Management Commentary

"We assumed management of Oaktree Specialty Lending on October 17, 2017, and began our portfolio repositioning efforts immediately with a focus on protecting principal and minimizing credit losses," said Edgar Lee, Chief Executive Officer of Oaktree Specialty Lending. "Our long term focus involves managing the portfolio down to a core set of more evenly sized, high-conviction investments, restructuring certain loans, exiting positions when we can obtain fair value and, as loans mature or are refinanced, rotating into loans that are better aligned with Oaktree's approach to credit investing. Based on our demonstrated investment process, disciplined approach to underwriting and substantial expertise in restructuring challenged credits, we look forward to building a portfolio that delivers attractive returns to our stockholders over time."

Portfolio and Investment Activity

As of September 30, 2017, the fair value of the investment portfolio was \$1.5 billion and total assets were \$1.6 billion. The investment portfolio was comprised of investments in 125 companies, consisting of debt investments in 88 of our portfolio companies, six of which were public bond issuances and one of which was in Senior Loan Fund JV I, LLC ("SLF JV I"), and equity investments consisting of common stock, preferred stock or other equity interests in 67 of our portfolio companies, one of which was in SLF JV I, 18 of which were in private equity funds and several of which are in portfolio companies in which we also held a debt investment as of September 30, 2017.

At fair value, 92.4% of the Company's portfolio as of September 30, 2017 consisted of debt investments, including 53.9% of first lien loans, 24.1% of second lien loans, and 14.4% of unsecured debt investments, including our debt investments in SLF JV I.

As of September 30, 2017, SLF JV I had \$276.8 million in assets, including senior secured loans to 32 portfolio companies. The joint venture generated income of \$2.8 million for Oaktree Specialty Lending during the fourth quarter.

The weighted average yield on the Company's debt investments as of September 30, 2017, including the return on our mezzanine notes investments in SLF JV I, was 9.6%.

At September 30, 2017, \$1.2 billion of the Company's debt investments, or 83.6% of the total portfolio, at fair value, had floating interest rates.

During the quarter ended September 30, 2017, the Company originated \$155.8 million of investment commitments in nine new and five existing portfolio companies and funded \$168.0 million across new and existing portfolio companies.

During the quarter, the Company received \$243.3 million in connection with the full repayments and exits of 17 of its investments, and an additional \$40.0 million in connection with other paydowns and sales of investments.

Results of Operations

Total investment income for the quarter ended September 30, 2017 was \$35.7 million, including \$31.4 million of cash interest income from portfolio investments. Payment-in-kind ("PIK") interest income, net of PIK collected in cash, represented 5.1% of total investment income for the quarter.

Net expenses for the quarter were \$24.3 million.

Net expenses decreased for the quarter ended September 30, 2017 as compared to the quarters ended June 30, 2017 and September 30, 2016, due primarily to a decrease in Part I incentive fees, which was attributable to lower pre-incentive fee net investment income and, to a lesser extent, a decrease in base management fees, which was attributable to a reduction in the size of the Company's investment portfolio.

Net realized and unrealized losses on the investment portfolio for the quarter were \$136.9 million.

Net unrealized depreciation on the investment portfolio for the quarter was \$116.4 million, which was primarily due to write-downs on six portfolio companies and our equity interest in SLF JV I. Net realized loss for the quarter was \$20.5 million, which was primarily the result of the Company's disposition of ERS Acquisition Corp., offset by gains realized on other dispositions.

Liquidity and Capital Resources

As of September 30, 2017, the Company had \$59.9 million of cash and cash equivalents, total principal value of debt outstanding of \$680.7 million, and \$298.5 million of undrawn capacity on its credit facilities, subject to borrowing base and other limitations. The weighted average interest rate on debt outstanding was 4.25% as of September 30, 2017.

As of September 30, 2017, the Company's total leverage ratio was 0.78x debt-to-equity.

During the quarter ended September 30, 2017, the Company amended its secured syndicated revolving credit facility led by ING Capital LLC to, among other things, reduce its total capacity under the facility to \$525 million, from \$710 million, and extend the reinvestment period to January 31, 2018. In addition, during the quarter, the Company paid off the entire balance of its SBA debentures in the amount of \$148 million.

Dividend Declaration

On August 7, 2017, the Company's Board of Directors declared a fourth quarter dividend of \$0.125 per share, payable on December 29, 2017 to stockholders of record on December 15, 2017.

Dividends are paid primarily from distributable (taxable) income. To the extent taxable earnings for a fiscal taxable year fall below the total amount of dividend distributions for that fiscal year, a portion of those distributions may be deemed a return of capital to the Company's stockholders.

Portfolio Asset Quality

As of September 30, 2017, there were eight investments on which the Company had stopped accruing cash and/or PIK interest or original issue discount ("OID") income that, in the aggregate, represented 16.4% of the debt portfolio at cost and 4.7% at fair value.
