplemental indenture, dated October 18, 2012 (collectively, the "2024 Notes Indenture"), between the Company and the Trustee. The 2024 Notes are the Company's unsecured obligations and rank senior in right of payment to the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 2024 Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries or financing vehicles.

Interest on the 2024 Notes is paid quarterly in arrears on January 30, April 30, July 30 and October 30, at a rate of 5.875% per annum. The 2024 Notes mature on October 30, 2024 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after October 30, 2017. The 2024 Notes are listed on the New York Stock Exchange under the trading symbol "FSCE" with a par value of \$25.00 per share.

The 2024 Notes Indenture contains certain covenants, including covenants requiring the Company's compliance with (regardless of whether the Company is subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act and with the restrictions on dividends, distributions and purchase of capital stock set forth in Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring the Company to provide financial information to the holders of the 2024 Notes and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2024 Notes Indenture. The Company may repurchase the 2024 Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any 2024 Notes repurchased by the Company may, at the Company's option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by the Company. Any 2024 Notes surrendered for cancellation will be promptly canceled and no longer outstanding under the 2024 Notes Indenture. During the years ended September 30, 2014 and 2013, the Company did not repurchase any of the 2024 Notes in the open market.

For the three months ended December 31, 2014 and December 31, 2013, the Company recorded interest expense of \$1.2 million and \$1.2 million, respectively, related to the 2024 Notes.

As of December 31, 2014, there were \$75.0 million 2024 Notes outstanding, which had a fair value of \$74.5 million.

2028 Notes

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts, percentages and as otherwise indicated)

In April and May 2013, the Company issued \$86.3 million in aggregate principal amount of its 6.125% unsecured notes due 2028 (the "2028 Notes") for net proceeds of \$83.4 million after deducting underwriting commissions of \$2.6 million and offering costs of \$0.3 million. The proceeds included the underwriters' full exercise of their overallotment option.

The 2028 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the second supplemental indenture, dated April 4, 2013 (collectively, the "2028 Notes Indenture"), between the Company and the Trustee. The 2028 Notes are the Company's unsecured obligations and rank senior in right of payment to the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 2028 Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness (including existing unsecured indebtedness that it later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries or financing vehicles. Interest on the 2028 Notes is paid quarterly in arrears on January 30, April 30, July 30 and October 30, at a rate of 6.125% per annum. The 2028 Notes mature on April 30, 2028 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after April 30, 2018. The 2028 Notes are listed on the NASDAQ Global Select Market under the trading symbol "FSCFL" with a par value of \$25.00 per share.

The 2028 Notes Indenture contains certain covenants, including covenants requiring the Company's compliance with (regardless of whether it is subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring the Company to provide financial information to the holders of the 2028 Notes and the Trustee if it ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2028 Notes Indenture. The Company may repurchase the 2028 Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any 2028 Notes repurchased by the Company may, at its option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by the Company. Any 2028 Notes surrendered for cancellation will be promptly canceled and no longer outstanding under the 2028 Notes Indenture. During the years ended December 31, 2014 and 2013, the Company did not repurchase any of the 2028 Notes in the open market.

For the three months ended December 31, 2014 and December 31, 2013, the Company recorded interest expense of \$1.4 million and \$1.3 million respectively, related to the 2028 Notes.

As of December 31, 2014, there were \$86.3 million 2028 Notes outstanding, which had a fair value of \$86.0 million.

Note 15. Secured Borrowings

The Company follows the guidance in ASC 860 when accounting for loan participations and other partial loan sales. Such guidance requires a participation or other partial loan sale to meet the definition of a "participating interest," as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest remain on the Company's Consolidated Statement of Assets and Liabilities and the proceeds are recorded as a secured borrowing until the definition is met. Secured borrowings are carried at fair value to correspond with the related investments, which are carried at fair value.

As of December 31, 2014, secured borrowings at fair value totaled \$22.2 million and the fair value of the investments that are associated with these secured borrowings was \$44.2 million. These secured borrowings were the result of the Company's completion of partial loan sales of a senior secured debt investment totaling \$22.8 million during the fiscal year ended September 30, 2014 that did not meet the definition of a participating interest. As a result, sale treatment was not allowed and these partial loan sales were treated as secured borrowings. During the three months ended December 31, 2014, there were \$62.1 million of repayments on secured borrowings.

As of September 30, 2014, secured borrowings at fair value totaled \$84.8 million and the fair value of the investments that are associated with these secured borrowings was \$154.0 million. These secured borrowings were the result of the Company's completion of partial loan sales of two senior secured debt investments totaling \$87.8 million during the year ended September 30, 2014 that did not meet the definition of a participating interest. As a result, sale treatment was not allowed and these partial loan sales were treated as secured borrowings. During the year ended September 30, 2014, there were \$3.0 million of repayments on secured borrowings.

As of December 31, 2014, there were \$22.5 million of secured borrowings outstanding, which had a fair value of \$22.2 million. As of September 30, 2014, there were \$84.8 million of secured borrowings outstanding, which had a fair value of \$84.8 million.

For the three months ended December 31, 2014, the Company recorded interest expense of \$0.5 million related its secured borrowings.

Note 16. Subsequent Events

The Company's management evaluated subsequent events through the date of issuance of these Consolidated Financial Statements and noted that the following event requires disclosure and recognition in the Company's Financial statements as of and for the three months ended December 31, 2014:

During January 2015, one of the Company's portfolio investments disclosed its substantial financial deterioration that occurred prior to the date of these Consolidated Financial Statements. As a result, the Company reflected such information in its valuation of this portfolio investment as of December 31, 2014. As more information becomes available, the Company may experience a further mark-down of the fair value of this investment in the future. The investment may be placed on non-accrual status after the fiscal quarter ended December 31, 2014, as all interest due through that date has been paid to the Company. The investment represents 0.25% of the total portfolio at fair value as of December 31, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in connection with our Consolidated Financial Statements and the notes thereto included elsewhere in this quarterly report on Form 10-Q.

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements because they relate to future events or our future performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q may include statements as to:

- our future operating results and dividend projections;
- our business prospects and the prospects of our portfolio companies;
- the impact of the investments that we expect to make;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital; and
- the timing of cash flows, if any, from the operations of our portfolio companies.

In addition, words such as "anticipate," "believe," "expect," "seek," "plan," "should," "estimate," "project" and "intend" indicate forward-looking statements, although not all forward-looking statements include these words. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth in "Risk Factors" in our annual report on Form 10-K for the year ended September 30, 2014 and elsewhere in this quarterly report on Form 10-Q for the quarter ended December 31, 2014. Other factors that could cause actual results to differ materially include:

- changes in the economy and the financial markets;
- risks associated with possible disruption in our operations or the economy generally due to terrorism or natural disasters;
- future changes in laws or regulations (including the interpretation of these laws and regulations by regulatory authorities) and conditions in our operating areas, particularly with respect to business development companies, SBICs or RICs; and
- other considerations that may be disclosed from time to time in our publicly disseminated documents and filings.

We have based the forward-looking statements included in this quarterly report on Form 10-Q on information available to us on the date of this quarterly report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

Except as otherwise specified, references to the "Company," "we," "us," and "our," refer to Fifth Street Finance Corp.

All amounts are in thousands, except share and per share amounts, percentages and as otherwise indicated.

Overview

We are a specialty finance company that lends to and invests in small and mid-sized companies, primarily in connection with investments by private equity sponsors. Our investment objective is to maximize our portfolio's total return by generating current income from our debt investments and capital appreciation from our equity investments.

We were formed as a Delaware limited partnership (Fifth Street Mezzanine Partners III, L.P.) on February 15, 2007. Effective as of January 2, 2008, Fifth Street Mezzanine Partners III, L.P. merged with and into Fifth Street Finance Corp. At the time of the merger, all outstanding partnership interests in Fifth Street Mezzanine Partners III, L.P. were exchanged for 12,480,972 shares of common stock in Fifth Street Finance Corp.

On June 17, 2008, we completed an initial public offering of 10,000,000 shares of our common stock at the offering price of \$14.12 per share. Our stock was listed on the New York Stock Exchange until November 28, 2011 when we transferred the listing to the NASDAQ Global Select Market, where it continues to trade under the symbol "FSC."

Critical Accounting Policies

Basis of Presentation

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make certain estimates and assumptions affecting amounts reported in the Consolidated Financial Statements. We have identified investment valuation and revenue recognition as our most critical accounting estimates. We continuously evaluate our estimates, including those related to the matters described below. These estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates under different assumptions or conditions. A discussion of our critical accounting policies follows.

Investment Valuation

We are required to report our investments that are not publicly traded or for which current market values are not readily available at fair value. The fair value is deemed to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with authoritative accounting guidance, we perform detailed valuations of our debt and equity investments on an individual basis, using bond yield, market and income approaches as appropriate. In general, we utilize a bond yield method for the majority of our investments, as long as it is appropriate. If, in our judgment, the bond yield approach is not appropriate, we may use the market approach, income approach, or, in certain cases, an alternative methodology potentially including market quotations, asset liquidation model, expected recovery model or other alternative approaches.

Financial instruments with readily available quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment inherent in measuring fair value. As such, our capital markets group obtains and analyzes readily available market quotations provided by independent pricing services for all of our senior secured debt investments for which quotations are available. In determining the fair value of a particular investment, pricing services use observable market information, including both binding and non-binding indicative quotations. These investments are generally classified as Level 3 because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities or may require adjustment for investment-specific factors or restrictions.

We evaluate the prices obtained from independent pricing services based on available market information and company specific data that could affect the credit quality and/or fair value of the investment. We do not adjust any of the prices received from these sources unless we have a reason to believe any such market quotations are not reflective of the fair value of an investment.

Market quotations may be deemed not to represent fair value where we believe that facts and circumstances applicable to an issuer, a seller or purchaser or the market for a particular security causes current market quotations not to reflect the fair value of the security, among other reasons. Examples of these events could include cases when a security trades infrequently causing a quoted purchase or sale price to become stale or in the event of a "fire sale" by a distressed seller. In these instances, we value such investments by using the valuation procedure that we use with respect to assets for which market quotations are not readily available (as discussed below).

If the quotation provided by the pricing service is based on only one or two market sources, we perform additional procedures to corroborate such information, generally including but not limited to, the bond yield approach discussed below and a quantitative and qualitative assessment of the credit quality and market trends affecting the portfolio company.

Under the bond yield approach, we use bond yield models to determine the present value of the future cash flow streams of our debt investments. We review various sources of transactional data, including private mergers and acquisitions involving debt investments with similar characteristics, and assess the information in the valuation process.

Under the market approach, we estimate the enterprise value of the portfolio companies in which we invest. There is no one methodology to estimate enterprise value and, in fact, for any one portfolio company, enterprise value is best expressed as a range of fair values from which we derive a single estimate of enterprise value. To estimate the enterprise value of a portfolio company, we analyze various factors, including the portfolio company's historical and projected financial results. Typically, private companies are valued based on multiples of EBITDA (earnings before interest, taxes, depreciation and amortization), cash flows, net income or revenues. We generally require portfolio companies to provide annual audited and quarterly or monthly unaudited financial statements, as well as annual projections for the upcoming fiscal year.

Under the income approach, we generally prepare and analyze discounted cash flow models based on our projections of the future free cash flows of the business.

We estimate the fair value of privately held warrants using a Black Scholes pricing model. At each reporting date, privately held warrants are valued based on an analysis of various factors and subjective assumptions including, but not limited to, the current stock

price (by analyzing the portfolio company's operating performance and financial condition and general market conditions), the expected period until exercise, expected volatility of the underlying stock price, expected dividends, and the risk free rate. Changes in the subjective input assumptions can materially affect the fair value estimates.

Our Board of Directors undertakes a multi-step valuation process each quarter in connection with determining the fair value of our investments:

- The quarterly valuation process begins with each portfolio company or investment being initially valued by our finance department;
- Preliminary valuations are then reviewed and discussed with principals of the investment adviser;
- Separately, independent valuation firms are engaged by our Board of Directors to prepare preliminary valuations on a selected basis and submit the reports to us;
- Our finance department compares and contrasts its preliminary valuations to the preliminary valuations of the independent valuation firms;
- Our finance department prepares a valuation report for the Audit Committee of our Board of Directors;
- The Audit Committee of our Board of Directors is apprised of the preliminary valuations of the independent valuation firms;
- The Audit Committee of our Board of Directors reviews the preliminary valuations with the portfolio managers of the investment adviser, and our finance department responds and supplements the preliminary valuations to reflect any comments provided by the Audit Committee;
- The Audit Committee of our Board of Directors makes a recommendation to the Board of Directors regarding the fair value of the investments in our portfolio; and
- Our Board of Directors discusses the valuations and determines the fair value of each investment in our portfolio in good faith.

The fair value of all of our investments at December 31, 2014, and September 30, 2014, was determined by our Board of Directors. Our Board of Directors has authorized the engagement of independent valuation firms to provide us with valuation assistance. We will continue to engage independent valuation firms to provide us with assistance regarding our determination of the fair value of selected portfolio securities for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment each quarter; however, our Board of Directors is ultimately and solely responsible for the valuation of our portfolio investments at fair value as determined in good faith pursuant to our valuation policy and a consistently applied valuation process.

In certain cases, an independent valuation firm may perform a portfolio company valuation which is reviewed and, where appropriate, relied upon by our Board of Directors in determining the fair value of such investment.

The percentages of our portfolio, at fair value, valued by independent valuation firms each period during the current and two preceding fiscal years were as follows:

For the quarter ended December 31, 2012	79.5%
For the quarter ended March 31, 2013	73.8%
For the quarter ended June 30, 2013	76.4%

For the quarter ended December 31, 2014	78.5%

As of December 31, 2014 and September 30, 2014, approximately 92.3% and 93.5%, respectively, of our total assets represented investments in portfolio companies valued at fair value.

Revenue Recognition

Interest and Dividend Income

Interest income, adjusted for accretion of original issue discount, or OID, is recorded on the accrual basis to the extent that such amounts are expected to be collected. We stop accruing interest on investments when it is determined that interest is no longer collectible. Distributions of income from portfolio companies are generally recorded as dividend income on the ex-dividend date.

Fee Income

We receive a variety of fees in the ordinary course of business including servicing, advisory, structuring and prepayment fees, which are classified as fee income and recognized as they are earned.

We have also structured exit fees across certain of our portfolio investments to be received upon the future exit of those investments. Exit fees are payable upon the exit of a debt security. These fees are to be paid to us upon the sooner to occur of (i) a sale of the borrower or substantially all of the assets of the borrower, (ii) the maturity date of the loan or (iii) the date when full prepayment of the loan occurs. The receipt of such fees is contingent upon the occurrence of one of the events listed above for each of the investments. A percentage of these fees is included in net investment income over the life of the loan. As of December 31, 2014, we had structured \$2.5 million in aggregate exit fees across three portfolio investments upon the future exit of those investments.

Payment-in-Kind (PIK) Interest

Our loans typically contain contractual PIK interest provisions. The PIK interest, which represents contractually deferred interest added to the loan balance that is generally due at the end of the loan term, is generally recorded on the accrual basis to the extent such amounts are expected to be collected. We generally cease accruing PIK interest if there is insufficient value to support the accrual or if we do not expect the portfolio company to be able to pay all principal and interest due. Our decision to cease accruing PIK interest involves subjective judgments and determinations based on available information about a particular portfolio company, including whether the portfolio company is current with respect to its payment of principal and interest on its loans and debt securities; monthly and quarterly financial statements and financial projections for the portfolio company; our assessment of the portfolio company's business development success, including product development, profitability and the portfolio company's overall adherence to its business plan; information obtained by us in connection with periodic formal update interviews with the portfolio company's management and, if appropriate, the private equity sponsor; and information about the general economic and market conditions in which the portfolio company operates. Based on this and other information, we determine whether to cease accruing PIK interest on a loan or debt security when it is determined that PIK interest is no longer collectible. Our determination to cease accruing PIK interest on a loan or debt security is generally made well before our full write-down of such loan or debt security. In addition, if it is subsequently determined that we will not be able to collect any previously accrued PIK interest, the fair value of our loans or debt securities would decline by the amount of such previously accrued, but uncollectible, PIK interest.

For a discussion of risks we are subject to as a result of our use of PIK interest in connection with our investments, see "Risk Factors — Risks Relating to Our Business and Structure — We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income," "— We may in the future choose to pay dividends in our own stock, in which case you may be required to pay tax in excess of the cash you receive" and "— Our incentive fee may induce our investment adviser to make speculative investments" in our annual report on Form 10-K for the year ended September 30, 2014. In addition, if it is subsequently determined that we will not be able to collect any previously accrued PIK interest, the fair value of our loans or debt securities would decline by the amount of such previously accrued, but uncollectible, PIK interest. The accrual of PIK interest on our debt investments increases the recorded cost basis of these investments in our Consolidated Financial Statements and, as a result, increases the cost basis of these investments for purposes of computing the capital gains incentive fee payable by us to our Investment Adviser.

To maintain our status as a RIC, PIK income must be paid out to our stockholders as distributions, even though we have not yet collected the cash and may never collect the cash relating to the PIK interest. Accumulated PIK interest was \$43.4 million, or 1.6% of the fair value of our portfolio of investments as of December 31, 2014 and \$39.7 million or 1.6% as of September 30, 2014. The net increases in loan balances as a result of contractual PIK arrangements are separately identified in our Consolidated Statements of Cash Flows.

Portfolio Composition

Our investments principally consist of loans, purchased equity investments and equity grants in privately-held companies. Our loans are typically secured by a first, second or subordinated lien on the assets of the portfolio company and generally have terms of up to six years (but an expected average life of between three and four years). We are currently focusing our origination efforts on a prudent mix of senior secured and subordinated loans which we believe will provide superior risk-adjusted returns while maintaining adequate credit protection. The mix may change over time based on market conditions and management's view of where the best risk-adjusted returns are available.

Portfolio Asset Quality

We employ a ranking system to assess and monitor the credit risk of our investment portfolio. We rank all investments on a scale from 1 to 4. The system is intended to reflect the performance of the borrower's business, the collateral coverage of the loan, and other factors considered relevant to making a credit judgment. We have determined that there should be an individual ranking assigned to each tranche of securities in the same portfolio company where appropriate. This may arise when the perceived risk of loss on the investment varies significantly between tranches due to their respective seniority in the capital structure.

- Investment Ranking 1 is used for investments that are performing above expectations and/or capital gains are expected.

- Investment Ranking 2 is used for investments that are performing substantially within our expectations, and whose risks remain materially consistent with the potential risks at the time of the original or restructured investment. All new investments are initially ranked 2.
- Investment Ranking 3 is used for investments that are performing below our expectations and for which risk has materially increased since the original or restructured investment. The portfolio company may be out of compliance with debt covenants and may require closer monitoring. To the extent that the underlying agreement has a PIK interest provision, investments with a ranking of 3 are generally those on which we are not accruing PIK interest.
- Investment Ranking 4 is used for investments that are performing substantially below our expectations and for which risk has increased substantially since the original or restructured investment. Investments with a ranking of 4 are those for which some loss of principal is expected and are generally those on which we are not accruing cash interest.

The following table shows the distribution of our investments on the 1 to 4 investment ranking scale at fair value as of December 31, 2014 and September 30, 2014:

Investment Ranking	December 31, 2014			September 30, 2014		
	Fair Value	% of Portfolio	Leverage Ratio	Fair Value	% of Portfolio	Leverage Ratio
1	\$ 29,463	1.08%	0.81	\$ 65,268	2.61%	1.94
2	2,625,449	96.47	4.71	2,424,290	97.14	4.84

4	—	—	—	6,356	0.25	NM (1)
Total	\$ 2,721,595	100.00%	4.77	\$ 2,495,914	100.00%	4.75

(1) Due to operating performance this ratio is not measurable and, as a result, is excluded from the total portfolio calculation.

We may from time to time modify the payment terms of our investments, either in response to current economic conditions and their impact on certain of our portfolio companies or in accordance with tier pricing provisions in certain loan agreements. As of December 31, 2014, we had modified the payment terms of our investments in 15 portfolio companies. Such modified terms may include increased PIK interest provisions and reduced cash interest rates. These modifications, and any future modifications to our loan agreements, may limit the amount of interest income that we recognize from the modified investments, which may, in turn, limit our ability to make distributions to our stockholders.

Loans and Debt Securities on Non-Accrual Status

As of December 31, 2014, there were four investments on which we had stopped accruing cash and/or PIK interest and OID income. As of September 30, 2014, there was one investment on which we had stopped accruing cash interest, PIK interest or OID income. As of December 31, 2013, there were no investments on which we had stopped accruing cash and/or PIK interest and OID income.

The percentages of our debt investments at cost and fair value by accrual status for the years ended December 31, 2014, September 30, 2014 and December 31, 2013 were as follows:

Senior Loan Fund JV I, LLC

In May, 2014, we entered into an LLC agreement with Trinity Universal Insurance Company, a subsidiary of Kemper to form SLF JV I. On July 1, 2014, SLF JV I began investing in senior secured loans of middle market companies and other corporate debt securities. We co-invest in these securities with Kemper through our investment in SLF JV I. SLF JV I is managed by a four person Board of Directors, two of whom are selected by us and two of whom are selected by Kemper. SLF JV I is capitalized pro rata with subordinated notes and LLC equity interests as transactions are completed. All portfolio decisions and investment decisions in respect of SLF JV I must be approved by the SLF JV I investment committee, which consists of one representative from us and one representative of Kemper (with approval from a representative of each required). We and Kemper provide capital to SLF JV I in the form of subordinated notes and LLC equity interests. As of December 31, 2014 and September 30, 2014, we and Kemper owned, in the aggregate, 87.5% and 12.5%, respectively, of each of the outstanding subordinated notes and LLC equity interests.

We have determined that SLF JV I is an investment company under ASC 946, however, in accordance with such guidance, we will generally not consolidate our investment in a company other than a wholly owned investment company subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, we do not consolidate our noncontrolling interest in SLF JV I.

As of December 31, 2014 and September 30, 2014, SLF JV I had total assets of \$265.0 million and \$186.0 million, respectively. Our investment in SLF JV I consisted of LLC equity interests of \$4.8 million and subordinated notes of \$61.8 million, at fair value as of December 31, 2014. As of September 30, 2014, our investment consisted of LLC equity interests of \$5.6 million and subordinated notes of \$54.0 million, at fair value. The subordinated notes are junior in right of payment to the repayment of temporary contributions made by us to fund investments of SLF JV I. SLF JV I's portfolio consisted of middle-market and other corporate debt securities of 21 and 18 "eligible portfolio companies" (as defined in the Section 2(a)(46) of the 1940 Act) as of December 31, 2014 and September 30, 2014, respectively. As of December 31, 2014, the largest investment in a single company in SLF JV I's portfolio in aggregate principal amount was \$20.0 million, and the five largest investments in portfolio companies in SLF JV I totaled \$75.0 million in aggregate principal amount. As of September 30, 2014, the largest investment in a single company in SLF JV I's portfolio in aggregate principal amount was \$20.0 million, and the five largest investments in portfolio companies in SLF JV I totaled \$60.0 million in aggregate principal amount. The portfolio companies in SLF JV I are in industries similar to those in which we may invest directly.

As of December 31, 2014 and September 30, 2014, SLF JV I had total capital commitments of \$200.0 million, \$175.0 million of which was from us and the remaining \$25.0 million from Kemper. Approximately \$78.4 million and \$68.6 million, respectively, was funded as of December 31, 2014 and September 30, 2014 relating to these commitments, of which \$68.6 million and \$60.0 million,

respectively, was from us. Additionally, SLF JV I had a senior revolving credit facility with Deutsche Bank AG, New York Branch ("Deutsche Bank facility") with a stated maturity date of July 1, 2019, which permitted up to \$200.0 million of borrowings as of December 31, 2014 and September 30, 2014. As of December 31, 2014 and September 30, 2014, we had commitments to fund subordinated notes to SLF JV I of \$157.5 million, of which \$95.8 million and \$103.5 million was unfunded, respectively. The subordinated notes mature on May 2, 2019. As of December 31, 2014 and September 30, 2014, we had commitments to fund LLC equity interests in SLF JV I of \$17.5 million, of which \$10.6 million and \$11.5 million was unfunded, respectively. Under the Deutsche Bank facility, \$130.0 million and \$109.3 million was outstanding as of December 31, 2014 and September 30, 2014, respectively.

Below is a summary of SLF JV I's portfolio, followed by a listing of the individual loans in SLF JV I's portfolio as of December 31, 2014 and September 30, 2014:

	December 31, 2014	September 30, 2014

(1) Represents the current interest rate as of September 30, 2014. All interest rates are payable in cash, unless otherwise noted.

(2) Represents the fair value determined utilizing a similar process as us in accordance with ASC 820. However, the determination of such fair value is not included in our Board of Directors' valuation process described elsewhere herein.

The amortized cost and fair value of the subordinated notes held by us was \$61.7 million and \$61.8 million, respectively as of December 31, 2014 and \$54.0 million at both cost and fair value as of September 30, 2014. The subordinated notes bear interest at a rate of LIBOR plus 8.0% and we earned interest income of \$1.2 million on its investments in these notes for the three months ended December 31, 2014. The cost and fair value of the LLC equity interests held by us was \$6.9 million and \$4.8 million, respectively, as of December 31, 2014, and \$6.0 million and \$5.6 million, respectively, as of September 30, 2014. We earned dividend income of \$1.1 million for the three months ended December 31, 2014 with respect to its LLC equity interests. The LLC equity interest are dividend producing to the extent there is residual income to be distributed on a quarterly basis.

SLF JV I has elected to fair value the subordinated notes issued to us and Kemper under ASC 825 — *Financial Instruments*, or ASC 825. The subordinated notes are valued by calculating the net present value of the future expected cash flow streams using an appropriate risk-adjusted discount rate model.

During the three months ended December 31, 2014, we sold \$89.8 million of senior secured debt investments (\$54.9 million of which was unsettled at December 31, 2014) and paid \$10.0 million of receivables from secured financing arrangements from SLF JV I at fair value in exchange for \$99.8 million cash consideration. We recognized \$0.05 million realized loss on these transactions.

Discussion and Analysis of Results and Operations

Results of Operations

The principal measure of our financial performance is the net increase (decrease) in net assets resulting from operations, which includes net investment income (loss), net realized gain (loss) and net unrealized appreciation (depreciation). Net investment income is the difference between our income from interest, dividends, fees, and other investment income and total expenses. Net realized gain (loss) on investments and secured borrowings is the difference between the proceeds received from dispositions of portfolio investments and their stated costs. Net unrealized appreciation (depreciation) is the net change in the fair value of our investment portfolio and secured borrowings.

Comparison of three months ended December 31, 2014 and December 31, 2013

Total Investment Income

Total investment income includes interest income on our investments, fee income and other investment income. Fee income consists principally of loan and arrangement fees, administrative fees, unused fees, amendment fees, advisory fees, structuring fees, exit fees, prepayment fees and waiver fees. Other investment income consists primarily of dividend income received from certain of our equity investments.

Total investment income for the three months ended December 31, 2014 and December 31, 2013 was \$76.3 million and \$71.3 million, respectively. For the three months ended December 31, 2014, this amount primarily consisted of \$56.9 million of interest income from portfolio investments (which included \$4.4 million of PIK interest) and \$17.9 million of fee income. For the three months ended December 31, 2013, this amount primarily consisted of \$54.1 million of interest income from portfolio investments (which included \$5.6 million of PIK interest) and \$17.1 million of fee income.

The increase in our total investment income for the three months ended December 31, 2014 as compared to the three months ended December 31, 2013 was primarily attributable to higher average levels of outstanding debt investments, which was principally due to a net increase of 25 debt investments in our portfolio and fees related to investment activity, partially offset by amortization repayments received on our debt investments.

Expenses

Net expenses for the three months ended December 31, 2014 and December 31, 2013 were \$41.1 million and \$35.1 million, respectively. Net expenses increased for the three months ended December 31, 2014 as compared to the three months ended December 31, 2013 by \$6.0 million. This was due primarily to changes in:

- Base management fees (net of waivers), which was primarily attributable to a 14.5% increase in the fair value of the investment portfolio due to an increase in net investment fundings in the year-over-year period; and
- Interest expense, which was attributable to a 42.5% increase in weighted average debt outstanding for the year-over-year period.

Net Investment Income

As a result of the \$5.0 million increase in total investment income and the \$6.0 million increase in net expenses, net investment income for the three months ended December 31, 2014 reflected a \$1.0 million, or 2.9%, decrease compared to the quarter ended December 31, 2013.

Realized Gain (Loss) on Investments and Secured Borrowings

Realized gain (loss) is the difference between the proceeds received from dispositions of portfolio investments and their stated costs. Realized losses may also be recorded in connection with our determination that certain investments are considered worthless securities and/or meet the conditions for loss recognition per the applicable tax rules.

During the three months ended December 31, 2014, we recorded investment realization events, including the following:

- In October 2014, we restructured our investment in Miche Bag, LLC. As part of the restructuring, we exchanged cash and our debt and equity securities for debt and equity securities in the restructured entity, Miche Group, LLC and recorded a realized loss in the amount of \$17.9 million on this transaction;
- In October 2014, we received a cash payment of \$74.4 million from Teaching Strategies, LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In October 2014, we received a cash payment of \$6.5 million from SugarSync, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction;
- In November 2014, we received a cash payment of \$8.6 million from Olson + Co., Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In November 2014, we received a cash payment of \$5.6 million from American Cadastre, LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In December 2014, we received a cash payment of \$35.8 million from Drugtest, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In December 2014, we received a cash payment of \$39.5 million from Charter Brokerage, LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction;

- In December 2014, we received a cash payment of \$27.7 million from CRGT, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction;
- In December 2014, we received a cash payment of \$12.5 million from Devicor Medical Products, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on this transaction;
- In December 2014, we received a cash payment of \$12.0 million from CT Technologies Intermediate Holdings, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on this transaction; and
- During the three months ended December 31, 2014, we received payments of \$178.7 million in connection with syndications of debt investments to other investors, sales of debt investments and repayment of secured borrowings and recorded a net realized gain of \$0.3 million on these transactions.

During the three months ended December 31, 2013, we recorded investment realization events, including the following:

- In October and December 2013, we received payments of \$3.2 million from Stackpole Powertrain International Holding, L.P. related to the sale of our equity investment. A realized gain of \$2.2 million was recorded on this transaction;
- In October 2013, we received a payment of \$8.9 million from Harden Healthcare, LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on the transaction;
- In October 2013, we received a payment of \$4.0 million from Capital Equipment Group, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par and no realized gain or loss was recorded on the transaction. We also received an additional \$0.9 million in connection with the sale of our common equity investment, realizing a gain of \$0.6 million;
- In November 2013, we received a payment of \$10.0 million from IG Investments Holdings, LLC in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on the transaction;
- In November 2013, we received a payment of \$15.7 million from CTM Group, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on the transaction;
- In December 2013, we received a payment of \$0.4 million in connection with the exit of our debt investment in Saddleback Fence and Vinyl Products, Inc. A realized loss of \$0.3 million was recorded on this transaction;
- In December 2013, we received a payment of \$7.2 million from Western Emulsions, Inc. in full satisfaction of all obligations under the loan agreement. The debt investment was exited at par (plus additional fees) and no realized gain or loss was recorded on the transaction; and
- During the three months ended December 31, 2013, we received payments of \$108.9 million in connection with sales of debt investments and recorded a net realized gain of \$0.5 million.

Net Unrealized Appreciation (Depreciation) on Investments and Secured Borrowings

Net unrealized appreciation or depreciation is the net change in the fair value of our investments during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

During the three months ended December 31, 2014, we recorded net unrealized depreciation on investments of \$48.6 million. This consisted of \$57.0 million of net unrealized depreciation on debt investments and \$4.7 million of net unrealized depreciation on equity investments, offset by \$13.1 million of net reclassifications to realized losses on debt and equity investments (resulting in unrealized appreciation). During the three months ended December 31, 2013, we recorded net unrealized depreciation of \$5.7 million. This consisted of \$2.7 million of net reclassifications to realized gains (resulting in unrealized depreciation), \$1.8 million of net unrealized depreciation on debt investments and \$1.2 million of net unrealized depreciation on equity investments.

Financial Condition, Liquidity and Capital Resources

Cash Flows

We have a number of alternatives available to fund the growth of our investment portfolio and our operations, including, but not limited to, raising equity, increasing debt and funding from operational cash flow. Additionally, we may reduce investment size by syndicating a portion of any given transaction. We intend to fund our future distribution obligations through operating cash flow or with funds obtained through future equity and debt offerings or credit facilities, as we deem appropriate.

For the three months ended December 31, 2014, we experienced a net decrease in cash and cash equivalents of \$22.5 million. During that period, we used \$218.3 million of cash in operating activities, primarily for the funding of \$722.3 million of investments and net revolvers, partially offset by \$435.6 million of principal payments, PIK payments and sale proceeds received and \$35.2 million of net investment income. During the same period, cash provided by financing activities was \$195.8 million, primarily consisting of \$300.1 million of net borrowings under our credit facilities, partially offset by \$40.1 million of cash distributions paid and \$62.1 million of repayments of secured borrowings.

For the three months ended December 31, 2013, we experienced a net decrease in cash and cash equivalents of \$104.8 million. During that period, we used \$475.4 million of cash in operating activities, primarily for the funding of \$650.1 million of investments and net revolvers, partially offset by \$169.9 million of principal payments, PIK payments and sale proceeds received and \$36.2 million of net investment income. During the same period, cash provided by financing activities was \$370.7 million, primarily consisting of \$29.0 million of net borrowings of SBA debentures and \$376.2 million of net borrowings under our credit facilities, partially offset by \$30.2 million of cash distributions paid and \$1.4 million of deferred financing costs paid.

As of December 31, 2014, we had \$110.6 million in cash and cash equivalents (including restricted cash), portfolio investments (at fair value) of \$2.7 billion, \$15.2 million of interest, dividends and fees receivable, \$225.0 million of SBA debentures payable, \$617.5 million of borrowings outstanding under our credit facilities, \$115.0 million of unsecured convertible notes payable, \$410.1 million of unsecured notes payable, \$22.2 million of secured borrowings and unfunded commitments of \$350.8 million.

As of September 30, 2014, we had \$109.0 million in cash and cash equivalents (including restricted cash), portfolio investments (at fair value) of \$2.5 billion, \$15.2 million of interest, dividends and fees receivable, \$225.0 million of SBA debentures payable, \$317.4 million of borrowings outstanding under our credit facilities, \$115.0 million of unsecured convertible notes payable, \$409.9 million of unsecured notes payable, \$84.8 million of secured borrowings and unfunded commitments of \$325.0 million.

Other Sources of Liquidity

We intend to continue to generate cash primarily from cash flows from operations, including interest earned, future borrowings and future offerings of securities. We generally maintain a universal shelf registration statement that allows for the public offering and sale of our common stock, debt securities and warrants to purchase such securities. We may from time to time issue securities pursuant to the shelf registration statement or otherwise pursuant to private offerings. The issuance of debt or equity securities will depend on future market conditions, funding needs and other factors and there can be no assurance that any such issuance will occur or be successful. In the future, we may also securitize a portion of our investments in first and second lien senior loans or unsecured debt or other assets. To securitize loans, we would likely create a wholly-owned subsidiary and contribute a pool of loans to the subsidiary. We would then sell interests in the subsidiary on a non-recourse basis to purchasers and we would retain all or a portion of the equity in the subsidiary. Our primary use of funds is investments in our targeted asset classes and cash distributions to holders of our common stock.

Although we expect to fund the growth of our investment portfolio through the net proceeds from future equity offerings and issuances of senior securities or future borrowings to the extent permitted by the 1940 Act, our plans to raise capital may not be successful. In this regard, because our common stock has at times traded at a price below our then-current net asset value per share and we are limited in our ability to sell our common stock at a price below net asset value per share, we may be limited in our ability to raise equity capital.

In addition, we intend to distribute between 90% and 100% of our taxable income to our stockholders in order to satisfy the requirements applicable to RICs under Subchapter M of the Code. See "Regulated Investment Company Status and Distributions" below. Consequently, we may not have the funds or the ability to fund new investments, to make additional investments in our portfolio companies, to fund our unfunded commitments to portfolio companies or to repay borrowings. In addition, the illiquidity of our portfolio investments may make it difficult for us to sell these investments when desired and, if we are required to sell these investments, we may realize significantly less than their recorded value.

As a business development company, under the 1940 Act, we generally are not permitted to incur indebtedness unless immediately after such borrowing we have an asset coverage for total borrowings of at least 200% (i.e., the amount of debt may not exceed 50% of the value of our assets). This requirement limits the amount that we may borrow. As of December 31, 2014, we were in compliance with this requirement. The amount of leverage that we employ will depend on our assessment of market conditions and other factors at the time of any proposed borrowing, such as the maturity, covenant package and rate structure of the proposed borrowings, our ability to raise funds through the issuance of shares of our common stock and the risks of such borrowings within the context of our investment outlook. Ultimately, we only intend to use leverage if the expected returns from borrowing to make

investments will exceed the cost of such borrowing. To fund growth in our investment portfolio in the future, we anticipate needing to raise additional capital from various sources, including the equity markets and the securitization or other debt-related markets, which may or may not be available on favorable terms, if at all.

On August 22, 2014, we entered into an at-the-market offering ("ATM Program") with KeyBanc Capital Markets Inc. through which we may sell, from time to time at our sole discretion, up to \$100,000,000 of our common stock. Since the inception of the ATM Program, we sold 841,456 shares of our common stock at an average price of \$9.86 per share, and raised \$8.3 million of net proceeds, under the ATM Program. Commissions to the broker-dealer on shares sold and offering costs were approximately \$0.1 million. There were no issuances under the ATM Program for the three months ended December 31, 2014.

Borrowings

SBIC Subsidiaries

Through wholly-owned subsidiaries, we sought and obtained two licenses from the SBA to operate SBIC subsidiaries. Specifically, on February 3, 2010, our wholly-owned subsidiary, Fifth Street Mezzanine Partners IV, L.P. ("FSMP IV"), received a license, effective February 1, 2010, from the SBA to operate as an SBIC under Section 301(c) of the Small Business Investment Act of 1958. On May 15, 2012, our wholly-owned subsidiary, Fifth Street Mezzanine Partners V, L.P. ("FSMP V"), received a license, effective May 10, 2012, from the SBA to operate as an SBIC. SBICs are designated to stimulate the flow of private equity capital to eligible small businesses. Under SBA regulations, SBICs may make loans to eligible small businesses and invest in the equity securities of small businesses.

The SBIC licenses allow our SBIC subsidiaries to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a 10-year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with ten-year maturities.

SBA regulations currently limit the amount that an SBIC subsidiary may borrow to a maximum of \$150 million when it has at least \$75 million in regulatory capital. Affiliated SBICs are permitted to issue up to a combined maximum amount of \$225 million when they have at least \$112.5 million in regulatory capital.

As of December 31, 2014, FSMP IV had \$75 million in regulatory capital and \$150 million in SBA-guaranteed debentures outstanding, which had a fair value of \$137.0 million, as compared to \$134.0 million as of September 30, 2014. These debentures bear interest at a weighted average interest rate of 3.567% (excluding the SBA annual charge), as follows:

Rate Fix Date	Debt Amount	Fixed Interest Rate	SBA Annual Charge
September 2010	\$ 73,000	3.215 %	0.285 %
March 2011	65,300	4.084	0.285
September 2011	11,700	2.877	0.285

As of December 31, 2014, FSMP V had \$37.5 million in regulatory capital and \$75.0 million in SBA-guaranteed debentures outstanding, which had a fair value of \$64.7 million. These debentures bear interest at a weighted average interest rate of 2.835% (excluding the SBA annual charge), as follows:

Rate Fix Date	Debt Amount	Fixed Interest Rate	SBA Annual Charge
March 2013	\$ 31,750	2.351%	0.804%
March 2014	43,250	3.191	0.804

As a result, the \$225.0 million of SBA-guaranteed debentures held by our SBIC subsidiaries carry a weighted average interest rate of 3.323% as of December 31, 2014.

For the three months ended December 31, 2014 and December 31, 2013, we recorded interest expense of \$2.4 million and \$1.9 million, respectively, related to the SBA-guaranteed debentures of both SBIC subsidiaries.

We have received exemptive relief from the SEC to permit us to exclude the debt of our SBIC subsidiaries guaranteed by the SBA from the definition of senior securities in the 200% asset coverage test under the 1940 Act. This allows us increased flexibility under the 200% asset coverage test by permitting us to borrow up to \$225 million more than we would otherwise be able to absent the receipt of this exemptive relief.

Wells Fargo Facility

On November 16, 2009, we and Fifth Street Funding, LLC, a consolidated wholly-owned bankruptcy remote special purpose subsidiary ("Funding"), entered into a Loan and Servicing Agreement ("Wells Agreement") with respect to a revolving credit facility (as subsequently amended, the "Wells Fargo facility") with Wells Fargo Bank, National Association ("Wells Fargo"), as successor to Wachovia Bank, National Association ("Wachovia"), Wells Fargo Securities, LLC, as administrative agent, each of the additional institutional and conduit lenders party thereto from time to time, and each of the lender agents party thereto from time to time.

Effective February 21, 2014, we, together with Funding, terminated the Wells Fargo facility. In connection therewith, the Amended and Restated Loan and Servicing Agreement and other related documents governing the Wells Fargo facility were also terminated. As such, we have no borrowing capacity under the Wells Fargo facility as of December 31, 2014. Upon termination of the Wells Fargo facility, we accelerated the \$0.7 million remaining unamortized fee balance into interest expense.

While in effect, the Wells Fargo facility permitted up to \$150 million of borrowings (subject to collateral requirements) with an accordion feature allowing for future expansion of the facility up to a total of \$250 million, and borrowings under the facility bore interest at a rate equal to LIBOR (1-month) plus 2.50% per annum, with no LIBOR floor. The maturity date of the Wells Fargo facility was April 25, 2016.

The Wells Fargo facility was secured by all of the assets of Funding, and all of our equity interest in Funding. We used the Wells Fargo facility to fund a portion of our loan origination activities and for general corporate purposes. Each loan origination under the facility was subject to the satisfaction of certain conditions. Our borrowings under the Wells Fargo facility bore interest at a weighted average interest rate of 2.749% for the three months ended December 31, 2013. For the three months ended December 31, 2013, we recorded interest expense of \$0.7 million related to the Wells Fargo facility.

ING Facility

On May 27, 2010, we entered into a secured syndicated revolving credit facility (as subsequently amended, the "ING facility") pursuant to a Senior Secured Revolving Credit Agreement ("ING Credit Agreement") with certain lenders party thereto from time to time and ING Capital LLC, as administrative agent. The ING facility allows us to request letters of credit from ING Capital LLC, as the issuing bank.

As of December 31, 2014, the ING facility permitted up to \$705 million of borrowings with an accordion feature allowing for future expansion of the facility up to a total of \$800 million, and borrowings under the facility bore interest at a rate equal to LIBOR (1-, 2-, 3- or 6-month, at our option) plus 2.25% per annum, with no LIBOR floor, assuming we maintain our current credit rating. Unless extended, the period during which we may make and reinvest borrowings under the facility will expire on August 6, 2017 and the maturity date of the facility is August 6, 2018.

The ING facility is secured by substantially all of our assets, as well as the assets of our wholly-owned subsidiary, FSFC Holdings, Inc. ("Holdings"), and our indirect wholly-owned subsidiary, Fifth Street Fund of Funds LLC ("Fund of Funds"), subject to certain exclusions for, among other things, equity interests in any of our SBIC subsidiaries and equity interests in Funding and Fifth Street Funding II, LLC (which is defined and discussed below) as further set forth in a Guarantee, Pledge and Security Agreement ("ING Security Agreement") entered into in connection with the ING Credit Agreement, among Holdings, ING Capital LLC, as collateral agent, and us. Fifth Street Fund of Funds LLC and FSFC Holdings, Inc. were formed to hold certain of our portfolio companies for tax purposes and have no other operations. None of our SBIC subsidiaries, Funding or Fifth Street Funding II, LLC is party to the ING facility and their respective assets have not been pledged in connection therewith. The ING facility provides that we may use the proceeds and letters of credit under the facility for general corporate purposes, including acquiring and funding leveraged loans, mezzanine loans, high-yield securities, convertible securities, preferred stock, common stock and other investments.

Pursuant to the ING Security Agreement, Holdings and Fund of Funds guaranteed the obligations under the ING Security Agreement, including our obligations to the lenders and the administrative agent under the ING Credit Agreement. Additionally, we pledged our entire equity interest in Holdings and Holdings pledged its entire equity interest in Fund of Funds to the collateral agent pursuant to the terms of the ING Security Agreement.

The ING Credit Agreement and related agreements governing the ING facility required Holdings, Fund of Funds and us to, among other things (i) make representations and warranties regarding the collateral as well as each of our businesses, (ii) agree to certain indemnification obligations, and (iii) agree to comply with various affirmative and negative covenants and other customary requirements for similar credit facilities. The ING facility documents also include usual and customary default provisions such as the failure to make timely payments under the facility, the occurrence of a change in control, and the failure by us to materially perform under the ING Credit Agreement and related agreements governing the facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting our liquidity, financial condition and results of operations. We are currently in compliance with all financial covenants under the ING facility.

Each loan or letter of credit originated under the ING facility is subject to the satisfaction of certain conditions. We cannot be assured that we will be able to borrow funds under the ING facility at any particular time or at all.

As of December 31, 2014, we had \$582.0 million of borrowings outstanding under the ING facility, which had a fair value of \$582.0 million. Our borrowings under the ING facility bore interest at a weighted average interest rate of 2.656% for the three months ended December 31, 2014. For the three months ended December 31, 2014 and December 31, 2013, we recorded interest expense of \$2.9 million and \$2.8 million, respectively, related to the ING facility.

Sumitomo Facility

On September 16, 2011, Fifth Street Funding II, LLC, a consolidated wholly-owned bankruptcy remote, special purpose subsidiary ("Funding II"), entered into a Loan and Servicing Agreement ("Sumitomo Agreement") with respect to a seven-year credit facility ("Sumitomo facility") with Sumitomo Mitsui Banking Corporation ("SMBC"), an affiliate of Sumitomo Mitsui Financial Group, Inc., as administrative agent, and each of the lenders from time to time party thereto, in the amount of \$200 million.

As of December 31, 2014, the Sumitomo facility permitted up to \$125 million of borrowings (subject to collateral requirements), and borrowings under the facility bore interest at a rate of LIBOR (1-month) plus 2.25% per annum, with no LIBOR floor. Unless extended, the period during which we may make and reinvest borrowings under the facility will expire on September 16, 2016, and the maturity date of the facility is September 16, 2020, with an option for a one-year extension.

In connection with the Sumitomo facility, we concurrently entered into a Purchase and Sale Agreement with Funding II, pursuant to which we will sell to Funding II certain loan assets we have originated or acquired, or will originate or acquire.

The Sumitomo Agreement and related agreements governing the Sumitomo facility required both Funding II and us to, among other things (i) make representations and warranties regarding the collateral as well as each of our businesses, (ii) agree to certain indemnification obligations, and (iii) comply with various covenants, servicing procedures, limitations on acquiring and disposing of assets, reporting requirements and other customary requirements for similar credit facilities, including a prepayment penalty in certain cases. The Sumitomo facility agreements also include usual and customary default provisions such as the failure to make timely payments under the facility, a change in control of Funding II, and the failure by Funding II or us to materially perform under the Sumitomo Agreement and related agreements governing the Sumitomo facility, which, if not complied with, could accelerate repayment under the facility, thereby materially and adversely affecting our liquidity, financial condition and results of operations. Funding II was formed for the sole purpose of entering into the Sumitomo facility and has no other operations.

The Sumitomo facility is secured by all of the assets of Funding II. Each loan origination under the facility is subject to the satisfaction of certain conditions. We cannot be assured that Funding II will be able to borrow funds under the Sumitomo facility at any particular time or at all. As of December 31, 2014, we had \$35.5 million of borrowings outstanding under the Sumitomo facility which had a fair value of \$35.5 million. Our borrowings under the Sumitomo facility bore interest at a weighted average interest rate of 2.447% for the three months ended December 31, 2014. For the three months ended December 31, 2014 and December 31, 2013, we recorded interest expense of \$0.5 million and \$0.5 million, respectively, related to the Sumitomo facility.

As of December 31, 2014, except for assets that were funded through our SBIC subsidiaries, substantially all of our assets were pledged as collateral under the ING facility or the Sumitomo facility. With respect to the assets funded through our SBIC subsidiaries, the SBA, as a creditor, will have a superior claim to the SBIC subsidiaries' assets over our stockholders.

The following table describes significant financial covenants with which we must comply under the ING facility on a quarterly basis. The Sumitomo facility does not require us to comply with significant financial covenants:

Financial Covenant	Description	Target Value	Reported Value (1)
Minimum shareholders' equity	Net assets shall not be less than the greater of (a) 40% of total assets and (b) \$825 million plus 50% of the aggregate net proceeds of all sales of equity interests after August 6, 2013	\$1,067 million	\$1,478 million
Asset coverage ratio	Asset coverage ratio shall not be less than 2.10:1	2.10:1	2.76:1
Interest coverage ratio	Interest coverage ratio shall not be less than 2.50:1	2.50:1	4.15:1

(1) As contractually required, we report financial covenants based on the last filed quarterly or annual report, in this case our Form 10-K for the year ended September 30, 2014. We were also in compliance with all financial covenants under these credit facilities based on the financial information contained in this Form 10-Q for the quarter ended December 31, 2014.

We and our SBIC subsidiaries are also subject to certain regulatory requirements relating to our borrowings. For a discussion of such requirements, see "Item 1. Business — Regulation — Business Development Company Regulations" and "— Small Business Investment Company Regulations" in our Annual Report on Form 10-K for the year ended September 30, 2014.

Convertible Notes

On April 12, 2011, we issued \$152 million of Convertible Notes, including \$2 million issued to Leonard M. Tannenbaum, our former Chief Executive Officer. The Convertible Notes were issued pursuant to an Indenture, dated April 12, 2011 (the "Indenture"), between us and Deutsche Bank Trust Company Americas, as trustee (the "Trustee").

The Convertible Notes mature on April 1, 2016 (the "Maturity Date"), unless previously converted or repurchased in accordance with their terms. The Convertible Notes bear interest at a rate of 5.375% per annum payable semi-annually in arrears on April 1 and October 1 of each year. The Convertible Notes are our unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles.

Prior to the close of business on the business day immediately preceding January 1, 2016, holders may convert their Convertible Notes only under certain circumstances set forth in the Indenture, such as during specified periods when our shares of common stock trade at more than 110% of the then applicable conversion price or the Convertible Notes trade at less than 98% of their conversion value. On or after January 1, 2016 until the close of business on the business day immediately preceding the Maturity Date, holders may convert their Convertible Notes at any time. Upon conversion, we will deliver shares of our common stock. The conversion rate was initially, and currently is, 67.7415 shares of common stock per \$1,000 principal amount of Convertible Notes (equivalent to a conversion price of approximately \$14.76 per share of common stock). The conversion rate is subject to customary anti-dilution adjustments, including for any cash dividends or distributions paid on shares of our common stock in excess of a monthly distribution of \$0.1066 per share, but will not be adjusted for any accrued and unpaid interest. In addition, if certain corporate events occur prior to the Maturity Date, the conversion rate will be increased for converting holders. Based on the current conversion rate, the maximum number of shares of common stock that would be issued upon conversion of the \$115.0 million Convertible Notes outstanding at December 31, 2014 is 7,790,273. If we deliver shares of common stock upon a conversion at the time our net asset value per share exceeds the conversion price in effect at such time, our stockholders may incur dilution. In addition, our stockholders will experience dilution in their ownership percentage of our common stock upon our issuance of common stock in connection with the conversion of

our Convertible Notes and any distributions paid on our common stock will also be paid on shares issued in connection with such conversion after such issuance. The shares of common stock issued upon a conversion are not subject to registration rights.

We may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect to us, holders of the Convertible Notes may require us to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The Indenture contains certain covenants, including covenants requiring us to provide financial information to the holders of the Convertible Notes and the Trustee if we cease to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the Indenture. We may repurchase the Convertible Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any Convertible Notes repurchased by us may, at our option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by us. Any Convertible Notes surrendered for cancellation will be promptly canceled and no longer outstanding under the Indenture. During the three months ended December 31, 2014 and December 31, 2013, we did not repurchase any Convertible Notes in the open market. We have repurchased \$37.0 million in principal amount of the Convertible Notes in the open market since they were issued.

For the three months ended December 31, 2014 and December 31, 2013, we recorded interest expense of \$1.7 million and \$1.7 million, respectively, related to the Convertible Notes.

As of December 31, 2014, there were \$115.0 million Convertible Notes outstanding, which had a fair value of \$118.9 million.

2019 Notes

On February 26, 2014, we issued \$250.0 million in aggregate principal amount of our 4.875% unsecured notes due 2019 (the "2019 Notes") for net proceeds of \$244.4 million after deducting original issue discount of \$1.4 million, underwriting commissions and discounts of \$3.7 million and offering costs of \$0.5 million. The original issue discount on these notes is amortized on a straight-line basis over the term of the notes.

The 2019 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the first supplemental indenture, dated February 26, 2014 (collectively, the "2019 Notes Indenture"), between us and the Trustee. The 2019 Notes are our general unsecured obligations that rank senior in right of payment to all of our existing and future indebtedness that is expressly subordinated in right of payment to the 2019 Notes. The 2019 Notes rank equally in right of payment with all of our existing and future liabilities that are not so subordinated. The 2019 Notes effectively rank junior to any of our secured indebtedness (including unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness. The 2019 Notes rank structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

Interest on the 2019 Notes is paid semi-annually on March 1 and September 1, at a rate of 4.875% per annum. The 2019 Notes mature on March 1, 2019 and may be redeemed in whole or in part at any time or from time to time at our option prior to maturity.

The 2019 Notes Indenture contains certain covenants, including covenants requiring our compliance with (regardless of whether we are subject to) the restrictions on dividends, distributions and purchase of capital stock set forth in Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring us to provide financial information to the holders of the 2019 Notes and the Trustee if we cease to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2019 Notes Indenture. We may repurchase the 2019 Notes in accordance with the 1940 Act and the rules promulgated thereunder. In addition, holders of the 2019 Notes can require us to repurchase the 2019 Notes at 100% of their principal amount upon the occurrence of certain change of control events as described in the 2019 Notes Indenture. The 2019 Notes are issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. During the three months ended December 31, 2014, we did not repurchase any of the 2019 Notes in the open market.

For the three months ended December 31, 2014, we recorded interest expense of \$3.5 million related to the 2019 Notes.

As of December 31, 2014, there were \$250.0 million of 2019 Notes outstanding, which had a fair value of \$258.2 million.

2024 Notes

On October 18, 2012, we issued \$75.0 million in aggregate principal amount of our 5.875% 2024 Notes (the "2024 Notes") for net proceeds of \$72.5 million after deducting underwriting commissions of \$2.2 million and offering costs of \$0.3 million.

The 2024 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the first supplemental indenture, dated October 18, 2012 (collectively, the "2024 Notes Indenture"), between us and the Trustee. The 2024 Notes are our unsecured

obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the 2024 Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles.

Interest on the 2024 Notes is paid quarterly in arrears on January 30, April 30, July 30 and October 30, at a rate of 5.875% per annum. The 2024 Notes mature on October 30, 2024 and may be redeemed in whole or in part at any time or from time to time at our option on or after October 30, 2017. The 2024 Notes are listed on the New York Stock Exchange under the trading symbol "FSCE" with a par value of \$25.00 per share.

The 2024 Notes Indenture contains certain covenants, including covenants requiring our compliance with (regardless of whether we are subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act and with the restrictions on dividends, distributions and purchase of capital stock set forth in Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring us to provide financial information to the holders of the 2024 Notes and the Trustee if we cease to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2024 Notes Indenture. We may repurchase the 2024 Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any 2024 Notes repurchased by us may, at our option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by us. Any 2024 Notes surrendered for cancellation will be promptly canceled and no longer outstanding under the 2024 Notes Indenture. During the three months ended December 31, 2014 and December 31, 2013, we did not repurchase any of the 2024 Notes in the open market.

For the three months ended December 31, 2014 and December 31, 2013, we recorded interest expense of \$1.2 million and \$1.2 million, respectively, related to the 2024 Notes.

As of December 31, 2014, there were \$75.0 million 2024 Notes outstanding, which had a fair value of \$74.5 million.

2028 Notes

In April and May 2013, we issued \$86.3 million in aggregate principal amount of our 6.125% unsecured notes due 2028 (the "2028 Notes") for net proceeds of \$83.4 million after deducting underwriting commissions of \$2.6 million and offering costs of \$0.3 million. The proceeds included the underwriters' full exercise of their overallotment option.

The 2028 Notes were issued pursuant to an indenture, dated April 30, 2012, as supplemented by the second supplemental indenture, dated April 4, 2013 (collectively, the "2028 Notes Indenture"), between us and the Trustee. The 2028 Notes are our unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the 2028 Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles. Interest on the 2028 Notes is paid quarterly in arrears on January 30, April 30, July 30 and October 30, at a rate of 6.125% per annum. The 2028 Notes mature on April 30, 2028 and may be redeemed in whole or in part at any time or from time to time at our option on or after April 30, 2018. The 2028 Notes are listed on the NASDAQ Global Select Market under the trading symbol "FSCFL" with a par value of \$25.00 per share.

The 2028 Notes Indenture contains certain covenants, including covenants requiring our compliance with (regardless of whether we are subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act, as well as covenants requiring us to provide financial information to the holders of the 2028 Notes and the Trustee if we cease to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the 2028 Notes Indenture. We may repurchase the 2028 Notes in accordance with the 1940 Act and the rules promulgated thereunder. Any 2028 Notes repurchased by us may, at our option, be surrendered to the Trustee for cancellation, but may not be reissued or resold by us. Any 2028 Notes surrendered for cancellation will be promptly canceled and no longer outstanding under the 2028 Notes Indenture. During the three months ended December 31, 2014 and December 31, 2013, we did not repurchase any of the 2028 Notes in the open market.

For the three months ended December 31, 2014 and December 31, 2013, we recorded interest expense of \$1.4 million and \$1.3 million, respectively, related to the 2028 Notes.

As of December 31, 2014, there were \$86.3 million 2028 Notes outstanding, which had a fair value of \$86.0 million.

Secured Borrowings

We follow the guidance in ASC 860 when accounting for loan participations and other partial loan sales. Such guidance requires a participation or other partial loan sale to meet the definition of a "participating interest," as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest remain on our Consolidated Statement of Assets and Liabilities and the proceeds are recorded as a secured borrowing until the definition is met. Secured borrowings are carried at fair value to correspond with the related investments, which are carried at fair value.

As of December 31, 2014, secured borrowings at fair value totaled \$22.2 million and the fair value of the loan that is associated with these secured borrowings was \$44.2 million. These secured borrowings were the result of the completion of partial loan sales of a senior secured debt investment totaling \$22.8 million during the year ended September 30, 2014 that did not meet the definition of a participating interest. As a result, sale treatment was not allowed and these partial loan sales were treated as secured borrowings. During the three months ended December 31, 2014, there were \$62.1 million of repayments on secured borrowings.

As of September 30, 2014, secured borrowings at fair value totaled \$84.8 million and the fair value of the investments that are associated with these secured borrowings was \$154.0 million. These secured borrowings were the result of the our completion of partial loan sales of two senior secured debt investments totaling \$87.8 million during the year ended September 30, 2014 that did not meet the definition of a participating interest. As a result, sale treatment was not allowed and these partial loan sales were treated as secured borrowings. During the year ended September 30, 2014, there were \$3.0 million of repayments on secured borrowings.

As of December 31, 2014, there were \$22.5 million of secured borrowings outstanding, which had a fair value of \$22.2 million. As of September 30, 2014, there were \$84.8 million of secured borrowings outstanding, which had a fair value of \$84.8 million.

For the three months ended December 31, 2014, we recorded interest expense of \$0.5 million related to the secured borrowings.

Total interest expense for the three months ended December 31, 2014 and December 31, 2013 was \$14.0 million and \$10.2 million, respectively.

Off-Balance Sheet Arrangements

We may be a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our portfolio companies. As of December 31, 2014, our only off-balance sheet arrangements consisted of \$350.8 million of unfunded commitments, which was comprised of \$222.2 million to provide debt financing to certain of our portfolio companies, \$106.4 million to provide debt and equity financing to SLF JV I and \$22.2 million related to unfunded limited partnership interests. As of September 30, 2014, our only off-balance sheet arrangements consisted of \$325.0 million, which was comprised of \$185.4 million to provide debt financing to certain of our portfolio companies, \$115.0 million to provide debt and equity financing to SLF JV I and \$24.6 million related to unfunded limited partnership interests. Such commitments are subject to our portfolio companies' satisfaction of certain financial and nonfinancial covenants and involve, to varying degrees, elements of credit risk in excess of the amount recognized in our Consolidated Statements of Assets and Liabilities and are not reflected on our Consolidated Statements of Assets and Liabilities.

A summary of the composition of unfunded commitments (consisting of revolvers, term loans, SLF JV I subordinated notes and LLC interests, and limited partnership interests) as of December 31, 2014 and September 30, 2014 is shown in the table below:

Regulated Investment Company Status and Distributions

We elected, effective as of January 2, 2008, to be treated as a RIC under Subchapter M of the Code. As long as we continue to qualify as a RIC, we will not be taxed on our investment company taxable income or realized net capital gains, to the extent that such taxable income or gains are distributed, or deemed to be distributed, to stockholders on a timely basis.

Taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses, and generally excludes net unrealized appreciation or depreciation until realized. Distributions declared and paid by us in a year may differ from taxable income for that year as such distributions may include the distribution of current year taxable income or the distribution of prior year taxable income carried forward into and distributed in the current year. Distributions also may include returns of capital.

To maintain RIC tax treatment, we must, among other things, distribute, with respect to each taxable year, at least 90% of our investment company net taxable income (i.e., our net ordinary income and our realized net short-term capital gains in excess of realized net long-term capital losses, if any). As a RIC, we are also subject to a federal excise tax, based on distribution requirements of our taxable income on a calendar year basis (e.g., calendar year 2013). We anticipate timely distribution of our taxable income in

accordance with tax rules. We did not incur a U.S. federal excise tax for calendar years 2011, 2012 and 2013 and do not expect to incur a U.S. federal excise tax for the calendar year 2014. We may incur a federal excise tax in future years.

We intend to distribute to our stockholders between 90% and 100% of our annual taxable income (which includes our taxable interest and fee income). However, we are partially dependent on our SBIC subsidiaries for cash distributions to enable us to meet the RIC distribution requirements. Our SBIC subsidiaries may be limited by the Small Business Investment Act of 1958, and SBA regulations governing SBICs, from making certain distributions to us that may be necessary to enable us to maintain our status as a RIC. We may have to request a waiver of the SBA's restrictions for our SBIC subsidiaries to make certain distributions to maintain our RIC status. We cannot assure you that the SBA will grant such waiver. Also, the covenants under the Sumitomo facility could, under certain circumstances, restrict Funding and Funding II from making distributions to us and, as a result, hinder our ability to satisfy the distribution requirement. Similarly, the covenants contained in the ING facility may prohibit us from making distributions to our stockholders, and, as a result, could hinder our ability to satisfy the distribution requirement. In addition, we may retain for investment some or all of our net taxable capital gains (i.e., realized net long-term capital gains in excess of realized net short-term capital losses) and treat such amounts as deemed distributions to our stockholders. If we do this, our stockholders will be treated as if they received actual distributions of the capital gains we retained and then reinvested the net after-tax proceeds in our common stock. Our stockholders also may be eligible to claim tax credits (or, in certain circumstances, tax refunds) equal to their allocable share of the tax we paid on the capital gains deemed distributed to them. To the extent our taxable earnings for a fiscal taxable year fall below the total amount of our dividend distributions for that fiscal year, a portion of those distributions may be deemed a return of capital to our stockholders.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, we may be limited in our ability to make distributions due to the asset coverage test for borrowings applicable to us as a business development company under the 1940 Act and due to provisions in our credit facilities and debt instruments. If we do not distribute a certain percentage of our taxable income annually, we will suffer adverse tax consequences, including possible loss of our status as a RIC. We cannot assure stockholders that they will receive any distributions or distributions at a particular level.

In accordance with certain applicable Treasury regulations and private letter rulings issued by the Internal Revenue Service, a RIC may treat a distribution of its own stock as fulfilling its RIC distribution requirements if each stockholder may elect to receive his or her entire distribution in either cash or stock of the RIC, subject to a limitation that the aggregate amount of cash to be distributed to all stockholders must be at least 20% of the aggregate declared distribution. If too many stockholders elect to receive cash, each stockholder electing to receive cash must receive a pro rata amount of cash (with the balance of the distribution paid in stock). In no event will any stockholder, electing to receive cash, receive less than 20% of his or her entire distribution in cash. If these and certain other requirements are met, for U.S. federal income tax purposes, the amount of the dividend paid in stock will be equal to the amount of cash that could have been received instead of stock. We have no current intention of paying dividends in shares of our stock in accordance with these Treasury regulations or private letter rulings.

Related Party Transactions

We have entered into an investment advisory agreement with our investment adviser, Fifth Street Management. Messrs. Berman, Dimitrov and Owens, each an interested member of our Board of Directors, have a direct or indirect pecuniary interest in Fifth Street Management. Fifth Street Management is a registered investment adviser under the Investment Advisers Act of 1940, that is partially and indirectly owned by Fifth Street Asset Management Inc. Pursuant to the investment advisory agreement, fees payable to our investment adviser equal to (a) a base management fee of 2.0% of the value of our gross assets, which includes any borrowings for investment purposes and excludes cash and cash equivalents, and (b) an incentive fee based on our performance. The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20% of our "Pre-Incentive Fee Net Investment Income" for the immediately preceding quarter, subject to a preferred return, or "hurdle," and a "catch up" feature. The second part is determined and payable in arrears as of the end of each fiscal year (or upon termination of the investment advisory agreement) and equals 20% of our "Incentive Fee Capital Gains," which equals our realized capital gains on a cumulative basis from inception through the end of the year, if any, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee. The investment advisory agreement may be terminated by either party without penalty upon no fewer than 60 days' written notice to the other. During the three months ended December 31, 2014 and December 31, 2013, we incurred fees of \$22.8 million and \$21.1 million, respectively, under the investment advisory agreement. During the three months ended December 31, 2014, the Investment Adviser voluntarily waived a portion of the base management fee which resulted in waivers of \$0.1 million.

Pursuant to the administration agreement with FSC CT, which is a wholly-owned subsidiary of our investment adviser, FSC CT will furnish us with the facilities, including our principal executive offices and administrative services necessary to conduct our day-to-day operations, including equipment, clerical, bookkeeping and recordkeeping services at such facilities. In addition, FSC CT will

assist us in connection with the determination and publishing of our net asset value, the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders. We pay FSC CT its allocable portion of overhead and other expenses incurred by FSC CT in performing its obligations under the administration agreement, including a portion of the rent at market rates and the compensation of our chief financial officer and chief compliance officer and their respective staffs. The administration agreement may be terminated by either party without penalty upon no fewer than 60 days' written notice to the other. During the three months ended December 31, 2014 and December 31, 2013, we incurred expenses of \$2.5 million and \$1.7 million, respectively, under the administration agreement.

We have also entered into a license agreement with Fifth Street Capital LLC pursuant to which Fifth Street Capital LLC has agreed to grant us a non-exclusive, royalty-free license to use the name "Fifth Street." Under this agreement, we will have a right to use the "Fifth Street" name, for so long as Fifth Street Management LLC or one of its affiliates remains our investment adviser. Other than with respect to this limited license, we will have no legal right to the "Fifth Street" name. Fifth Street Capital LLC is controlled by Mr. Tannenbaum, our investment adviser's chief executive officer.

Recent Developments

During January 2015, one of our portfolio investments disclosed its substantial financial deterioration that occurred prior to the date of these Consolidated Financial Statements. As a result, we reflected such information in our valuation of this portfolio investment as of December 31, 2014. As more information becomes available, we may experience a further mark-down of the fair value of this investment in the future. The investment may be placed on non-accrual status after the fiscal quarter ended December 31, 2014, as all accrued interest through that date has been paid to us. The investment represents 0.25% of the total portfolio at fair value as of December 31, 2014.

Effective January 21, 2015, our Board of Directors promoted Todd G. Owens to Chief Executive Officer from his former role as President, and also promoted Ivelin M. Dimitrov to President. Leonard M. Tannenbaum, our former Chief Executive Officer, stepped down effective January 20, 2015. Mr. Tannenbaum will continue in his role as Chief Executive Officer of our investment adviser.

On February 3, 2015, our Board of Directors declared the following dividends:

- \$0.06 per share, payable on March 31, 2015 to stockholders of record on March 16, 2015;
- \$0.06 per share, payable on April 30, 2015 to stockholders of record on April 15, 2015;
- \$0.06 per share, payable on May 29, 2015 to stockholders of record on May 15, 2015;
- \$0.06 per share, payable on June 30, 2015 to stockholders of record on June 15, 2015;
- \$0.06 per share, payable on July 31, 2015 to stockholders of record on July 15, 2015; and
- \$0.06 per share, payable on August 31, 2015 to stockholders of record on August 14, 2015.

Recently Issued Accounting Standards

See Note 2 to the Consolidated Financial Statements for a description of recent accounting pronouncements, including the expected dates of adoption and the anticipated impact on our Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks, including changes in interest rates. Changes in interest rates may affect both our cost of funding and our interest income from portfolio investments, cash and cash equivalents and idle funds investments. Our risk management systems and procedures are designed to identify and analyze our risk, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs. Our investment income will be affected by changes in various interest rates, including LIBOR and prime rates, to the extent our debt investments include floating interest rates. In addition, our investments are carried at fair value as determined in good faith by our Board of Directors in accordance with the 1940 Act (See "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies — Investment Valuation"). Our valuation methodology utilizes discount rates in part in valuing our investments, and changes in those discount rates may have an impact on the valuation of our investments.

As of December 31, 2014, 75.3% of our debt investment portfolio (at fair value) and 74.9% of our debt investment portfolio (at cost) bore interest at floating rates. The composition of our floating rate debt investments by cash interest rate floor (excluding PIK) as of December 31, 2014 and September 30, 2014 was as follows:

	December 31, 2014		September 30, 2014	
	Fair Value	% of Floating Rate Portfolio	Fair Value	% of Floating Rate Portfolio
Under 1%	\$ 203,601	10.55%	\$ 181,450	11.05%
1% to under 2%	1,684,290	87.23	1,397,913	85.16
2% to under 3%	27,914	1.45	39,970	2.44
3% and over	14,957	0.77	22,143	1.35
Total	\$ 1,930,762	100.00%	\$ 1,641,476	100.00%

Based on our Consolidated Statement of Assets and Liabilities as of December 31, 2014, the following table shows the approximate annualized increase (decrease) in components of net assets resulting from operations of hypothetical base rate changes in interest rates, assuming no changes in our investment and capital structure:

Basis point increase	Interest income	Interest expense	Net increase (decrease)
500	\$ 77,600	\$ (31,400)	\$ 46,200
400	58,300	(25,100)	33,200
300	39,000	(18,800)	20,200
200	19,800	(12,500)	7,300
100	2,400	(6,200)	(3,800)

We regularly measure exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on this review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates. The following table shows a comparison of the interest rate base for our interest-bearing cash and outstanding investments, at principal, and our outstanding borrowings as of December 31, 2014 and September 30, 2014:

	December 31, 2014		September 30, 2014	
	Interest Bearing Cash and Investments	Borrowings	Interest Bearing Cash and Investments	Borrowings
Money market rate	\$ 110,553	\$ —	\$ 109,046	\$ —
Prime rate	4,044	135,600	1,040	80,000
LIBOR				
30 day	62,809	481,895	62,509	237,395
90 day	1,909,300	34,775	1,546,536	84,750
Fixed rate	664,178	751,250	709,963	751,250
Total	\$ 2,750,884	\$ 1,403,520	\$ 2,429,094	\$ 1,153,395

Item 4. *Controls and Procedures*

All controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective, at the reasonable assurance level, in timely identifying, recording, processing, summarizing, and reporting any material information relating to us that is required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934.

There have been no changes in our internal control over financial reporting that occurred during the three months ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. *Legal Proceedings.*

Although we may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise, we are currently not a party to any pending material legal proceedings.

Item 1A. *Risk Factors.*

There have been no material changes during the three months ended December 31, 2014 to the risk factors discussed in Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended September 30, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

We did not engage in any sales of unregistered securities during the three months ended December 31, 2014. Additionally, we did not issue any shares under our dividend reinvestment plan (“DRIP”).

ADMINISTRATION AGREEMENT

This Agreement (“*Agreement*”) is made as of January 1, 2015 by and between FIFTH STREET FINANCE CORP., a Delaware corporation (the “*Company*”), and FSC CT LLC, a Connecticut limited liability company (the “*Administrator*”).

WITNESSETH:

WHEREAS, the Company is a closed-end management investment company that has elected to be regulated as a business development company (“*BDC*”) under the Investment Company Act of 1940, as amended (the “*Investment Company Act*”); and

WHEREAS, the Company previously engaged FSC, Inc., a New York corporation (the “*Prior Administrator*”) to provide administrative services to the Company; and

WHEREAS, the Administrator previously was FSC CT, Inc. and converted to FSC CT LLC, a Connecticut limited liability company; and

WHEREAS, effective as of the date first set forth above, the Company desires to retain the Administrator to provide administrative services to the Company in the manner and on the terms hereinafter set forth; and

WHEREAS, the Administrator is willing to provide administrative services to the Company on the terms and conditions hereafter set forth;

NOW, THEREFORE, in consideration of the premises and the covenants hereinafter contained and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Company and the Administrator hereby agree as follows:

1. Duties of the Administrator

(a) Employment of Administrator. The Company hereby employs the Administrator to act as administrator of the Company, and to furnish, or arrange for others to furnish, the administrative services, personnel and facilities described below, subject to review by and the overall control of the Board of Directors of the Company (the “*Board*”), for the period and on the terms and conditions set forth in this Agreement. The Administrator hereby accepts such employment and agrees during such period to render, or arrange for the rendering of, such services and to assume the obligations herein set forth subject to the reimbursement of costs and expenses provided for below. The Administrator and such others shall for all purposes herein be deemed to be independent contractors and shall, unless otherwise expressly provided or authorized herein, have no authority to act for or represent the Company in any way or otherwise be deemed agents of the Company.

(b) Services. The Administrator shall perform (or oversee, or arrange for, the performance of) the administrative services necessary for the operation of the Company. Without limiting the generality of the foregoing, to the extent the Company so requires, the Administrator shall provide the Company with office facilities, equipment, clerical, bookkeeping

and record keeping services at such facilities and such other services as the Administrator, subject to review by the Board, shall from time to time determine to be necessary or useful to perform its obligations under this Agreement. The Administrator shall also, on behalf of the Company, conduct relations with custodians, trustees, depositories, transfer agents, dividend disbursing agents, other stockholder servicing agents, accountants, attorneys, underwriters, brokers and dealers, corporate fiduciaries, insurers, banks and such other persons in any such other capacity deemed to be necessary or desirable. The Administrator shall make reports to the Board of its performance of obligations hereunder and furnish advice and recommendations with respect to such other aspects of the business and affairs of the Company, in each case, as it shall determine to be desirable or as reasonably requested by the Board; provided that nothing herein shall be construed to require the Administrator to, and the Administrator shall not, provide any advice or recommendation relating to the securities and other assets that the Company should purchase, retain or sell or any other investment advisory services to the Company pursuant to this Agreement. The Administrator shall provide portfolio collections functions for interest income, fees and warrants and be responsible for the financial and other records that the Company is required to maintain and shall prepare, print and disseminate reports to stockholders, and reports and other materials filed with the Securities and Exchange Commission (the "**SEC**"). In addition, the Administrator will assist the Company in determining and publishing the Company's net asset value, overseeing the preparation and filing of the Company's tax returns, and generally overseeing the payment of the Company's expenses and the performance of administrative and professional services rendered to the Company by others.

2. Records

The Administrator agrees to maintain and keep all books, accounts and other records of the Company that relate to activities performed by the Administrator hereunder and will maintain and keep such books, accounts and records in accordance with the Investment Company Act. In compliance with the requirements of Rule 31a-3 under the Investment Company Act, the Administrator agrees that all records which it maintains for the Company shall at all times remain the property of the Company, shall be readily accessible during normal business hours, and shall be promptly surrendered upon the termination of the Agreement or otherwise on written request. The Administrator further agrees that all records that it maintains for the Company pursuant to Rule 31a-1 under the Investment Company Act will be preserved for the periods prescribed by Rule 31a-2 under the Investment Company Act unless any such records are earlier surrendered as provided above. Records shall be surrendered in usable machine-readable form. The Administrator shall have the right to retain copies of such records subject to observance of its confidentiality obligations under this Agreement.

3. Confidentiality

All confidential information provided by a party hereto, including nonpublic personal information (regulated pursuant to Regulation S-P of the SEC), shall be used by any other party hereto solely for the purpose of rendering services pursuant to this Agreement and, except as may be required in carrying out this Agreement, shall not be disclosed to any third party, without the prior consent of such providing party. The foregoing shall not be applicable to any information

that is publicly available when provided or thereafter becomes publicly available other than through a breach of this Agreement, or that is required to be disclosed to any regulatory or legal authority, or legal counsel of the parties hereto, by judicial or administrative process or otherwise by applicable law or regulation.

4. Compensation; Allocation of Costs and Expenses

In full consideration of the provision of the services of the Administrator, the Company shall reimburse the Administrator for the costs and expenses incurred by the Administrator in performing its obligations and providing personnel and facilities hereunder. The Company will bear all costs and expenses that are incurred in its operation, administration and transactions and not specifically assumed by Fifth Street Management LLC (the “*Adviser*”) pursuant to that certain Investment Advisory Agreement, dated as of May 2, 2011 (the “*Investment Advisory Agreement*”) by and between the Company and the Adviser. Costs and expenses to be borne by the Company include, but are not limited to, fees and expenses relating to: organizational and offering expenses; the investigation and monitoring of the Company’s investments; the cost of calculating the Company’s net asset value; the cost of effecting sales and repurchases of shares of the Company’s common stock and other securities; management and incentive fees payable pursuant to the Investment Advisory Agreement; fees payable to third parties relating to, or associated with, making investments and valuing investments (including third-party valuation firms); transfer agent, trustee and custodial fees; interest payments and other costs related to the Company’s borrowings; fees and expenses associated with marketing efforts (including attendance at investment conferences and similar events); federal and state registration fees; any exchange listing fees; federal, state and local taxes; independent directors’ fees and expenses; brokerage commissions; costs of proxy statements, stockholders’ reports and notices; costs of preparing government filings, including periodic and current reports with the SEC; fidelity bond, liability insurance and other insurance premiums; and printing, mailing, independent accountants and outside legal costs and all other direct expenses incurred by either the Administrator or the Company in connection with administering the Company’s business, including payments under this Agreement.

5. Limitation of Liability of the Administrator; Indemnification

The Administrator (and its officers, managers, partners, agents, employees, controlling persons, members, and any other person or entity affiliated with the Administrator, including without limitation its members, and any person affiliated with its members to the extent they are providing services for or otherwise acting on behalf of the Administrator, Adviser or the Company) shall not be liable to the Company for any action taken or omitted to be taken by the Administrator in connection with the performance of any of its duties or obligations under this Agreement or otherwise as administrator for the Company, and the Company shall indemnify, defend and protect the Administrator (and its officers, managers, partners, agents, employees, controlling persons, members, and any other person or entity affiliated with the Administrator, including without limitation the Adviser, each of whom shall be deemed a third party beneficiary hereof) (collectively, the “*Indemnified Parties*”) and hold them harmless from and against all damages, liabilities, costs and expenses (including reasonable attorneys’ fees and amounts

reasonably paid in settlement) incurred by the Indemnified Parties in or by reason of any pending, threatened or completed action, suit, investigation or other proceeding (including an action or suit by or in the right of the Company or its security holders) arising out of or otherwise based upon the performance of any of the Administrator's duties or obligations under this Agreement or otherwise as administrator for the Company. Notwithstanding the preceding sentence of this Section 5 to the contrary, nothing contained herein shall protect or be deemed to protect the Indemnified Parties against or entitle or be deemed to entitle the Indemnified Parties to indemnification in respect of, any liability to the Company or its security holders to which the Indemnified Parties would otherwise be subject by reason of willful misfeasance, bad faith or gross negligence in the performance of the Administrator's duties or by reason of the reckless disregard of the Administrator's duties and obligations under this Agreement (to the extent applicable, as the same shall be determined in accordance with the Investment Company Act and any interpretations or guidance by the SEC or its staff thereunder).

6. Activities of the Administrator

The services of the Administrator to the Company are not to be deemed to be exclusive, and the Administrator and each of its affiliates is free to render services to others. It is understood that directors, officers, employees and stockholders of the Company are or may become interested in the Administrator and its affiliates, as directors, officers, members, managers, employees, partners, stockholders or otherwise, and that the Administrator and directors, officers, members, managers, employees, partners and stockholders of the Administrator and its affiliates are or may become similarly interested in the Company as stockholders or otherwise.

7. Duration and Termination of this Agreement

(a) This Agreement shall become effective as of the first date above written. This Agreement may be terminated at any time, without the payment of any penalty, upon 60 days' written notice, by the vote of a majority of the outstanding voting securities of the Company, or by the vote of the Company's directors or by the Administrator.

(b) This Agreement shall remain in effect until January __, 2016, and thereafter shall continue automatically for successive annual periods, provided that such continuance is specifically approved at least annually by (a) the vote of the Board, or by the vote of a majority of the outstanding voting securities of the Company and (b) the vote of a majority of the Company's directors who are not parties to this Agreement or "interested persons" (as such term is defined in Section 2(a)(19) of the Investment Company Act) of any such party, in accordance with the requirements of the Investment Company Act and each of whom is an "independent director" under applicable securities exchange listing standards.

(c) This Agreement may not be assigned by a party without the consent of the other party; provided, however, that the rights and obligations of the Company under this Agreement shall not be deemed to be assigned to a newly-formed entity in the event of the merger of the Company into, or conveyance of all of the assets of the Company to, such newly-formed entity; provided, further, however, that the sole purpose of that merger or conveyance is

to effect a mere change in the Company's legal form into another limited liability entity. The provisions of Section 5 of this Agreement shall remain in full force and effect, and the Administrator shall remain entitled to the benefits thereof, notwithstanding any termination of this Agreement.

8. Amendments of this Agreement

This Agreement may be amended pursuant to a written instrument by mutual consent of the parties.

9. Governing Law

This Agreement shall be construed in accordance with the laws of the State of New York and shall be construed in accordance with the applicable provisions of the Investment Company Act. To the extent the applicable laws of the State of New York, or any of the provisions herein, conflict with the provisions of the Investment Company Act, the latter shall control.

10. Entire Agreement

This Agreement contains the entire agreement of the parties and supersedes all prior agreements, understandings and arrangements with respect to the subject matter hereof.

11. Notices

Any notice under this Agreement shall be given in writing, addressed and delivered or mailed, postage prepaid, to the other party at its principal office.

1. I have reviewed this quarterly report on Form 10-Q for the quarter ended December 31, 2014 of Fifth Street Finance Corp.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the consolidated financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the period presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
